## Indiana Girl is Rewarded

WHEN children are weak and run-down, they are easy prey to colds or children's diseases. So it is never wise to neglect those weakening and depressing symptoms, such as bad breath, coated tongue, fretfulness, feverishness, biliousness, lack of energy and appetite, etc.

Nine times out of ten these things point to one trouble—constipation. Mothers all around you are coming right out in public to tell how their children are being relieved of this trouble by California Fig Syrup.

Mrs. Ray Bundy, of 245 South Randolph street, Indianapolis, says: "A neighbor told me about it, so I decided to give Margie some California Fig Syrup when I saw by her bad breath, coated tongue and feverishness that she was constipated. "She has been more than rewarded for taking Fig Syrup. It made her a well, happy girl promptly. She never complains of any symptoms of constipation now."

The genuine, endorsed by doctors for 50 years, always bears the word California. All drugstores.

## WALSH MAY RETIRE

Montana Wet Sentiment Is Gaining Impetus.

**By Times Special**  
NEW YORK, Oct. 13.—Public sentiment against prohibition in Montana is likely to result next month in the retirement from public life of United States Senator Thomas J. Walsh, veteran Democratic leader, according to a survey of Montana politics by William G. Shepherd, associate editor of Collier's.

"There is an intensely bitter feeling in Montana against prohibition," Shepherd declared. "The state prohibition law was killed in 1925 by a vote of 53 per cent. In a 1928 referendum this percentage against prohibition increased."

"How much farther the voters will go this year to show that being wet or dry is more important to them than being Republicans or Democrats is anybody's guess. The booze issue has swelled until it crowds every other issue off the platform."

Senator Walsh, Democrat and dry, is opposed by Judge Albert Galen, Republican and wet.

## Poor Studio Politician, Anita's Comeback Fails

BY GEORGE H. BEALE  
United Press Staff Correspondent

HOLLYWOOD, Cal., Oct. 13.—Although four years have passed since Anita Stewart retired from the films there are many in Hollywood who believe a "come-back" might be hers if the fates just shifted things a little.

In fact, some of her friends are so bold as to say that Anita might become a factor in the talking pictures if she would indulge in that most little game of "studio politics."

Miss Stewart admits, however, that she is a very poor politician.

People tell me to give a little dinner. Invite such an such a producer or director. Play up your social connections. Watch carefully as to who you invite to your home. Only associate with those who can further your plans. Fine suggestions but I can't do it."

One of the trophies was presented to her by Rudolph Valentino and she admits that at the time that made just about as much impression on her as a new screen contract at more money.

## IGNORED IN PROBE, DALE DISSATISFIED

Muncie Mayor May Take Further Action in Graft Case.

**By Times Special**  
MUNCIE, Ind., Oct. 13.—Although a report of the Delaware county grand jury had nothing in it derogatory to Mayor George R. Dale, he declares he is dissatisfied and threatens to file a perjury charge against Horace Weber, who is accused of making charges that the present city administration is profiting from street paving contracts.

No mention of the case was made in the grand jury report. Dale had asked that the investigation include himself and other city officials named by Weber.

Commenting on the case, Dale said:

"Inasmuch as it was generally known that the charge was to be investigated, I would have been more pleased if the grand jury's report had been more definite."

"I am undecided as to what course I shall follow against Weber. I may request that the next grand jury make an investigation looking to an indictment for perjury, or I may file charges myself, not only against Weber, but against those who induced him to swear to the charges filed in his complaint. That the grand jury failed to act in the case seems to me to be prima facie evidence that Weber had no basis for his charges, since he testified and had ample opportunity to tell what he knew."

A checkup showed this order to include almost a thousand persons, many of whom were vaccinated immediately. Hundreds of others faced the ordeal today.

Coach Richard E. Hanley, members of his family, members of the football squad, members of all classes Bruder, had in contact with all members of his fraternity, Delta Upsilon, were the first to appear before John W. H. Pollard, health commissioner, and Dr. Samuel J. Lang, university staff physician.

The football captain's case was reported as light, but it was said he probably would be fully recovered in time to play against Minnesota Nov. 1, but in the meantime, he will be out of the games with Illinois and Centre.

Two years ago, his first on the varsity, Bruder was injured in an early game and kept out the remainder of the season. Last year he was hurt in the first game of the year and played no more.

Coach Hanley frequently has said that if Bruder could "shake" his jinx and play a full season he would prove one of the greatest players of all time and would be an almost certain unanimous choice for all-America honors.
