### RED PROBERS PLAYED

"Waste of Money—Mistake," Assists Chief of Liberties Union.

By Scripps-Howard Newspaper Alliance WASHINGTON, Dec. 9.—The Fish "Fed" investigating committee of the house was a mistake from the beginning. It has been a waste of money. Its chairman, Representative Fish, has pre-judged the evidence. It has "promoted a spirit of intolerance and repression."

This is the estimate of Roger N. Baldwin, director of the American Civil Liberties Union, which he read to the committee after announcing that he came as an unwilling witness, and did not consider the committee a dispassionate body of investigators.

### COLLISION WITH TRAIN FATAL TO COURT BAILIFF

Dim Lights Given Blame in Auto Crash; Two Others Injured Slightly.

Dim lights today were blamed for an automobile-train crash in which Homer Traub, 52, of R. R. 2, Box 433, superior court bailiff and former state representative, was killed instantly on Hardin road, a quarter-mile south of Rockville road Monday night.

Mrs. Traub and Mrs. Geneva Switzer, R. R. 1, Box 84, riding with him, were injured slightly.

Traub drove his machine into the side of a speeding freight train.

The impact crushed him and hurled Mrs. Traub to the top of one of the cars, on which she was carried several hundred feet before she fell off to the right of the way.

### POLL FAVORS WORLD COURT

1,357 Newspapers Report ed for U. S. Adherence.

By United Press

WASHINGTON, Dec. 9.—That an absolutely overwhelming majority of the people of the United States favor adherence to the world court as asked by President Hoover, was indicated by a nation-wide poll of the daily press, the result of which was announced today.

Out of a total of 2,036 daily newspapers with a combined circulation of 41,097,142, signed statements from 1,357 categorically expressed themselves as favoring ratification of the protocols which soon are to be held before the senate.

Only 265 dailies opposed ratification. This means that of the 1,622 newspapers taking a positive stand on the issue, five out of six unreservedly supported court membership. Of the others, fifty-eight voted "no stand"; fourteen could not be classified definitely, and 342 did not vote.

The inquiry was undertaken by the American Foundation, set up by the late Edward W. Bok, famous editor and founder of the Bok peace prize, on the generally accepted theory that public opinion is more press than in almost any other situation.
