

## 'PORK' CREEPS IN RIVER BILL BEFORE HOOVER

Congress Departs From Its  
Custom of 20 Years: Water  
Measure Sets Record.

*By United Press*  
WASHINGTON, July 2.—The  
rivers and harbors bill, awaiting  
President Hoover's signature, con-  
stitutes a departure from a policy  
established twenty years ago, after  
a bitter congressional fight, which  
was designed to eliminate 'pork'  
from such measures.

Congress at that time adopted the  
policy that proposed river and har-  
bor projects first must be approved  
by the board of army engineers in  
the war department before being  
included in legislation.

Framing the present bill, con-  
gress went beyond the engineers in  
many instances.

The present bill is the biggest in  
the country's history. Estimates of its  
total cost vary from \$120,000,000  
to \$340,000,000.

Congress changed its policy twenty  
years ago after a bitter fight, led  
by the late Senator Burton of Ohio,  
who filibustered a rivers and har-  
bor bill all night, walking about  
in his carpet slippers as he spoke.  
The dramatic battle ended the old  
system whereby congress... in  
by "log-rolling," voted millions of  
government money for local bridges  
and other projects, some of little  
use, except to help the particular  
member in his campaign for re-  
election.

During the senate debate on the

present measure, Senator Vandenberg  
(Rep., Mich.) declared congress  
had overridden the army engineers  
"to the tune of millions of dollars."

While there are some items in the  
bill not approved by the engineers,  
the measure carries out in some of  
its major provisions a large portion  
of President Hoover's inland water-  
way program, whereby the vast sys-  
tem of the middle west will be  
joined with the Great Lakes and the  
Atlantic ocean.

Two of the most important provi-  
sions authorize the federal govern-  
ment to take over the Erie and  
Oswego canals in New York state and  
the Illinois waterway.

The New York canals will be op-  
erated as barge canals only. The  
bill declaring the government's  
policy to be construction of a ship  
route from the Great Lakes to the  
Atlantic through the St. Lawrence.

An appropriation of \$7,500,000 for  
completing the Illinois waterway is  
authorized by the bill. This will  
connect the Mississippi barge sys-  
tem with the Great Lakes.

Congress at that time adopted the  
policy that proposed river and har-  
bor projects first must be approved  
by the board of army engineers in  
the war department before being  
included in legislation.

## 7,000-MILE AIR RACE TO DRAW FAMOUS Fliers

\$36,500 in Prizes Offered  
to Pilots Leading in  
U. S. Plane Derby.

*By United Press*  
DETROIT, July 2.—A 7,000-mile  
airplane race around the United  
States with \$36,500 in prize money  
awaiting the pilots is expected to  
attract America's most famous fliers  
here for the start on July 21.

With the most dangerous part of  
the proposed route, to Monterey  
and Mexico City, Mexico, eliminated  
after a pathfinding tour, and eight

cities offering prizes, in addition to  
the main award of \$25,000 given by  
the American Circus Engine, Inc.,  
sponsors of the derby, to those pilots  
winning laps ending at their air-  
ports, the competition is expected  
to be keen with only the really ex-  
pert birdmen having a chance of  
finishing in the money.

The itinerary: July 21, Detroit  
to New York, with a noon stop at  
Buffalo or Rochester; July 22, Atlanta,  
Ga.; July 23, Little Rock, Ark., or Memphis, Tenn.; July 24,  
Houston, Tex.; July 25, Midland or  
San Angelo, Tex.; July 26, Douglas,  
Ariz.; July 27 and 28, Los Angeles;  
July 29, Oakland, Cal.; July 30, Ogden,  
Utah; July 31, Omaha; Aug. 1,  
Chicago; Aug. 2, return to Detroit.

The route will be covered in  
twelve flying days. Montreal also

was eliminated from the itinerary  
because it was believed difficulties  
might be met in connection with the  
customs. The scores will be tab-  
ulated on the basis of the elapsed  
time in going from one overnight  
stop to another.

The following cities have agreed  
to give additional prizes to pilots  
winning the laps ending on their  
respective fields: Atlanta, Houston,  
Los Angeles, Oakland, Ogden and  
Omaha, \$1,000 each; Douglas, \$300.  
The Detroit Board of Commerce also  
will give \$5,000 to be distributed  
among pilots making the best time,  
but not the first three, making the  
total prizes \$36,500.

Captain Frank Hawks, former  
holder of the transcontinental non-  
stop record, and Luke Christopher,  
secretary of the National Aeronautic  
Association, are to be referees.

## In a secretary it's Capability

## in a cigarette it's Taste

THROUGH COMPETENCE, the individual rises to  
positions of responsibility and respect. Through depen-  
dability of taste, a cigarette attains ever greater popularity.

INCREASING MILLIONS of Chesterfields are lighted  
each day because smokers find that in this cigarette good  
taste is unfailing.

CHESTERFIELDS ARE RICH IN AROMA, flavor and  
fragrance, which come from the right selection of choice  
tobaccos, blended and cross-blended to a rare cigarette  
goodness. They offer the utmost in smoking enjoyment  
... "TASTE above everything".

We state it as our honest belief  
that the tobaccos used in Chester-  
field cigarettes are of finer quality  
and hence of better taste than in  
any other cigarette at the price.

## Transforms Figure

Haag Drug Co., Sirs—"I trans-  
formed the shape of my body in a  
few months by wearing a Brooklyn  
Bridge Abdominal Reducer. Yet, I  
always ate everything in sight. I  
had such a bulging diaphragm and a  
protruding abdomen that my  
clothes never looked right. I can  
wear the latest styles, as I now have  
distinct, trim lines. I have recom-  
mended the Brooklyn Bridge Ab-  
dominal Reducer to all of my  
friends because I think every  
woman that has a large waistline  
or hipline should wear one, as you  
look slender the minute you put  
it on."—MRS. RUTH RICHARD-  
SON, 3312 Roosevelt Ave.

The Brooklyn Bridge Abdominal Reducer is comfortable to wear  
at all times, conforming to every movement of the body. Now  
selling at Haag's 129 W. Washington street store for \$3.43 and  
up. Professional lady fitters. When you can not be fitted from  
the stock, our professional fitters will design one to meet the  
requirements of the person to wear it.
