# HIGHWAY TRUCK LOAD LIMIT IS DECLARED NEED

State Director Will Ask  
Next Legislature to  
Take Action.

Rigid limitation of length and load of shipments on Hoosier highways will be recommended at the next legislative session by Director John J. Brown of the state highway department.

Brown outlined his program in an address at the Men's Brotherhood meeting at the Meridian Heights Presbyterian church Wednesday night.

It included empowering the state highway department to determine a speed limit for all detours.

## Loads Are Too Heavy

"Our permanent highways were not designed for the tremendous tonnage that is now placed on them," Brown asserted.

"Certainly the state should be empowered to regulate load and length of all trucking and see that these rules are enforced firmly. If we are not given this power our present highway system will be impossible to maintain."

Brown cited the many trucks and trailers on Indiana roads that make a train so long as to shut off vision of other motorists and endanger lives.

## Other States Have Limits

He declared that other states have load limits, and it often happens that three trucks will transport cargoes to the Indiana line, where they will reload and put the entire shipment into two trucks for the unlimited traffic through this state.

"We should not permit these trucks to travel our highways with

Regulation of speed on detours he declared necessary to keep the detours in fit condition for travel and safety.

Speeding now is destroying the detours at a rapid rate, he contended.

# Seventy Years Young!

# AN ANCIENT PREJUDICE HAS BEEN REMOVED

AMERICAN INTELLIGENCE scorns that ancient prejudice which harshly dictated that age was a limiting factor of usefulness. To-day, old age not only commands respect but demands its place in every walk of life.

# "toasting did it"—

Gone is that ancient prejudice against cigarettes—Progress has been made. We removed the prejudice against cigarettes when we removed harmful corrosive ACRIDS (pungent irritants) from the tobaccos.

YEARS ago, when cigarettes were made without the aid of modern science, there originated that ancient prejudice against all cigarettes. That criticism is no longer justified. LUCKY STRIKE, the finest cigarette you ever smoked, made of the choicest tobacco, properly aged and skillfully blended—"It's Toasted."

"TOASTING," the most modern step in cigarette manufacture, removes from LUCKY STRIKE harmful irritants which are present in cigarettes manufactured in the old-fashioned way.

Everyone knows that heat purifies, and so "TOASTING"—LUCKY STRIKE'S extra secret process—removes harmful corrosive ACRIDS (pungent irritants) from LUCKIES which in the old-fashioned manufacture of cigarettes cause throat irritation and coughing. Thus "TOASTING" has destroyed that ancient prejudice against cigarette smoking by men and by women.

"It's Toasted"—the phrase that describes the extra "toasting" process applied in the manufacture of Lucky Strike Cigarettes. The finest tobaccos—the Cream of the Crop—are scientifically subjected to penetrating heat at minimum, 260°—maximum, 300°, Fahrenheit. The exact, expert regulation of such high temperatures removes impurities. More than a slogan, "It's Toasted" is recognized by millions as the most modern step in cigarette manufacture.

# At the Cross-Roads of Health SSS has meant a new day to many a person

A  
CLEAR  
SKIN  
comes from  
within

Lack of appetite, loss of strength, skin eruptions, that "tired feeling" and other human ills may be due to a lack of red cells in your blood.

If you are tired—lack pep—if your skin is not clear—if your appetite is "gone"—you owe it to yourself and friends to try S.S.S.

"MY despair was so great I could have cried. The good cheer and merry happiness of others only mocked at my condition. I had begun to wonder why life could be so cruel. No appetite. No strength. Skin blemishes always embarrassed me. Aches and pains coursed through my body. I wanted to restore my health and live. What was I to do? ... happily the day came and I found the right road to health when a friend recommended S.S.S."

You may be one of the thousands with a low blood count—to this may be attributed "run-down" systems, skin troubles, and even more serious ailments.

Did you know that every cubic millimeter of the normal, healthy person's blood should contain about 5,000,000 red corpuscles? They are the tiny red particles which give blood its color and are carriers of nourishment to the cells of the body. Rich, red blood wards off disease. It is very dangerous to let the blood count remain below normal.

With an increase in the red-blood-cells you will be on the right road to Health. This is Nature's way to body power and to clear skin. Naturally, with your strength restored, it is easier to fight disease and infection; to enjoy your food and to sleep soundly. When firm flesh takes the place of that which was once flabby, you will feel strong—your nerves will become steady—more happiness and friends will follow.

You owe it to yourself and friends to give S.S.S. a trial. It helps Nature build rich, red blood. For more than 100 years S.S.S. has been helping people regain and retain their strength and charm. Thousands of users have testified to its benefits in unsolicited letters of gratitude.
