## NAB BONDSMAN FOR LOITERING

Negro Did Not Obey Order  
to Leave Corridors.

"Bond runners" who loaf in corridors of the police station today realized that Municipal Judges Thomas E. Garvin and Dan V. White meant business when they ordered such loitering to cease.

Henry (Gus) Slets, 42, Negro, 2242 Columbia avenue, spent several hours in city prison Monday under a vagrancy charge when he refused to heed warning of court bailiffs to leave the hallway.

Slets, when called before the court late in the afternoon, said he had business in the court.

"Attorneys, bondsmen and citizens who have business should get inside the courtroom or visit the office where they have such transactions to make," Garvin told him. "Leaning against a wall can not be construed as business."

Loiterers have been accused of recognizing persons arrested and carrying their names to professional bondsmen and shyster lawyers, who in turn call at city prison to solicit business.

## PROPOSED THIRD PARTY PICKS UP MANY BACKERS

Political Leaders Watch  
Moves of Liberals  
With Interest.

BY THOMAS L. STOKES  
United Press Staff Correspondent

WASHINGTON, Feb. 11.—Seasoned political leaders are watching with keen interest development of the infant movement for a third party built along slightly new lines, a liberal party professing tolerance in all things as its underlying purpose.

Most practical politicians frankly are skeptical of success for any such new party as proposed by Samuel Harden Church, president of the Carnegie Institute, at a recent meeting of the Association Against the Prohibition Amendment.

Some few, however, connect it with current restlessness with the existing political order and wonder if it may not produce something, if not in the near future, perhaps at a more distant date.

## Would Draw From Both

Church's idea is to draw from both the old parties liberal elements whose aim would be to work for "abolition of hypocrisy, fanaticism and cowardice, of which there is so much among Democrats and Republicans."

It would go beyond a fight against prohibition and embrace a campaign against religious intolerance as well.

That there are not only many of the rank and file, but also leaders, who are ready to throw aside an old party label and pick up a new one was demonstrated in the last campaign when some old line Republicans deserted their party and voted for Alfred E. Smith.

## Considered Significant

They also regard as significant continued dissatisfaction among responsible party men with their parties, notably the recent denunciation of the Republican party in the house because of its stand on prohibition by Representative James M. Beck of Pennsylvania. Former Senator Bruce of Maryland, a nationally known Democrat, is among those who take very sharp issue with the drying of his party, and has become one of the leading figures in the movement for a new political deal.

When such men as Beck and Bruce publicly denounce their parties, it is considered significant, and so is regarded by Church and those who are working with him for the new party.

## HOOVER LANDS SAIL FISH ON FIRST ATTEMPT

President's Initial Triumph  
Is Goal for Others  
in Party.

BY JOSEPH H. BAIRD  
United Press Staff Correspondent

LONG KEY, Fla., Feb. 11.—President Hoover prepared to equal or better today the standard he set for the rest of his party on their first fishing expedition when he successfully fought and landed a six-foot sail fish.

After Mr. Hoover's triumph Monday became known, other members of his fishing party told their respective versions of "the fish that got away."

Associate Justice Stone, of the supreme court, Dr. Joel T. Boone, White House physician, and Lawrence Richey, Mr. Hoover's secretary, all struggled unsuccessfully with game and wily sail fish. However, Boone brought in two fifty-pound amber jacks.

The Washington fishermen are seeking their finny prizes in the warm gulf stream waters about eight miles off this island. It was there Monday that Mr. Hoover, with Stone in a small fishing boat, obtained his prize. It is there the President seeks the "big ones" today.

The opening of the Hoover fishing party Monday coincided with the thirty-first anniversary of the President's and Mrs. Hoover's marriage, although the occasion was not marked by any formal celebration and their guests were said not to have known the day's significance.

WANT TO LOOK YOUNG?

The secret of keeping young is to feel young—to do this you must watch your liver and bowels—there's no need of having a sallow complexion—dark rings under your eyes—pimples—a bilious look in your face—dull eyes with no sparkle. Your doctor will tell you ninety per cent of all sickness comes from inactive bowels and liver.

Dr. Edwards, a well-known physician in Ohio, perfected a vegetable compound as a substitute for calomel to act on the liver and bowels, which he gave to his patients for years.

Dr. Edwards Olive Tablets are gentle in their action yet always effective. They help bring about that natural buoyancy which all should enjoy by toning up the liver and clearing the system of impurities.

Dr. Edwards Olive Tablets are known by their olive color. 15c, 30c, 60c.—Advertisement.
