

FAR EAST WAR SEEN AS MANY YEARS DISTANT

China and Russia Can Not
Afford Conflict Now,
Simms' Belief.

BY WILLIAM PHILIP SIMMS
Scripps-Howard Foreign Editor
WASHINGTON, Sept. 16.—Russians and Chinese actually are killing one another along the Siberian border, but perilous though the situation undoubtedly is, can not believe any formal declaration of war will follow; at least, not for the present.

Three nations are vitally interested in the fate of this quarter of Asia—China, Russia and Japan—and none of the three wants war at this time. Neither China nor Russia can afford such a luxury, for modern wars cost a great deal of money, and Japan has nothing to gain. Her position in Manchuria and eastern Mongolia becomes stronger with each passing year of peace.

War Likely Later

Eventually it is more than likely that it will take a real war to settle the status of the Asiatic Balkans, a war in which at least three powerful nations will be at grips, but the chances are all against such a war in the very near future.

There is little doubt in my mind that Soviet Russia could pinch off all northern Manchuria in two weeks' time with only two or three divisions. With the armored trains, tanks, excellent cavalry and airplanes she now has concentrated along the Manchurian border, she could strike at the two ends of the Chinese Eastern railway over which the two countries are now quarreling and reach Harbin, in the middle of the line, without much trouble.

For though China rapidly is modernizing her fighting methods, she can not yet cope with the Russians, who, when properly led, are among the best troops in the world.

Would Face Japanese

But the Russian leaders must know that by defeating the Chinese in Manchuria they automatically find themselves face to face with the Japanese, who, under no conceivable circumstances, would permit Russia to regain a foothold on the very ground from which the Japanese drove her in 1905.

Another reason why Moscow would not relish a war with the Chinese at this time is of a political order. She looks upon China and India as the most likely ground for the spread of Communism, and a Russo-Chinese war at this stage of the game seriously would hamper her plans.

AMERICA'S FAMOUS HEALTH RESORT

There is no substitute for quality. Thousands journey yearly to Hot Springs and drink MOUNTAIN VALLEY WATER. As a result of the ever-increasing demand from physicians and the public, we made it possible for those unable to leave home and business to enjoy the benefit of this celebrated water in their own homes.

It is said few people reach the age of 40 with sound kidneys. The human system is filled with poisons which the kidneys strive to eliminate. They become weak from overwork, the organs of elimination are sluggish and the result is some chronic disease. Physicians prescribe MOUNTAIN VALLEY WATER as an aid in the treatment and prevention of Kidney, Bladder and Stomach Disorders, Rheumatism, High Blood Pressure, Bright's Disease and Diabetes. CLASH BREWS ON INDIAN QUIZ

Bureau and Senate Probers
Disagree on Inquiry.

HOGAN WILL BE FALL'S LAWYER

Attorney Who Won Doheny
Fight Is Retained.

By Scripps-Howard Newspaper Alliance
WASHINGTON, Sept. 16.—Fric-

tion is developing between the Indiana bureau and the senate Indian investigating committee, it was learned today.

Whether this will lead to an investigation of some of the acts of Indian Commissioner Rhoads and his assistant, Henry Scattergood, has not been determined.

The friction has arisen because of the manner in which Scattergood handled a departmental inquiry into conditions at the Cherokee Indian school in North Carolina.

Complaints were made that certain women teachers in the school entertained male visitors in their rooms late at night, that devotional services for pupils were curtailed, that too many dances and picnic parties were held and that other objectionable conditions existed.

Frank Christy, Indian bureau investigator, reported that some charges were true and recommended that changes be made. Instead of accepting Christy's report, Scattergood had H. P. Pearls, general superintendent of Indian education, investigate and Pearls said factual disputes in the school were to blame.

Teachers who caused the inquiry were dismissed, as well as some against whom accusations had been made.

Gary Postmaster and City
Court Judge on Wit-
ness List.

By Times Special

SOUTH BEND, Ind., Sept. 16.—Witnesses before the federal grand jury here engaged in an investigation of alleged corruption in Lake county was scheduled today to hear Postmaster Alfred S. Hess of Gary and C. M. Greenlee, judge of the city court there. In addition eight members of the Gary police have been called before the grand jury.

Although subpoenas have not yet been issued, it is reported that other witnesses in this will include Ralph Snyder, publisher of the Gary Post-Tribune, and some of his employees. August Brewer and Ralph Bradford, described as Republican insurgents, and Harry Arnold, a Democrat, and banker at Gary.

Remnants of the Ku-Klux Klan are said to have given District Attorney Oliver M. Loomis considerable aid in obtaining testimony for the inquiry. The Klan is believed to have been angered by conditions during the 1928 election in Lake county when it was charged Negroes were brought from Illinois and permitted to cast ballots.

Each of the units in the merger will operate under its own trade name, although there will be a single general management. Location of headquarters has not been announced.

Factories of the Indianapolis com-

pany are located at 430 North Liberty street, at Thirteenth and Sen-

ate avenue, at Eaton, O., and Rich-

mond, Ind.

USE OF WFBM URGED

Police Committee Recommends 500-
Watt Broadcasting Station.

Use of the WFBM 500-watt radio

broadcasting station in the Pythian building by police radio commission was recommended today by a technical committee which has studied needs of the proposed radio system.

Under the committee's plan, the station can be adapted to police use so reports of robberies and other crimes can be broadcast from police headquarters.

The winners of the 1929 scholar-

ships were Mary E. Edwards and Jeannette Le Saulnier.

William H. Albers, president of the company, said the prize scholar-

TWO FATALITIES DUE TO TRAFFIC OVER WEEK-END

Girl, 5, and Man, 51, Lose
Lives; Another Is Se-
riously Hurt.

Two persons were killed and a third seriously injured in week-end traffic accidents, according to hospital and police reports today.

The dead are: Edna Willis, 5, daughter of Mr. and Mrs. Herbert Willis, 719 East Twenty-second street, and J. H. Smith, 51, Southport.

Asleep in her mother's arms, the little girl was injured fatally when a car driven by her aunt, Mrs. Nellie Nimmens, collided with an auto operated by W. H. Esholman, Connersville, one mile east of Raleigh, Ind., Sunday.

Smith was killed when struck by an Interstate Public Service Company interurban at the Southport depot Saturday night. He walked on the tracks from behind a parked car. Smith was janitor of the Southport high school.

Police today sought the driver of an automobile that struck Hugh Price, 20, of 2302 West Walnut street, on West Sixteenth street, near the Emrichsville bridge, Saturday night, and carried him on the bumper for two miles before stopping to dislodge his body.

Price is in a serious condition at city hospital. Casper Cox, 16, of 1249 North Holmes avenue, Price's companion, also was hit by the speeding car, but only slightly injured.

Others injured in week-end accidents were: Mrs. Edna Robinson, 34, of Albion, Mich.; Irvin Fehlinger, 4, of 15 East Iowa street, leg broken; Mrs. Basil Pottman, Greenwood, Ind.; Schorling Nichel, 21, of 1017 Congress avenue; Cecil Hull, 31, of 2230 Gordon avenue; Robert Ross, 2510 Prospect avenue; Ralph Hemming, 16, of 2121 South Meridian street; Mrs. Grover Standaugh, Edgewood, Ind.; Mrs. Charles Day, 1221 North Tuxedo avenue, and Joseph McIner, 620 East Market street.

It was rumored at the time that he received a million dollar fee. He defended Robert W. Stewart on the two occasions when Stewart was tried for contempt and perjury, and won an acquittal both times. He had no part in any of the Sinclair trials, which terminated in one acquittal and two jail sentences.

Fall goes on trial alone on a charge of taking a bribe from E. L. Doheny. Doheny is under indictment for giving a bribe, but if Fall is acquitted, his case almost certainly will be dropped.

The government is expected to drop also, the conspiracy charge pending against Fall if this case ends in acquittal. The last was a joint charge naming Fall and Sinclair, and Sinclair already has been acquitted. The coming trial probably will end the famous oil cases.

Teachers who caused the inquiry were dismissed, as well as some against whom accusations had been made.
