

# SHORTAGE FUND STANDS; BANK OFFICERS HELD

Flint Bank President and Stockholders Cover All Losses.

By United Press  
FLINT, Mich., Nov. 22.—The three and a half million dollars in personal funds which President Charles S. Mott deposited in the Union Industrial Bank here to cover shortages caused by defalcations of minor officials will be left in the bank as long as it is needed, Mott has announced.

Mott said many stockholders have volunteered to help make up the shortage because they have profited through merging of the bank with the Union Commerce Corporation and the Detroit Guardian group.

Four Union Industrial officials were arraigned Wednesday and held under bonds for hearings on Dec. 6, on charges of embezzlement of the bank's funds. Six others previously had been arraigned and bound over.

The four arraigned Wednesday were Frank A. Monague, former assistant vice-president; Clifford A. Plumb, A. J. Schlosser, and James W. Barron, former tellers.

## OLD AUTO PARTS ARE USED IN TELESCOPE

Farmer Grinds Own Lens to Make Astronomical Instrument.

By United Press  
NORWALK, Wis., Nov. 22.—With some old automobile parts, a few spare dollars and almost unlimited patience, George Koehlar, 63-year-old farmer, has constructed an efficient telescope.

Koehlar's instrument is eight feet long, mounted on a concrete pedestal and has ten-inch lens. The farmer, who likens his interest in astronomy to the average person's interest in radio, built his telescope without instruction, save that obtained from books.

Grinding the lens, Koehlar said was the most difficult and tedious part of his task. The work was accomplished in three weeks with carborundum dust.
