

SULLIVAN ASKS G. O. P. AID IN OUSTING 'BOSS'

Democratic Candidate for
Mayor Declares Coffin
Control Supreme.

"No man can be nominated by the Republicans unless he is approved openly or secretly by George V. Coffin and his organization," declared Reginald H. Sullivan, Democratic candidate for mayor, as he opened his campaign with a speech of acceptance of the candidacy at the convention of the Democratic city committee Tuesday night.

His thrust at the George (Boss) Coffin machine was followed by an appeal to Republicans to repudiate the clique within their party, which, he charged, fails to represent them.

Asks Opposition Support
"We will poll a solid Democratic vote," said Sullivan. "But that we may defeat Coffin's purpose to secure control of the city for four years, we must receive many Republican votes. We appeal to Republicans to rebuke this machine, which does not represent either them or their party. We invite them to join hands with us in accomplishing this laudable purpose."

Predicts Election
His acceptance speech drew long applause. The Democratic nominee predicted "history will repeat itself and I will be elected mayor this fall, the same as my father was forty years ago."

The convention adopted a resolution in memory of Thomas Taggart. Frank Baker announced city wide poll to be taken beginning Oct. 5. Mrs. George A. Werbe, vice-chairman, called a meeting of women workers tonight at Democratic headquarters, on the tenth floor of the State Savings and Trust building.

HE'S GOING STRONG Chinese Methuselah Now Is 252

PEIPING, Oct. 2.—The world's oldest man, who, if his given age is correct, would antedate the American republic by almost a century, has been found in Kaishien, a town in southern Szechwan province, in the opinion of Professor Wu Chung-Chieh, dean of the department of education at Minkuo university here.

The man in question is Li Ching-Yung. Dynastic records verify to the professor's satisfaction that Li is now in his 252d year, or more than one-fourth as old as Methuselah, the old man of the Bible, who lived 969 years.

SUGGESTS 'SPANKING' FOR MAN AND GIRL
Professor Wu, verified the old man's great age in the records. Professor Wu understands that Li speaks readily concerning events in his life, and has no trouble recalling incidents which occurred more than one hundred years ago.

Commissioner Kern Holds Young Couple in Mann Act Case.
An "old-fashioned spanking" was the punishment suggested by John W. Kern, United States commissioner, for Jim W. Smith, 21, and Mrs. Hazel Elizabeth Schaeffer, 17, both of Marion, held to the federal grand jury on a white slavery charge. Smith, on parole from the Indiana state reformatory, and the girl, considerably under five feet in height, are charged with violation of the Mann act in going together from Marion to St. Louis and returning.

Mrs. Schaeffer said she couldn't live with her husband because "he was living with another woman." Kern set bond at \$2,000 for Mrs. Schaeffer and \$2,500 for Smith. "As soon as we get out of this trouble we are going to get married, if we can," they told Kern.

GLOSSBRENNER LABOR ATTITUDE IS UNDER LASH

Printing Trades Condemn
Republican Candidate on
Past Activity.

Resolution of the Allied Printing Trades Council of Indianapolis to utilize its resources and unite its efforts against the nomination of Alfred M. Glossbrenner as Republican candidate for mayor was made public today.

As adopted Tuesday night, it reads: "Whereas, The name of Alfred M. Glossbrenner has been suggested as a probable nominee for the office of mayor of the city of Indianapolis; and

Advocates 'American Plan'
"Whereas, His reputation as an ultra-radical anti-laboring man, and an avowed enemy of labor having any rights whatsoever, and his reputation as a foremost advocate of the discredited so-called 'American plan,' 'yellow dog contract,' etc., and the further fact that he has been a bitter advocate for longer hours and less pay for labor, make him a man totally unfit for such a high office; and

"Whereas, Were he to be elected mayor of this city and his policies put in force, every wage earner would find his wage reduced, and longer hours would force many out of employment; this would be a serious blow to business generally, which has prospered as a result of fair wages and fair hours, and time and money to spend to keep the wheels of industry turning; and

"Whereas, For several years it has been apparent the activities of this man and his associates have had a serious and depressing influence on the general welfare of the city, the result which is the cause and answer to the paramount question of recent years, 'What is wrong with Indianapolis?' and

Wins New Beauty Honor

Speaking of giving little girls a hand—artists and sculptors have declared the hands of Zola Gray, above, Boston singer, to be "the most beautiful on the globe." It was a handsome tribute, of course, and Zola has found the distinction quite handy in getting a chance to thumb through new contracts from Broadway producers. Here you see her as the cameraman said "Hands up!" before he shot.

LAUDS FEDERAL BANK

American business is prevented from suffering financial panics through the organization of the Federal Reserve System, L. A. Wiles, vice-president of the Fletcher Savings and Trust Company, told the Universal Club Tuesday noon at the Columbia Club.

"The provisions of the federal reserve system of banking makes it impossible for certain banks to remove from territorial limits prescribed, more than a certain amount of currency and it is impossible for such institutions to 'corner' the money market," Wiles said.

LIQUOR CARGO SEIZED

Ship at Milwaukee Bore Whisky
Valued at \$25,000.

MILWAUKEE, Oct. 2.—Federal prohibition agents confiscated a boat load of Canadian liquor here Monday night. The ship, the S. S. Utica of Buffalo, N. Y., became the prey of the federal officers the moment it cast anchor here. For several hours prohibition agents, assisted by customs guards, searched the ship and took hundreds of bottles of liquor from coal bins, lifeboats and crew quarters.

W. Frank Cunningham, deputy prohibition administrator who supervised the raid, said the best estimate he could make of the value of the confiscated liquor was \$25,000.

Modern Mothers Help Create New Slogan

Millions More Each Year Turn to
Famous External Method
of Treating Colds.

Each year more and more mothers turn to Vicks VapoRub, the modern external treatment for colds, because it is so safe for children's stomachs, as "dosing" is so apt to do.

Originally designed and first used largely for children's colds, this better external method gradually spread as one enthusiastic mother told another. Years of actual use also proved it equally effective for the colds of grown-ups. Today the whole trend of medical practice is away from needless "dosing" and Vicks—a household word in America—is used in more than 60 countries abroad.

The ever-growing demand for Vicks is shown in its familiar slogan, expressing the number of jars used yearly. First announced when Vicks reached "17 Million Jars Yearly"—later raised to "21 Million"—the figures are again being changed, as there are now "Over 26 Million Jars Used Yearly."—Advertisement.

Likewise all those who have to guard their throats...

salesmen, singers, actors, public-speakers and the like... no longer have to stint their smokes, for OLD GOLD is as free of throat irritants as a glass of spring water.

Better tobaccos did it... naturally good tobaccos... extra-prime leaf made irritation-free by the violet rays of sunshine... not by "artificial treatment."
