

PEACE PROBLEM HOLDS INTEREST OF ALL NATIONS

Anniversary of Armistice
Finds World Engrossed
With Question.

BY LYLE C. WILSON
United Press Staff Correspondent
WASHINGTON, Nov. 11.—The
eleventh anniversary of the armistice
finds the world preoccupied
with practical and theoretical
efforts to perpetuate peace.
In every part of the world some
disputed international question
either is working toward peaceful
adjustment or is emerging from
such treatment. Many of these dis-
putes are of minor significance, but
each successful settlement means a
bit has been nibbled from the
foundations upon which rests the
conception of war.
Tremendous penalties exacted by
the world war focused interna-
tional attention upon the problem
of peace which is being studied in
three ways:

1. To abolish war.
2. To prevent war.
3. To establish rules which would
minimize the horror of war.

Practical statesmen admit aboli-
tion of war largely is an idealistic
conception although not necessarily
impossible of achievement. The
foremost movement toward aboli-
tion is contained in the Kellogg-
Briand anti-war pact, in which all
great powers and virtually all
others have bound themselves to
renounce war as an instrument of
national policy.

President Hoover's practical pro-
gram of naval reduction is based
upon the theory that a new inter-
national atmosphere was created by
the Kellogg-Briand pact. The im-
pending naval adjustments promises
to be the most important peace de-
velopment of the next twelve
months.

Next in importance, from the
American viewpoint, is the series of
arbitration and conciliation treaties
inaugurated in December, 1927, and
now binding upon the United States
with each of twenty-five nations.
Great Britain's failure to join this
treaty structure disappointed Ameri-
can officials, but the British eventu-
ally are expected to sign.

Statesmen disagree as to the
possibility of abolishing war, al-
though there is general American
confidence it can be curtailed in fre-
quency and perhaps in frightfulness.
All shades of opinion apparently
believe Europe is not likely to face
another war for twenty years. That
judgment is based partly upon ex-
pectation the world war will not be
forgotten soon and partly upon the
condition of European treaties.

POSTAL PROBE WILL BE ASKED

Money-Raising of Lobby
Bodies is Cited.

By Scripps-Howard Newspaper Alliance
WASHINGTON, Nov. 11.—Money-
raising activities of J. A. Arnold and
his two organizations, the Southern
Tariff Association and the American
Taxpayers' League, will be called to
the attention of the postoffice de-
partment, Senator Caraway, chair-
man of the senate lobby investigat-
ing committee, said today.

Caraway said he believed the de-
partment ought to be informed as to
what had been going on and that
it might want to inquire what use
had been made of the mails to
raise funds.

In addition, Caraway said he in-
tended to issue a report giving the
committee's conclusions on uses to
which Arnold had placed the funds
entrusted to the care of his organi-
zations.

"I want to do this in order that
those who have been contributing
may determine whether they want
to continue to do so," Caraway said.

Arnold's testimony virtually is
completed, Caraway said, and the
committee next week will turn to
other phases of its lobby inquiry.

Mayor's Store Robbed
By United Press
LOGANSPORT, Ind., Nov. 11.—
Bandits obtained about \$400 from
the cash register at Mayor Frank
Guthrie's drug store Saturday night
and relieved the mayor of his
pocketbook, while six customers
stood with upraised hands.

**A THREE DAYS' COUGH IS
YOUR DANGER SIGNAL**

Coughs from colds may lead to serious
trouble. You can stop them now with
Creomulsion, an emulsified creosote
that is pleasant to take. Creomulsion is
a medical discovery with two-fold ac-
tion; it soothes and heals the inflamed
membranes and inhibits germ growth.
Of all known drugs, creosote is recog-
nized by high medical authorities as one
of the greatest healing agencies for
coughs from colds and bronchial irri-
tations. Creomulsion contains, in addition
to creosote, other healing elements which
soothe and heal the inflamed mem-
branes and stop the irritation, while the
creosote goes on to the stomach, is ab-
sorbed into the blood, attacks the seat
of the trouble and checks the growth of
the germs.

Creomulsion is guaranteed satisfac-
tory in the treatment of coughs from
colds, bronchitis and minor forms of
bronchial irritations, and is excellent
for building up the system after colds
or flu. Money refunded if not relieved
after taking according to directions.
Ask your druggist. Send coupon for
free sample.

U. S., BRITISH NAVAL MOVES ARE RIDICULED

Once Famous Expert Looks
on Impending Parley
With Pessimism.

By United Press
LONDON, Nov. 11.—America and
Great Britain each should build the
naval armaments deemed necessary
for their respective defenses and
"not squabble over the question of
parity or similar practically unsolv-
able questions," Lord Sydenham of
Combe told the United Press in an
interview today.

Discussing the forthcoming five-
power naval conference in pessimis-
tic terms the white-haired octo-
genarian, patriot and once famous
armament expert was emphatic in
his opinion of naval parity negotia-
tions, under way eleven years after
the World war armistice was signed.
Discussing Prime Minister Mac-
donald's recent visit to the United
States and the naval negotiations,
Lord Sydenham expressed belief that
Japan will demand more cruisers
than she was allotted under the
Washington treaty. He insisted that
Italy is bound to claim parity of
navies with France, which France
probably will refuse.

"As far as I can see," he said, "Mr.
Macdonald and Mr. Hoover have
not got to the question of 'How
much can we come down on our
minimum armament requirements in
order to meet the demands of
other powers?'"

As a result, he continued, parity
becomes the most dangerous question
before the conference.

Referring to future wars, Lord
Sydenham predicted that, despite
air bombing, the modified modern
battleships will remain indispensa-
ble.

Lord Sydenham is known best for
his book, "Fortifications Past, Present
and Future," written in 1890, in
which he predicted the uselessness
of European fortresses, as proved in
the World war. He served in the
army thirty-three years.

ALLEGED ROBBERS HELD

Two Prisoners Identified at Hartford
City.

By Times Special
HARTFORD CITY, Ind., Nov. 11.—
Vaughn Abshire, 38, Keystone,
and Roscoe Bowman, 40, Sturgis,
Mich., held in the Blackford county
jail, here, have been identified as
the men who robbed the Adelphi
Gardens near here, resulting in
shooting of the proprietor, F. L.
Hoffman. He suffered a slight
wound.

Both Hoffman and his wife are
sure the prisoners are the robbers.
Bowman, they say, actually com-
mitted the robbery while Abshire
remained outside, and shot through
a window at Hoffman.
