

ONE BILLION IN NEW CURRENCY IN CIRCULATION

Old Bills to Be Discarded by Late Next Spring is Estimate.

BY CECIL OWEN
United Press Staff Correspondent
WASHINGTON, Oct. 2.—More than \$1,000,000,000 in new small-sized money has been distributed since July 10 when the gigantic task of replacing the old type currency began.

The aggregate amount of paper currency in circulation is about five billions, which means the treasury has completed one-fifth of its job. At this rate old bills should be discarded completely late next spring.

Treasury officials expressed satisfaction today with the distribution of the new bills and their reception by the public. Mechanical and other production difficulties were said to be overcome almost entirely, and henceforth issuance of the smaller money will be speedier.

Chief W. H. Moran of the secret service and other treasury officials discounted reports that the new currency is subject more readily to counterfeiting. There have been three counterfeits since the new bills became legal tender. Reports that the treasury might recall the new money were denied at the treasury.

Federal reserve notes are believed by treasury officials to be the most widely distributed of the new money, though exact figures for this class of currency are lacking. Silver certificates in the amount of \$268,380,000, gold certificates worth \$147,480,000 and United States notes aggregating \$123,504,000 have been issued.

Gone, but Not Forgotten

Automobiles reported to police as stolen belong to:

John Williams, Southport, Ind., Oakland coach, 98-466, from 1127 Shelby street.

George Mortimer, 1431 North Capitol avenue, 71-645, Ford coupe, from in front of 1431 North Capitol avenue.

Elmer Utterback, rural route 2, Greenwood, Ind., Hudson coach 225-976, from Capitol avenue and Ohio street.

Homer Hunt 3505 West Michigan street, Ford roadster, 739-520, from Tenth street and Park avenue.

BACK HOME AGAIN

Stolen automobiles recovered by police belong to:

Carl Laughridge, 863 Virginia avenue, Essex coach, found at Senate avenue and Chesapeake street.

Ford coupe, 13-239, no registration card in car, found at Columbia avenue near Belt railroad.

Takes Radio Position

By Times Special
MARION, Ind., Oct. 2.—Glen W. Earnhart, Marion high school graduate and son of Mr. and Mrs. F. M. Earnhart, Marion, has been named radio inspector for Colorado and will open his office in the Denver Postoffice building, Oct. 1, according to news dispatches from that city. Earnhart was graduated from the high school here in 1921 and from Purdue university in 1925.

KIDNEYS GAVE HIM YEARS OF PAIN

Back-ache is all gone now, and he is perfectly well.

Any skilled workman who faces the day's task, crippled by back-ache or stomach torture, will rejoice with Mr. Walter Bilyard, 311 No. Center Ave., Bradley, Ill., in his complete recovery. Here is his explanation, in his own words:

"For several years, I had kidney trouble and my back ached so terribly that I could hardly stoop over. Working at my machine caused constant agony. All night long, I rested very little, and every morning found me weak, tired and worn-out before the day's work began. My appetite was poor and I had almost despaired of ever being my old self again. But today life looks worth while again. My kidneys are about normal, the constipation relieved, and all the tired, druggy feeling has disappeared. My appetite is good, and hearty eating causes no ill effects. I sleep fine, and am full of pep all day long. This wonderful change is all due to Viuna, and it was my lucky day when I read about it and decided to try it."

Thousands of hopeless sufferers from kidney trouble, back-ache, stomach trouble and rheumatism, have been restored to perfect health by this wonder medicine. Why shouldn't it do as much for you? Try one bottle of Viuna under positive guarantee. \$1 at druggists or mailed postpaid by Iceland Medicine Co., Indianapolis, Ind.

Dahlias Complete Picture

Mr. and Mrs. Walter Blanck, 5347 Park avenue, reared a beautiful daughter. Being something of an artist, they cultivated a garden of perfect dahlias to complete the picture above. In it Elizabeth Blanck, the daughter, holds a few of her parents' most prized flowers.

ROCK 400,000 YEARS OLD TO BE MONUMENT

Boulder Will Be Dedicated at Kansas Tour Fete.

By Times Special
LAWRENCE, Kans., Oct. 2.—An "old settler" of 400,000 years ago will be utilized by the city of Lawrence, Kans., as a monument to old settlers, and will be dedicated Oct. 11, when the city celebrates its seventy-fifth anniversary.

The "old settler" thus to be used is a quartzite boulder, weighing twenty-three tons, brought by glaciators to the Kansas river from South

Dakota, or perhaps from northeastern Nebraska.

Use of the boulder served to call attention to the fact that the Kansas river marks approximately the extreme limit of the second ice cap, which centered in northern Canada, and extended over much of the north central part of what is now the United States.
