

STATE HIGHWAY DETOURS ARE IN GOOD CONDITION

Roads Placed in Shape to Meet Heavy Demands of Tour Season.

New detours, installed as construction progressed, and many miles of newly oiled road featured the report of the state highway department in the weekly bulletin issued today.

Both detours and state and county roads were reported in good condition to handle the summer traffic by Director John J. Brown of the department.

General road conditions were listed as follows:

Road 1—Narrow sharp turns between Bettendorf and Metamora. Detour four miles south of Ft. Wayne is four and one-half miles.

Road 7—Closed between Wirt and North Vernon. Through traffic detour over state roads. Indianapolis-Madison traffic goes via Road 29.

Road 9—Detour from Greenfield Junction with Road 67 is fifteen miles. Detour between Columbia City and Merriam is ten miles. Detour south of Columbia City for heavy traffic from one-half miles.

Road 11—Run-around 3½ miles east of Richmond.

Road 14—Bridge run-around fourteen miles west of Winamac.

Road 15—Run-around Warsaw to three miles south of Leesburg. It is five miles. Detour from Wabash to three miles north of Urbana is eleven miles.

Road 26—Bridge run-around 4½ miles east of Lafayette.

Road 28—One-way traffic one mile west of 9.

Road 29—Bridge run-arounds one-half mile south and one-half north of Leesburg. Drive carefully over two temporary bridges eleven and fourteen miles south of Logansport. Detour from Winamac to eight miles north is thirteen miles.

United States Road 30—Run-around at Erie railroad crossing two miles east of Schererville.

U. S. Road 31—Bridge run-around north of Carmel over railroad tracks; should be driven carefully. Detour south of Kokomo is expected to be removed by June 14.

Road 32—Drive slow just west of Noblesville.

Road 33—Detour from Sellersburg to New Albany is nine miles over pavement.

Road 34—Parts of road closed during the day between Waynetown and Crawfordsville.

Road 35—Detour from junction of 35 and 36 to Duanes is ten miles.

Road 37—Unfinished shoulders between Needmore and Bloomington, and between Sulphur and Paoli, necessitates careful driving.

Road 38—Detour north of Frankfort changes as work progresses.

U. S. Road 40—Dustless detour from one-half mile west of Bridgeport to paved 55 into Indianapolis is two and one-half miles.

Road 44—Detour from Rushville to four and one-half miles west of Connersville is twelve and one-half miles.

Road 46—Run-around three and one-half miles east of Columbus. Detour nine miles west of Greensburg is four and one-half miles.

U. S. Road 52—Bridge run-around near Julietta.

Road 67—Detour from three miles north of Lyons to junction of 54 and 67 is six miles. Detour from three and one-half miles south of Worthington to one mile north is six miles. Short detour in Red Key.

DUKE UNIVERSITY TO OPEN NEW COLLEGE

Old Plant Will Be Occupied Next Fall by Women's School.

By United Press DURHAM, N. C., June 13.—Duke university will add a new college for women to the educational assets of North Carolina next fall.

The college will open Sept. 24, using the plant now occupied by the university which will move to its newer unit of buildings on an adjoining 5,100-acre campus.

The present plant consists of a score of buildings, most of them erected in the last five years on a 120-acre campus.

ANGLER LANDS TURTLE

Loggerhead Weighing 150 Pounds Caught With Rod, Reel.

By United Press CRACOKE, N. C., June 13.—Ernest Dever, New Brunswick, N. J., landed a loggerhead turtle, weighing about 150 pounds, in a fishing craft here.

While it is not unusual to catch these turtles in nets, it is not commonplace for one to be landed by rod and reel.

Don't Endure Slipping FALSE TEETH

Do your false teeth drop or slip when you talk, eat, laugh or sneeze? Don't be annoyed and embarrassed a minute longer. Fasteeth, a new power spring, gives the feeling of security and comfort. No gumby, gooky, pasty taste or feeling. Get Fasteeth today at Liggett's, Hook Drug Co., or any other drug store—Advertisement.

STEAM SHOVEL USED TO SCOOP DIAMONDS

Supply of Gems Now Obtained From Surface Instead of Mines.

By Service
WASHINGTON, June 13.—Most of the world's diamond supply no longer comes from mines. They are scooped up with steam shovels.

To be sure, the steam shovels get a lot of sand and only a few

diamonds, but the diamonds can be sifted out as though they were ordinary pebbles. The discarded sand piles up into a veritable artificial mountain.

This gathering of diamonds from the surface is a new development in the obtaining of the world's most valued gems. For centuries diamonds have been dug laboriously from the earth, often at great depths.

But recently diamonds were found

in great numbers in alluvial deposits in South Africa, and now fully 70 per cent of the world's supply comes from these surface scrapings. The largest stone thus far found in the alluvial workings weighs eighty-five carats, and others are almost as large.

About one-quarter of Ireland's male population consists of bachelors. More than 80 per cent of the men between the ages of 25 and 30 are unmarried.

HARVESTS 'LARGE' CROP

Solitary Lemon on Tree Measures

13½ Inches Around.

By United Press

BELLAIRE, Mich., June 13.—J. W.

Thumm recently harvested his

lemon he grew on a 2-year-old tree,

but it measured 13½ inches in circumference and provided lemonade for eight persons.

FIGHTS FIRES 48 YEARS

Assistant Chief, Aged 60, Intends to Continue in "Harness."

By United Press

REED CITY, Mich., June 13.—John Marzoff, assistant fire chief here, has been fighting fires for forty-eight years. He has missed few calls in that time and recently announced he has no intention of retiring although he is 60 years old.

Saturday: The Hoe Without a Man.

dia.—The caluge of East India is a slender fox-headed animal about eighteen inches long. Its feet are fully webbed and constitute the wings which make it a flying mammal. It can sail long distances, and can guide its course. In sleep, it hangs head downward, clinging to a branch of a tree with its hind feet and the prehensile tip of its tail.

Following is the explanation of Ripley's "Believe It or Not" which appeared in Thursday's Times:

MONTE NUOVO, a Mountain Formed in a Single Night—Monte Nuovo (new mountain), in the Bay of Balaclava, near Naples, Italy, formed in a single night (Sept. 23, 1938) as a result of a volcanic eruption, preceded by the usual earthquakes. My cartoon was drawn after an original photograph of the mountain.

Road 33—Detour from Sellersburg to New Albany is nine miles over pavement.

Road 34—Parts of road closed during the day between Waynetown and Crawfordsville.

Road 35—Detour from junction of 35 and 36 to Duanes is ten miles.

Road 37—Unfinished shoulders between Needmore and Bloomington, and between Sulphur and Paoli, necessitates careful driving.

Road 38—Detour north of Frankfort changes as work progresses.

U. S. Road 40—Dustless detour from one-half mile west of Bridgeport to paved 55 into Indianapolis is two and one-half miles.

Road 44—Detour from Rushville to four and one-half miles west of Connersville is twelve and one-half miles.

Road 46—Run-around three and one-half miles east of Columbus. Detour nine miles west of Greensburg is four and one-half miles.

U. S. Road 52—Bridge run-around near Julietta.

Road 67—Detour from three miles north of Lyons to junction of 54 and 67 is six miles. Detour from three and one-half miles south of Worthington to one mile north is six miles. Short detour in Red Key.
