

FEAR SLIGHT TO JOHNSON MAY WIDEN BREACH

Senate Disturbed Because of Unintended Omission as Hoover Guest.

BY PAUL R. MALLON
United Press Staff Correspondent
WASHINGTON, Nov. 7.—While the omission of Senator Hiram Johnson of California from a White House guest list was sealed as a closed matter so far as the participants were concerned today, Republican leaders in the Senate were fearful it might accentuate the already long list of differences between the White House and the senate.

With the coalition in the saddle writing the tariff bill, the regular leaders are trying to hold every possible vote for the legislation in the face of the split in party ranks which has been widening since the special session began. They are concerned also about the congressional elections which they face next year.

The breach first was opened when Senators William E. Borah of Idaho and Smith W. Brookhart of Iowa, leading campaigners for the President in the campaign last year, led a bolting wing of westerners against Hoover's farm relief program.

More western Republican senators have been falling in line until on Wednesday they commanded a strength of nineteen in the senate roll call on reduction of pig iron rates.

Last week the President said he wanted the tariff bill passed within two weeks or else the senate could be considered an impotent legislative body.

The Johnson matter apparently was closed so far as the official record

is concerned when Hoover made public a letter he had sent Johnson, declaring the omission of his name from the dinner list was the mistake of some attaché of the White House and not an intended slight based on Johnson's opposition to some of the Hoover policies in the senate.

Johnson accepted the statement, although there was no indication the existing unfriendliness of the two had been in any way ameliorated.

It has been indicated one of the Republican tariff leaders, Senator David A. Reed of Pennsylvania, was instrumental in the sending of the explanation to Johnson.

He called at the White House shortly before the letter came and personally offered Johnson an explanation of the mistake. Later in the day Johnson voted against Reed's attempt to raise the duty on pig iron to \$1.50 a ton.

After being champion pugilist of England, John Gully entered politics and became speaker of the house of commons, holding this position for thirty years.

A CLEAR COMPLEXION

Ruddy cheeks—sparkling eyes—most women can have. Dr. F. M. Edwards for 20 years treated scores of women for liver and bowel ailments. During these years he gave his patients a substitute for calomel made of a few well-known vegetable ingredients, naming them Dr. Edwards Olive Tablets. Know them by their olive color.

These tablets are wonder-workers on the liver and bowels, causing a normal action, carrying off the waste and poisonous matter in one's system. If you have a pale face, sallow look, dull eyes, pimples, coated tongue, headaches, a listless, no-good feeling, all out of sorts, inactive bowels, take one of Dr. Edwards Olive Tablets nightly for a time and note the pleasing results.

Thousands of women and men take Dr. Edwards Olive Tablets—now and then to keep fit. 15c, 30c and 60c.—Advertisement.

OFFERS GIRL IN MURDER CASE 'A REAL HOME'

Former Convict-Evangelist Is 'Sure There's Good in Gloria Rouzer.'

By United Press
NEW YORK, Nov. 7.—An unpretentious but comfortable home and shelter await Gloria Rouzer when she returns from New Orleans, where she is held in connection with the death of Jack Kraft. It is owned by Walter D. Britt,

evangelist and ex-convict, who has served time with Gerald Chapman and "Dutch" Anderson, and his wife, a motherly, middle-aged woman, who were among the last to see Gloria before she left New York.

Miss Rouzer can share this home with them if she cares, Britt said, because he believes there is "an awful lot of good in her," and Britt has this reason for believing so.

A sad-faced, heavily-rouged but well-dressed girl slipped in the door of the Greater New York Gospel Mission on the night of Sept. 23 while Britt was conducting the usual night meeting.

She told Britt and his wife she was "remorseful and tired and real lonesome," but she "wanted a thrill out of life."

"I told her she was monkeying with a buzzsaw," Britt said. "The saw got in some of its work." Before she left, Gloria signed a "prayer card," the name "Gay Powell," one she had used when

she was an art student in Paris, was scrawled on the card.

"Life—huh. It didn't mishandle her," Gritt philosophized. "She just sort of mishandled it."

But if Gloria wants to square herself, wants to start life on a different line, she can come right back to New York and there'll be that cozy little place down in Sheephead Bay, Brooklyn, that Britt and his wife have kept going on their joint wages of \$56 a week.

Visitors to the English parliament average 5,000 on ordinary days and more than 20,000 every Saturday.

Youth Has Found The Way! AN ANCIENT PREJUDICE HAS BEEN REMOVED

AMERICAN INTELLIGENCE has cultivated the fertile field of opportunity and invites everyone to roam in search of desired pursuits. Nothing remains of that ancient prejudice which bound the apprentice, without choice, to his career.

"toasting did it"—

Gone is that ancient prejudice against cigarettes—Progress has been made. We removed the prejudice against cigarettes when we removed harmful corrosive ACRIDS (pungent irritants) from the tobaccos.

YEARS ago, when cigarettes were made without the aid of modern science, there originated that ancient prejudice against all cigarettes. That criticism is no longer justified. LUCKY STRIKE, the finest cigarette you ever smoked, made of the choicest tobacco, properly aged and skillfully blended—"It's Toasted."

"TOASTING," the most modern step in cigarette manufacture, removes from LUCKY STRIKE harmful irritants which are present in cigarettes manufactured in the old-fashioned way.

Everyone knows that heat purifies, and so "TOASTING"—LUCKY STRIKE'S extra secret process—removes harmful corrosive ACRIDS (pungent irritants) from LUCKIES which in the old-fashioned manufacture of cigarettes cause throat irritation and coughing. Thus "TOASTING" has destroyed that ancient prejudice against cigarette smoking by men and by women.

"It's Toasted"—the phrase that describes the extra "toasting" process applied in the manufacture of Lucky Strike Cigarettes. The finest tobaccos—the Cream of the Crop—are scientifically subjected to penetrating heat at minimum, 260°—maximum, 300°, Fahrenheit. The exact, expert regulation of such high temperatures removes impurities. More than a slogan, "It's Toasted" is recognized by millions as the most modern step in cigarette manufacture.
