

CHILDREN WILL MEET AT LYRIC FOR FILM TESTS

Hundreds to Take Part in Times Movie; Saturday Set for Tryouts.

Dreams of hundreds of children will come true Saturday, when tryouts are held for the chief roles in the Golden Rule Safety Club movie which is to be made by The Indianapolis Times and the Lyric theater.

All boys and girls who have joined The Indianapolis Times Golden Rule Safety Club will meet in the ballroom of the Lyric theater Saturday morning at 8:30.

The story so is arranged that every boy and girl who joins the club may take part in the movie, although all can not play leading roles.

It would take a story with about 500 leading parts to take care of all the boys and girls who have joined the Golden Rule Safety Club.

It is suggested that each child bring only one chaperon, because the ballroom may not be able to accommodate all the boys and girls.

The Golden Rule Safety Club editor has been besieged by parents who want their children to appear in the movie.

Children in all parts of the city personally have appeared at The Times with their membership blanks, to be sure that they would not be overlooked.

Even during the making of the picture, the children will be impressed with the necessity of being careful on the street, to look twice if necessary before crossing a street.

The Golden Rule Safety Club is trying to make Indianapolis a safer and a better place for boys and girls.

The movie will depict natural boy and girl life in this city.

It makes no difference whether your name or picture has appeared in The Times; be at the Lyric Saturday morning if you have joined the club.

It is impossible to print all the pictures of the children who have joined the club or to print all the names.

HELEN JOHNS BRINGS BEAUTIFUL GIRLS

Well Known Girl Orchestra Will Be Feature at the Lyric Starting Saturday Afternoon for Week.

It is too bad Paris was not a contemporary. Had the gentleman, whose quest for beauty caused him years of arduous search, lived today he probably would not have had to go further than Helen Johns' Glorious Girls, for here are said to be the fairest of the fair, a procession of feminine beauty that would please Paris or any other beauty connoisseur.

Helen Johns' Glorious Girls, head the foursome of RKO vaudeville attractions which make up the stage show at the Lyric starting Saturday. It is said that this particular bevy of girls represents the fairest of thousands of applicants. Be this as it may, it is nevertheless a fact that seldom have ten more attractive or talented girls been assembled in one organization.

Helen Johns' Glorious Girls present "A Rhythm Revue." They offer instrumental rhythm; vocal rhythm; dancing rhythm and if there is rhythm in appearance likewise there is pictorial rhythm.

Even thought they are instrumentalists, the offering of Helen Johns' Glorious Girls, is not considered a band act.

All of the girls are singers and dancers as well as being adept at coaxing lilting melodies from their muted cornets, sweet-toned saxophones and all other instruments that make up an ideal orchestra.

Among the other vaudeville acts are Howard Anderson, Rean Graves and Cole Carroll, offering a scenic comedy sketch called "Taking Her Fishing," and "Le Paul," said to be one of America's foremost exponents of card manipulation.

"The Girl From Havana," an all talking Fox Movietone feature co-starring Lola Lane and Paul Page, is to be seen and heard on the screen.

The story is based on the theft of jewels and the pursuit of the criminals by a clever girl detective.

An interesting feature of the production is the fact that actual talk and sound have been recorded on an ocean liner en route to Havana via the Panama canal.

Other interesting sound scenes in this famous Cuban capital have also been recorded for the first time.

Other theaters today offer. Johnny Burke at the Indiana, "Her Private Life" at the Circle, "The Greene Murder Case" at the Ohio.

"The Awful Truth" at the Granada, "The Hollywood Revue" at the Palace, "Dainty Dolls" at the Mutual, "The Cock Eyed World" at the Apollo, and movies at the Colonial.

"I PRAISE NEW KONJOLA FOR IT ENDED MY ILLS" Indianapolis Man, Service Station Operator, Declares He Should Have Had Konjola First.

"I should have had Konjola long ago; it would have saved me a world of suffering and expense." Often that expression is heard from those happy men and women who have found in Konjola, the new and different medicine, the medicine they should have had in the first place.

MR. JASON A. HOOTEN —Photo by National Studio, Illinois Bldg.

There is no secret, no magic, no mystery about Konjola. It is a scientifically blended remedy of 32 ingredients, 22 of which are the juices of roots and herbs of known medicinal worth. Each of these ingredients has a mission to perform in relieving the ills of the stomach, liver, kidneys and bowels and rheumatism, neuritis and nervousness. But learn the whole story of Konjola; hear its remarkable history, as it wins success after success, triumph upon triumph over cases that have resisted and defied every medicine and treatment tried. Meet the Konjola Man, who is at the Hook Dependable Drug Store, Illinois and Washington streets, Indianapolis, where daily he is explaining Konjola and its merits to all who come to find out what Konjola has done. After all, sufferers are entitled to all the facts about the medicine in which they put their money, their faith and their hope for health. Profit by the experiences of others. Think over the experience of Mr. Jason A. Hooten, operator of the Hooten Service Station, 3901 Orchard avenue, Indianapolis. Just a few days ago, replying over his newly found health, he said to the Konjola Man:

"I should have had Konjola long ago; it would have saved me a world of expense and suffering. For a long time I endured miseries from stomach trouble. In fact, I was in poor health for twenty years. My food simply refused to digest and formed a heavy mass in the pit of my stomach. Gas formed in such large quantities that I became short winded and had wild heart palpitation. I was so weak and nervous that I had to lie down three or four times a day. Nervousness resulted and constipation made matters a great deal worse. Life was just a constant round of suffering.

"A friend told me about Konjola and said that this was the medicine for me. I surely hoped for relief, but had little faith in finding it in Konjola, or any medicine. In fact, I was disgusted with medicines and treatments. But Konjola surely proved to be a different medicine. Just as I was told it would, Konjola went quickly to the seat of my troubles. Constipation was speedily relieved; my digestion improved and my appetite returned. Konjola soothed and quieted my nerves and in five weeks I was like a different man. I have gained eight pounds, have more energy and strength and have been built up in general. That is why I praise Konjola."

So it goes—the same splendid story of success wherever Konjola is given the chance to prove its merits. The Konjola Man is at the Hook Dependable Drug Store, Illinois and Washington streets, Indianapolis, where he is meeting the public daily, introducing and explaining the merits of this master medicine.—Advertisement.

Women Are Free! AN ANCIENT PREJUDICE HAS BEEN REMOVED

Legally, politically and socially woman has been emancipated from those chains which bound her. AMERICAN INTELLIGENCE has exploded the ridiculous theory that forced the stigma of inferiority upon a sex.

"toasting did it"—

Gone is that ancient prejudice against cigarettes—Progress has been made. We removed the prejudice against cigarettes when we removed harmful corrosive ACRIDS (pungent irritants) from the tobaccos.

YEARS ago, when cigarettes were made without the aid of modern science, there originated that ancient prejudice against all cigarettes. That criticism is no longer justified. LUCKY STRIKE, the finest cigarette you ever smoked, made of the choicest tobacco, properly aged and skillfully blended—"It's Toasted."

"TOASTING," the most modern step in cigarette manufacture, removes from LUCKY STRIKE harmful irritants which are present in cigarettes manufactured in the old-fashioned way.

Everyone knows that heat purifies, and so "TOASTING"—LUCKY STRIKE'S extra secret process—removes harmful, corrosive ACRIDS (pungent irritants) from LUCKIES which in the old-fashioned manufacture of cigarettes cause throat irritation and coughing. Thus "TOASTING" has destroyed that ancient prejudice against cigarette smoking by men and by women.

"It's toasted" No Throat Irritation—No Cough.

"It's Toasted"—the phrase that describes the extra "toasting" process applied in the manufacture of Lucky Strike Cigarettes. The finest tobaccos—the Cream of the Crop—are scientifically subjected to penetrating heat at minimum, 260°—maximum, 300°, Fahrenheit. The exact, expert regulation of such high temperatures removes impurities. More than a slogan, "It's Toasted" is recognized by millions as the most modern step in cigarette manufacture.

Buxton and commander J. M. Kenworthy, another labor member, had been mentioned as possible choices for the post, but Secretary Henderson declared it was too early to consider any one's name.

Corns Lift Off

Doesn't hurt one bit. Drop little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers. Your drug-gist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the foot callouses without soreness or irritation.
