

## NEW PANEL OF 150 DRAWN FOR STRIKERS' TRIAL

Many Prospective Jurors Frankly Admit Bias Toward Conviction.

BY MORRIS DE HAVEN TRACY  
United Press Staff Correspondent

CHARLOTTE, N. C., Oct. 2.—Trial of four Communists and three textile union members on second-degree murder charges for the killing of Chief of Police O. F. Adenholt of Gastonia during textile strike disorders last June, was interrupted for a time today while deputy sheriffs summoned a new panel of 150 prospective jurors.

The panel was drawn at a night session Tuesday night and Judge M. V. Barnhill then adjourned court until 2 p. m. today.

Although a discouraging number in the first panel of 100 frankly admitted bias and told which way they leaned—almost always toward conviction—rapid progress was made in jury selection Tuesday, considering the circumstances. Five men were passed for both sides and there was hope of filling the seven vacant seats by Wednesday night.

If the examination of jurors shows the temper of the community, most citizens hereabouts already are convinced of the guilt of the accused men. Out of more than eighty questioned, only five were without opinions, about ten were prejudiced in favor of acquittal and about thirty-five were of the belief that the defendants were guilty.

The others either were challenged peremptorily or else had failed to pay their taxes, and hence were disqualifed under the North Carolina law.

### SEVEN MEN SENTENCED TO PENAL INSTITUTIONS

Robbery, Auto Theft, Bogus Checks and Attack Are Charges.

Criminal Judge James A. Collins Tuesday sentenced seven defendants to Indiana penal institutions on felony charges.

They are: Otis Weatherford, 27, one-year state farm sentence on his plea of guilty to issuing fraudulent checks; Thomas Vail, 52, ten-year state prison sentence for robbery and grand larceny; Hugh Piersall, 19, one-year farm sentence for burglary; William Scott, 19, the same sentence for vehicle taking; Ora Davis, 26, one to ten-year reformatory sentence for grand larceny; and Caleb Phillips, 22, the same sentence, for assault and battery with intent to kill.

### DUBLIN PIONEER DIES

Mrs. Sarah Demree Was Oldest Native and First School Pupil.

By Times Special  
DUBLIN, Ind., Oct. 2.—Mrs. Sarah Demree, 88 years, oldest native of Dublin, is dead. She was also the only surviving pupil of the first school in Dublin, a private institution operated by Mrs. Peter Boggs. She saw the building of the first railroad, the old Indiana Central, and the old National road, her father, John Snyder, having assisted in building both. Her father was a stage coach driver, and operated a line between Dublin, Cambridge City and Milton.

Mrs. Demree was a member of the Womans' Relief Corps, Daughters of Rebekah, Order of Pocahontas, and Universalist church.

The pioneer leaves three children, Arthur W. Demree and Mrs. Helen Garthwait, both of Indianapolis, and Harry B. Demree of Dublin.

### EAT FIVE KINDS OF FOODS

Why Noted Scientist Places Sugar and Sugary Foods in the Daily Diet

A noted scientist reminds us that the many tasteful foods in which this country abounds may be classified into: (1) Vegetables and fruits. (2) Protein foods as meat, milk and eggs. (3) Cereals. (4) Sugar and sugary foods. (5) Fats and fat foods.

He reminds us that these five groups may serve as a guide in the selection of foods and the planning of meals. He points out that sugar and sugary foods have been enjoyed from time to time with a variety of supposedly undesirable functions. Usually, on mere hearsay evidence, it has been said that sugar is fattening, or sugar harms the teeth, or sugar clogs the appetite.

As a matter of fact, however, he goes on to say, every physiologist knows that the essential principle in our food are, for the most part, devoid of taste. Sugars alone, of the carbohydrates, have a sweet and agreeable taste. With this exception, our essential foodstuffs, when pure, would soon pall on the palate. In order that everyone may enjoy sugar foods, use a dash of sugar in the cooking of vegetables to develop their freshness and flavor. Use a sprinkling of sugar to make grapefruit and other tart, fresh fruits delicious. Use sugar to entice everyone to enjoy the needed sweets. Use sugar in the making of delicious fruit and milk desserts. Most foods are more delicious and nourishing with sugar. The Sugar Institute.

### Nabbed by Press Reward

Here is Harmon G. Atwater, real estate dealer and mysteriously missing "key witness" in Cleveland's city hall scandal, who eluded arrest for 222 days before he was finally captured in Chicago after a reward of \$10,000 had been offered by The Cleveland Press. Atwater has promised to "tell all" regarding a number of land purchases by the city, which already have resulted in one councilman and his son being sent to the penitentiary.

SUIT ACCIDENT ECHO  
Woman Seeks \$15,000, Charging Reckless Car Driving.  
Suit for \$15,000 damages as result of an accident Feb. 18 at Twenty-

fifth street and Central avenue, against Charles Stewart, was on file today in circuit court. Ida A. Harvey, the plaintiff, alleged she sustained internal and permanent injuries when Schwert failed to stop at a preferential street.

## MOTOR-ROCKET PLANE VISIONED BY ENGLISHMAN

British Designers in Favor of German's New Invention.

BY KEITH JONES,  
United Press Staff Correspondent  
LONDON, Oct. 2.—A combination motor-and-rocket plane was suggested by British airplane designers today as a result of Fritz Von Opel's brief but successful flight in Frankfurt, Germany, Monday in an airplane, propelled by rocket explosions.

It long has been known, the designers said, that while the full power of an airplane is required for the takeoff, only one-half is needed to maintain level flight.

Therefore they asked: Why not equip an airplane with a half-size

engine plus rockets, the rockets to assist the engine in the takeoff only?

Such a development, they said, almost would have a revolutionary effect on the airplane industry, enabling the carrying of larger loads a double distance on about one-half the present engine costs.

The designers, accustomed to one surprise after another, believe Von Opel possibly may succeed in his plan to fly the English channel in his rocket plane, though they prefer to let him demonstrate whether the present explosive rocket is better than one filled with liquid air as a propellant.

The Englishmen now are concentrating their efforts in the field of safety. Plans recently were announced for the world's largest airship, to be equipped with pontoons into which water could be pumped for anchorage at sea.

Another new idea is to provide detachable wings for seaplanes. Thus, a seaplane forced down on the Atlantic could dispense with its wings and gain added buoyancy and stability.

Total number of persons employed in motor vehicle and allied lines is now over four million.

## MOTHERS now learn value of MAGNESIA

Because it is so helpful in keeping babies and children healthy and happy, every mother should know about Phillips Milk of Magnesia.

This harmless, almost tasteless preparation is most effective in relieving those symptoms of babies and children generally caused by souring food in the little digestive tract, such as sour-belching, frequent vomiting, feverishness, colic. As a mild laxative, it acts gently, but certainly, to open the little bowel in constipation, colds, children's diseases.

A teaspoonful of Phillips Milk of Magnesia does the work of half a

pint of lime water in neutralizing cow's milk for infant feeding, and preventing hard curds. Its many uses for mother and child are fully explained in the interesting book, "Useful Information." It will be sent you, FREE. Write The Phillips Co., 117 Hudson St., New York, N. Y.

In buying, be sure to get genuine Phillips Milk of Magnesia. Doctors have prescribed it for over 50 years. "Milk of Magnesia" has been the U. S. Registered Trade Mark of The Chas. H. Phillips Chemical Co., and its predecessor, Chas. H. Phillips, since 1875.—Advertisement.

### AMERICAN HEADS BANK

New York Man is Named Chairman to Form World Institution.

PARIS, Oct. 2.—Jackson E. Reynolds, president of the First Na-

tional bank, New York, has been chosen chairman of the commission for handling German reparations payments, it was said on high authority today.

Reynolds and Melvin A. Taylor, president of the First National bank of Chicago, arrived in France on the Leviathan today as the United States delegates to the commission, which meets at Baden Baden on Thursday.
