

## LETTERS FLOOD HOOVER SCORING TARIFF'S RATES

Popular Protest by Mail Exceeds Any on Past Legislation.

*By Scripps-Howard Newspaper Alliance*  
WASHINGTON, May 28.—President Hoover has received more mail on the pending tariff measure than on any other issue confronting his fifteen-month-old administration, it was learned today, and most of it urges him to veto it if it passes congress in its present form. It is expected congress will pass the bill and send it to the White House in ten days, barring unforeseen developments.

All sections and all elements are said to be represented in the protests which have filled the White House mail sacks. They have come from individuals and organizations representing the consumer, as well as from manufacturers and business men. Numerous groups ordinarily in favor of protection have informed him they think it has been undone in the Hawley-Smoot bill.

### Press in Opposition

Editorial clippings carefully posted in the White House scrapbooks reveal most of the press to be in opposition to the measure. Among the newspapers advising the President to disapprove the measure are numerous G. O. P. journals which have supported previous high-tariff revisions.

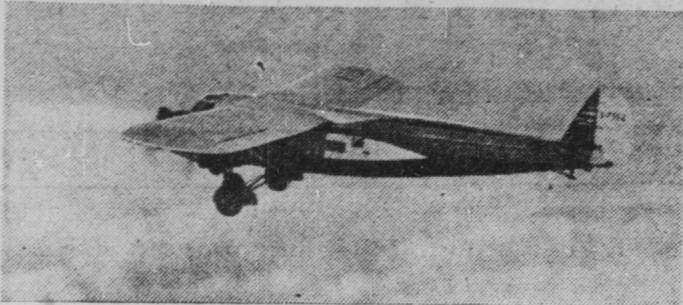

Hoover has instructed the White House staff to segregate the various communications, and he plans to have a digest made of the various viewpoints presented. When the bill reaches him, he intends to give thorough study to the criticisms, especially those from spokesmen of important interests who maintain that general business and prosperity will suffer from the impassable tariff barrier which the bill sets up.

### Popular Interest Great

Besides indicating an apparently adverse reaction, the volume of protests show a greater popular interest in the tariff than has been exhibited in the past. It is understood the President will take cognizance of his fact, which may make the tariff the chief issue in next fall's congressional elections, in a statement accompanying his signature of the measure, should he decide to approve it.

Hoover is said to be planning a statement assuring the public that, though the bill may be imperfect, he will correct mistakes by using the flexible provision permitting the tariff commission and himself to revise the rates upward or downward by a maximum of 50 per cent.

## Pupils Practicing for Annual May Festival

### SULLIVAN TAKES POST ON C. M. T. C. GROUP

Mayor Heartily in Favor of Training for Youth of Country.

Support of Mayor Reginald H. Sullivan, a veteran of the World War, for the citizens' military training camp was announced today by M. M. Andrews, county C. M. T. C. chairman and representative of the Service Club, which is sponsoring enrollment.

Accepting membership on the citizens' sponsoring committee, Mayor Sullivan wrote:

"I shall be very glad to serve as a member of the sponsoring committee. I thoroughly believe in the camps. In the event of war, the graduates therefrom help form the basis for the army, and in time of peace any boy or young man who has had the advantage of the discipline of the camp will find himself benefited physically and mentally."

Enrollment in the camps, which are to be held at Ft. Benjamin Harrison and Camp Knox, Ky., has been completed in the state, but a few vacancies remain for Marion county.
