

PARK, WORKS BOARDS AGREE ON BRIDGE PLAN

Adequate Approaches to
Delaware Crossing Is
Proposed.

Theodore Dammeyer, works board president, today proposed to build adequate approaches to Delaware street bridge widening abutting streets if the park board will acquire the two blocks north of the bridge.

Park and works board members discussed joint purchase of the Joseph Balz tract needed for the approaches for \$35,000 Thursday. The park board tentatively agreed to purchase the property if the works board will widen Twenty-eighth street, Talbot street and Washington boulevard, and construct Fall Creek boulevard north of the span. Park Engineer J. E. Perry estimated the street widening and construction will cost about the same as the land expense. An option is in the hands of the city officials.

Anxious for Improvement

"We'll do anything you say to get this improvement. It's been pending four years now," City Engineer A. H. Moore told the park board.

The works board volunteered to improve Pleasant Run boulevard, south drive, from Shelby to Prospect streets, included in the park board program, to equalize the expenditure.

The park and city engineers will confer on the needed improvements and present plans to the board next week.

Divide Coal Contracts

The park board awarded a contract to the Peoples Coal and Cement Company, on the low bid for \$3.90 a ton, for 650 tons of three-by-two inch Indiana fourth vein egg coal, and the Indianapolis Coal Company a 500-ton contract for six-by-three inch at \$4.08. Both companies submitted the same bid on the 500-ton contract.

On motion of Adolph G. Emhardt, to give the entire award to the Peoples, the board cast a tie vote. President John E. Milnor voting with Emhardt to give the entire contract to the one company. Michael E. Foley and Mrs. Mary Hoss voted to split the contract. Foley made the second motion which was unanimous.

A resolution ordering \$24,000 bond issue for comfort stations at Rader and Uddell and Meikel and Wyoming street playgrounds and a golf and caddy house at Pleasant Run golf course was adopted.

KIDNAPED MAN FREED

Ransom of \$5,000 Not Paid to Mexican Bandits.

MEXICO CITY, Aug. 2.—Frederick Hardy, British superintendent at the irrigation works of the J. G. White Engineering Company, in Agua Calientes, who was kidnapped by bandits two months ago has obtained his release. The 10,000-peso (about \$5,000) ransom demanded originally by the bandits was not paid.

Aged Man Injured

ANDERSON, Ind., Aug. 2.—James R. Nighbert, 80, father of Elmer R. Nighbert, chief of the Anderson police department, sustained a broken collar bone while helping his nephew, Walter Spore, with work on the latter's farm near Wilkinson.

PLENTY OF INCENTIVE. SO TWINS MOVE FAST

10-Year-Olds Annex Family Car for Trip to Park.

Having proved that where there's a will and an automobile, there's a way, 10-year-old twin boys visiting in Indianapolis reflected on the wonders of Riverside park today while tinging under parental punishment for their escapade.

Visiting at 2747 Bellefontaine street, Mrs. Maude Noland of Pocomo City, Okla., telephoned police Thursday afternoon her twin sons, Edward and Everett, were missing. Gone also was her automobile.

When told that the boys had been promised a visit to Riverside park, Motor Police Charles Johnson and Otto Raasch escorted the worried mother to the park.

"They were having the time of their lives," said the police report of the successful search. "Car parked at curb; not damaged."

ARMY PLANES TO PASS CITY IN MANEUVERS

Langley Field Bombers Will
Race Across Continent
for Sham Battle.

Sometime today or Saturday the roar of planes will be heard over the city as the Second Bombardment Group from Langley Field, Va., will race across to the continent to ward off a surprise attack on the west coast by a hypothetical enemy.

The giant bombers will be following with but few deviations the

commercial air line of Transcontinental Air Transport, Inc.

The T. A. T. has placed at the disposal of the bombing air fleet the radio and weather bureaus. Special weather reports will be broadcast during the night and the air line radio stations will be able to communicate direct with the army planes in flight.

All radio communication will be on commercial and military wave lengths.

No exact time has been set for the army planes to begin their cross-continent emergency flight as it is desired to have the movement as much of a surprise as possible.

There will be but two stops for fuel, the first at Scott field, Ill., the second at Albuquerque, N. M. The flight is expected to take about thirty-six hours.

The refueling will be done by means of rows of gas drums laid 110 feet apart on the two fields. The full drums will be taken aboard the planes and gasoline pumped into the fuel tanks en route.

FORMER REDCOAT HELD

Canadian ex-Policeman Arrested on
Fight Charge.

Walter Young, 41, of 2052 North Illinois, who said he is a former Canadian Royal Northwest mounted policeman and for seven years an employee of the Indiana state farm at Putnamville, was under arrest today on charges of assault and battery and disorderly conduct preferred by his wife, Mrs. Cecile Young.

Mrs. Young told police her husband beat her and her daughter Margaret, 17, and refused medical aid to the daughter, who is ill.
