

## BETTING LAWS TO GO BEFORE CITY COUNCIL

Ordinances Will Be Studied  
at Meeting Tonight; Taxi  
Cab Fight Is Likely.

Further steps of city officials in crush crime in Indianapolis were expected to be taken by the city council tonight with the introduction of two proposed ordinances aiming at betting on baseball games and horse races.

The council also was to consider the proposed ordinance which would give the safety board complete regulation of taxicabs.

The first of the crime ordinances makes illegal possession of any paraphernalia in connection with placing bets on horses or ball games. The other provides punishment for persons sending or receiving information on wagers by phone or telegraph from any point in Indiana to Indianapolis.

The first step has resulted from the failure of the police to obtain convictions on baseball pools and horse race betting charges. Courts have demanded proof that money was won or lost in the contests and that the tickets bought by customers were indicative of money placed as a wager.

Opposition to the taxi ordinance is expected from officials of the United Cab Company. This company, now operating at a low rate, charges heads of the remaining cab companies in Indianapolis have banded together to establish a minimum rate of 50 cents, a boost over the present United company fares.

City boosters of the ordinance say the law, if enacted, would bring more rigorous inspection of cabs in Indianapolis and aid in reduction of traffic accidents.

Council was to act on appointment of an additional police sergeant; naming of a municipal airport assistant superintendent, and several requests for funds in various city departments.

## 'UNREALITY' IS SUBJECT

Christian Scientists Hear Bible Citations in Sermons.

Sunday lesson-sermon in all Churches of Christ, Scientist, in Indianapolis was on the subject "Unreality." Among Bible citations was the following:

"Be careful for nothing; but in everything by prayer and supplication with thanksgiving let your requests be made known unto God. And the peace of God, which passeth all understanding, shall keep your hearts and minds through Christ Jesus. Finally, brethren, whatsoever things are true, whatsoever things are lovely, whatsoever things are of good report; if there be any virtue, and if there be any praise, think on these things. (Philippians iv, 6-8.)"

## 'GIVE US BEER,' DEMANDS LABOR AT CONVENTION

A. F. of L. Reaffirms For-  
mer Stand on Necessity  
of 2.75 Brew.

By FRANK MURPHY  
United Press Staff Correspondent  
BOSTON, Oct. 6.—The powerful executive council of the American Federation of Labor again today demanded beer of 2.75 per cent alcoholic content.

The report, handed in at the opening session of the federation's annual convention, reaffirmed a stand taken seven years ago by labor. The report said:

"The developments of the last year, as shown in the evil social conditions which had followed failure of the enforcement of the Volstead act, have confirmed the position heretofore taken by the American Federation of Labor in favor of the modification of this act so as to provide for the manu-

facture, sale and distribution of beer containing 2.75 per cent alcohol by weight."

With reference to unemployment, the report said that "to provide aid in finding employment" is labor's foremost duty.

It proposed an unemployment program which would embrace reduction in hours of work, stabilization of industry, efficient management in production and in sales policies, a nation-wide system of employment exchanges, keeping of adequate records, use of public works to meet cyclical unemployment, vocational guidance and retraining, special study of technological unemployment, study of relief proposals and education for life.

The plank concerning reduction in hours of work in the unemployment program urged by the executive council stated that "instead of laying off employees as productivity increases, the work day should be reduced, the work week shortened, and provisions for annual vacations with pay should reduce the work year."

President Hoover is to address the convention at 3 p. m.

The shooting occurred near the Westfield road and Sixty-seventh street.

## LAME DUCKS TO HOLD POWER IN NEXT CONGRESS

Ten of Senate Already Are  
in Class; Six to Retire,  
Four Defeated.

By Scripps-Howard Newspaper Alliance  
WASHINGTON, Oct. 6.—What ever happens in the November elections it is apparent already the next session of congress will be controlled by lame ducks to an extent seldom if ever witnessed here before.

And while there is little chance they will enact the Norris measure, long pending, to abolish lame duck sessions of congress, there is a possibility that the winter's exhibition of lame-duck legislating will furnish the necessary impetus for passage of that measure by the next congress.

Ten of the ninety-six members of the senate already are in the lame duck class, six of them having decided voluntarily to retire from political life, and four of them hav-

ing been defeated, in state primaries. The fate of at least nine others is extremely doubtful.

Of the ten already scheduled for retirement, three are committee chairmen and will thus be able to play an important part in the winter's legislation. They are Phipps, Gould and Deneen; all Republicans, Baird, Gillen and Goff, also Republicans, are serving their last terms. Simmons, defeated in the South Carolina Democratic primaries, is ranking minority member of the senate finance committee. Other Democrats preparing to leave are Blaise, Brock and Ransdell.

Three of the most prominent figures in the house will serve this winter as lame ducks. Louis Crampton of Michigan has been in the house for sixteen years and for much of that time has been in charge of appropriations for the interior department.

In that position he has had much to do with dictating policies for reclamation work, Indian administration, national parks, and other activities of the department.

S. Wallace Dempsey of New York has been in the house almost as long, and is chairman of the important rivers and harbors committee. John C. Box of Texas for years has led the fight for restriction of Mexican immigration. These three leaders can be counted on to accomplish all possible in behalf of their favorite projects before leaving office.
