LOW PRICE OF CANE SUGAR STIMULATES HOME PRESERVING

Winter Food Bills Can Be Materially Reduced by Put- ting Up Fruit Now

One cannot go to market these days without being reminded that this is the year to make jellies, jams and preserves. Luscious fruit is in abundance and cheap everywhere, and pure cane sugar—the best to be had—is offered at an unheard-of low price.

The woman who puts up a dozen jars of fruit or a few glasses of jelly and jam will be surprised at how little they cost her. But the real saving will be noticed later when these delicious home-made preserves make it unnecessary to buy others.

As a means of making menus attractive, there are few foods more helpful than jellies, jams and preserves. For children, canned fruit is a most desirable breakfast dish or dessert.

Sweet pickles and relishes made of cucumbers, tomatoes, cabbage or melon rind are also easy and inexpensive to put up. When served with meat and fish the combination is delicious. Good food promotes good health. The Sugar Institute.

THERE'S a harmony between the natural loveliness of this modern age and the natural, mild goodness of Camels. And if you find them keeping company, don't be surprised.

Camel has given the world the luxury of a naturally *mild* cigarette—a cigarette that preserves all the refreshing fragrance of the choice, mild tobaccos from which it is made—a cigarette that is delightfully smooth, but never flat, never parched, never tasteless.

Modern smokers are awake to the fact that mere flatness doesn't mean *mildness*. That's one reason there's such a swing to Camels. Watch it right in your own crowd. Join them in Camels—a smoke that's enjoyable all the way—all the time.
