

## RAIL WORKERS TO OPEN 5-DAY WEEK CAMPAIGN

Crafts Leaders Convinced  
Plan Is Only Solution  
of Unemployment.

By Scripps-Hotard Newspaper Alliance  
WASHINGTON, Oct. 23.—A national campaign to extend the five-day week to all railroad workers will be launched at Chicago next month when local chairmen of the "big four" transportation brotherhoods assemble to approve a detailed schedule of the 40-hour week for the various crafts.

The plan to extend the shorter work week to 2,000,000 railroad employees has been under consideration by the Association of Railway Labor executives, for productivity and operating costs have convinced leaders of the twenty-one affiliated railway crafts that the five-day week would involve no increased outlay by the roads.

The increased efficiency of both train and shop operators during the last two years was found to have established a steadily declining curve of unit costs for the various functions, they say.

Coming shortly after the Indianapolis campaign declaration by Senator James E. Watson, Republican leader in the senate, that "the five-day week without reduction of wages must become universal and permanent in America," news of the Chicago railroad meeting aroused

## Should Be Tie

By United Press  
NEW YORK, Oct. 23.—Bates college, Maine, has sent its debaters around the world, but two of its down-east Yankee arguers met their match when they held a radio debate with representatives of Scotch universities.

The subject was, "Resolved, That thrift is not a virtue," and the Bates students had to take the affirmative. That, of course, put them at a disadvantage, for the New Englanders had to argue in favor of spending, while the Scots were right at home.

Two minutes of the allotted half-hour on the air were left when the last speaker, a thrifty Scot, had finished.

Interest in business and labor circles.

Although the five-day week continuously has been extended during the last two years through contract renewals with various local groups, its widespread application to an entire industry never before formally has been advocated.

"Our studies have convinced us that the shorter work week is the only solution to the existing employment situation in the transportation industry," said A. O. Wharton, chairman of one of the co-operating groups.

## MARQUIS GIVES GLORIA LIBERTY

Divorce Suit of Film Star  
Will Not Be Fought.

By United Press  
HOLLYWOOD, Oct. 23.—Gloria Swanson, confined to her Beverly Hills home by illness, received word today that Marquis Henri de la Falaise de la Coudrye will not contest the Los Angeles divorce suit in which she charges him with abandonment.

While attendants reported the film star's illness not serious and that she will recover in a few days, her estranged husband was issuing observations on the possibility or impossibility of marital bliss in Hollywood.

"Hollywood is not conducive to marital happiness," the marquis said. "I have observed there have been a number of divorces here."

"If we had continued to live in Paris we would not now be separated."

Constance Bennett, screen actress in whose company the marquis often has been seen of late, is a "good friend," he said, but as to marriage with her, it is "ridiculous."

Automobile Beats Train

By United Press  
ANDERSON, Ind., Oct. 23.—Three Anderson women, driving a small automobile, have returned here from Boston after attending the national convention of the American Legion, setting a record of making better time going and returning than did their husbands who traveled by

train. The motorists were Mrs. Cleo Jackley, Mrs. Hobart Hinshaw and Mrs. Fern Dankert. They repaired two tires during the trip and encountered heavy rains, but nevertheless, beat the trains.
