

BUSINESS GAIN FORECAST FOR AUTO INDUSTRY

28 Per Cent Increase Due,
Shippers' Convention
Is Told.

Twenty-eight per cent increase in the automobile industry and 7 per cent in general business lines for the next three months was forecast for Indiana and the Ohio valley today by shippers attending the twenty-third annual meeting of the Ohio Valley Shippers' Advisory Board in the Claypool.

J. G. Young, traffic manager of the Chamber of Commerce of Columbus, O., in giving a resume of the shippers and railroad reports, said, "the farmers in this territory are going into the winter months in a much improved condition."

Expresses Optimism

He expressed optimism for the motorcar manufacturers by citing the 28 per cent increased business forecast for October, November and December over the same quarter in 1923.

"Continued activities in construction work, and increase in coal loading have helped those two industries," he asserted.

"The iron and steel mills have an outlook of a 10 per cent increase in business for the ensuing quarter over 1923."

In explaining banking conditions in the Ohio valley he cited the following from the committee's report: "Taking the country as a whole, authorities are agreed that no slackening in business in banking circles is expected for the closing quarter."

Shipments Increase

Increase in coal, coke, ore and merchandise loading is given as the reason for the railroad reports forecasting loading during the next three months, Young said.

"Railroad representatives I have interviewed are optimistic for the year's closing months," he said.

Approximately 600 shippers, producers and traffic men attended the sessions today.

A luncheon was held in the Riley room, followed by a golf tourney on the Speedway course.

APPROVE PLAZA LIGHTS

The new flood lighting system which was inaugurated on Soldiers and Sailors' monument Tuesday night has drawn favorable comment from business men and other citizens, Colonel Oren Perry, monument superintendent, said today.

The system has been completed some time, but was not put in use until Oct. 1, when the legislative appropriation was available. Thirty high-candle power lights illuminate the entire shaft of the monument and greatly enhance the memorial's beauty.

ASTHMA MADE ME DREAD DAMP WEATHER

Now I No Longer Fear Change in
Weather Conditions.

Sufferers of asthma or bronchial troubles are certainly interested in Bert Mattler's experience. Mr. Mattler is well known as the social manager for the Elks Club in St. Petersburg, Fla., for the past several seasons. He is also well known in Detroit, Mich. His summer residence is at Mt. Clemens, Michigan, R. F. D. 3. Mr. Mattler says:

"Due to my business and social connections it is necessary for me to be among the lakes and rivers practically at all times. I am a large heavy set man. Fifty-four years old. Asthma and bronchial troubles were getting the best of me. My health was interfering with my work. What should I do? What could I do? I was up against it. My business and social duties demanded my presence. I was becoming worse and worse, when by a twist of fate I answered one of your ads. I took Jawn Jay's Famous Prescription for a period of about five months. If you or any of your friends are suffering from asthma, bronchitis and chronic coughs you should immediately write for free information and literature to the Argray Drug Company, 15 West Twenty-second street, Indianapolis, Indiana."
