

HOOPER FIGHTS BONDS CASH TO WAR VETERANS

Preparing to Move Publicly to Stifle Plan Gaining Ground in Congress.

By PAUL R. MALLON
United Press Staff Correspondent

WASHINGTON, Dec. 29.—President Hoover is opposed to the project now gaining momentum in congress for paying the World War veterans' insurance compensation in cash. It was learned here today.

Mr. Hoover is preparing to move publicly to stifle the plan if it is advanced seriously by any substantial group in congress.

The stand reported to have been taken by the executive after a conference with Secretary of Treasury Mellon is that the existing condition of the treasury does not warrant any such additional strain being placed upon it.

Against Bond Issue

While the plan is accompanied by suggestions for a bond issue to cover the large amount thought to be necessary for its execution, the executive and treasury department believe the financial structure of the government should not be burdened now with such extensive financing.

Champions of the plan have urged money in circulation and thereby increasing buying as well as affording financial relief to many veterans reported to be in distress.

From this standpoint, neither the executive nor the treasury is convinced of the soundness of the plan. It thus far advanced it was said.

The plan was brought up at the American Legion convention addressed by Mr. Hoover last fall in Boston.

Probe "Racket" Charge

It, however, was not, included in the items of legislation requested by the veterans and submitted to the President. Therefore, it is not being considered at the White House in connection with veterans relief legislation.

Further discussion is expected in congress of the charges and counter charges that a "lobbying racket" exists in the widespread movement to gain veterans support for the cash payment plan.

The charges first were made by Royal Johnson, chairman of the house veterans committee, who said that the commercialized solicitation of approvals for the plan was widespread.

He maintained that a system existed whereby those signing petitions to congress for the project were charged 10 cents for each signature.

JOE SAVOLDI'S WIFE FILES DIVORCE SUIT

Cruelty Alleged Against Former Notre Dame Football Star.

By Times Special

SOUTH BEND, Ind., Dec. 29.—Alleging cruelty, Mrs. Audrey K. Savoldi, 19, has filed suit here for divorce from Joe Savoldi, former back of the University of Notre Dame football team. Shortly before the close of the football season, Savoldi sought a divorce, revealing for the first time to the general public that he was married. Shortly afterward he dropped the matter, but was dismissed from the football team.

Mrs. Savoldi, a stenographer, asks restoration of her maiden name, Koehler. She says she and Savoldi were married April 2, 1929, while she was a student in South Bend high school, and Savoldi, whose home is in Three Oaks, Mich., was enrolled at the university.

BEARDS ONCE REQUIRED FOR ARMY'S OFFICERS

Barrel of Rye Whisky Was Offered as Prize to Best Troop.

By United Press

SAN ANTONIO, Tex., Dec. 29.—Beards once were required among officers of the United States Army. Brooks fielded reports, pouring over old army orders issued in 1842, found the regulation.

Other rules of the old army prohibited officers at Fort Riley, Kan., roping and riding buffaloes, or shooting at them within range of the commandant's house.

A barrel of rye whisky was offered as a prize for the troop officer with the best trained mounts.

Gone, but Not Forgotten

Automobiles reported to police as stolen belong to:

Arthur Horton, 2422 Bellefontaine street, Fort Totten, from 2422 Bellefontaine street.

Dwight F. McLean, 4111 Arlington boulevard, Chevrolet coach, from Market and Alabama streets.

Frank Archie, Mooreville, Chevrolet coupe, from Washington street and Seneca avenue.

Daniel Killen, 404 North Gray street, Ford Tudor, 85-010, from 70th street and Oakland avenue.

August Weimer, 609 East Drive Woodruff place, DeSoto sedan, 14-351, from Shelby and Prospect streets.

To End a Cough In a Hurry, Mix This at Home

To end a stubborn cough quickly, it is important to soothe and heal the inflamed membranes, get rid of the germs and also to aid the system inwardly to bring about a permanent cure.

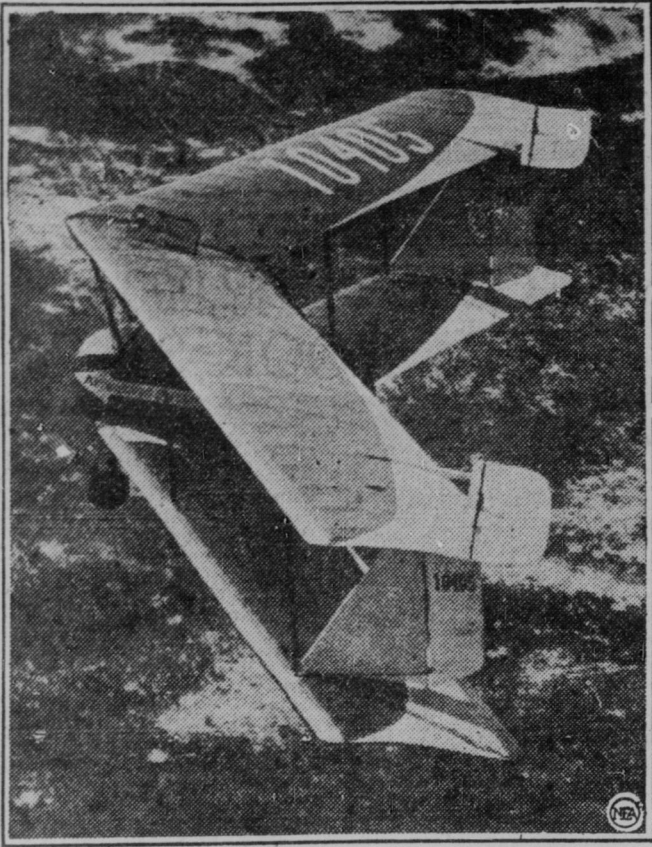

For these purposes, here is a home-made medicine, far better than anything you could buy at 3 times the cost. From any drugist, get 2 1/2 ounces of Pinex. Pour this into a pint bottle, and add plain granulated sugar syrup or strained honey to fill up the pint. This takes but a moment, and makes a remedy so effective that you will never do without, once you have used it. Keeps perfectly, and children like it.

This simple remedy does three necessary things. First, it loosens the germs. Second, it soothes away the inflammation. Third, it is absorbed into the blood, where it acts directly on the bronchial tubes. This explains why it brings such quick relief, even in the obstinate bronchial coughs which follow cold epidemics.

Pinex is a highly concentrated compound of genuine Norway Pine, containing the active and give me details of generous commissions to demonstrators.

Do not accept a substitute for Pinex. It is guaranteed to give prompt relief or money refunded.

It's Called Foolproof

This tailless, V-shaped plane of the pusher type, pictured in flight near Miami, Fla., represents the dreams of the late Glenn Curtiss, aviation pioneer, of a practically fool-proof craft which can be produced cheaply.

Embodying the plans made by Curtiss shortly before his death, the "Arrowhead Safety Plane," as it is called, is powered with a three-cylinder motor and has a landing speed of only fifteen miles per hour. It is declared that it can not loop, spin or dive and may be manufactured to sell for about \$1,000.

511 HAVE INCOMES OF MILLION A YEAR

Boom 1928 Doubled U. S. Men in This Class, Figures Show.

By United Press

WASHINGTON, Dec. 29.—Taxpayers in the million-dollar-a-year income class nearly doubled in 1928, increasing to a total of 511 as a result of booming stock market and business conditions in that year.

Revised income statistics for 1928 issued today by the treasury revealed a new crop of super-millionaires was created in the last complete year of prosperity.

In addition to those individuals who reported incomes of \$1,000,000 or more in that single year, the treasury's figures showed there were more than 43,000 persons with incomes in excess of \$50,000, which is the usual interest on \$1,000,000.

Few of these taxpayers had \$1,000,000 capital, however, but derived their income from wages and dividends.

Most Millionaires in New York

Most of the nation's millionaires live in New York, which reported 243 taxpayers with incomes of more than \$1,000,000.

New York's millionaire group included eleven who paid taxes on more than \$5,000,000 in 1928. Illinois was second with fifty-four millionaires, Pennsylvania third with forty-one, Massachusetts next with twenty-four, and Ohio fifth with twenty-three. In all, twenty-six states reported taxpayers in this class.

The gross income reported by the nation's 4,000,000 taxpayers was \$28,987,634,519, but deductions reduced the taxable income to \$25,226,326,912.

The largest share of this money was derived from wages and salaries which netted taxpayers \$10,862,000,000 of the total income.

Many \$3,000 to \$5,000 Incomes

Persons in the million-dollar-a-year class had total incomes of \$1,108,000,000 or 4 per cent of the nation's total. But paid \$185,140,000 or 15 per cent of the taxes paid by individuals. Total income tax payments by individuals in 1928 were \$1,164,254,037.

The largest part of the income

reported by taxpayers was received by those in the \$3,000 to \$5,000 group whose total income was \$4,648,097,736, or 18 per cent of the total.

By far the larger proportion of taxpayers were in this class, but they paid less than 1 per cent of the total taxes collected.

Millionaire taxpayers derived most of their income from sale of capital assets held more than two years, \$580,000,000 being reported received from this source. Dividends on stock ranked second as source of the millionaire's income.

LOVERS' ROW ENDS IN MYSTERY KILLING

University Youth Held on Charge of Slaying Young Sweetheart.

By United Press

PORT ARTHUR, Tex., Dec. 29.—A Texas university sophomore whose efforts to mend a lover's quarrel ended with the mysterious death of his 15-year-old sweetheart was accused by her relatives today of having caused her death.

"I want to go with her—oh, I want to go with her to the grave," Robert L. Williams, 18, a minister's son, cried repeatedly from his jail cell. He denied killing her.

The girl, Elizabeth Johnson, was shot to death in the car in which she and Williams had gone to see the Rev. Glenn Flinn for counsel about their quarrel.

Williams visited the Rev. Mr. Flinn, pastor of the Methodist church, twice for advice. The pastor was busy both times.

Then he and Miss Johnson went together.

He told that he found his sweetheart dead in his automobile, shot with a small pistol he said he bought, to shoot himself through the hand, if necessary, to prove his love.

The girl's uncle, Albert Johnson, filed the complaint against Williams. The student, whose father, S. A.

MINING CAMP RISES AT GOLD SITE OVERNIGHT

Prospectors Rush to Spot in Nevada Desert to Find Fortunes.

By United Press

RABBIT HOLE, Nev., Dec. 29.—Far out on the lonely Nevada desert lands at a spot inhabited two weeks ago only by jackrabbits and antelope, today stands this new mining camp mushroomed into existence overnight by the magic cry of "Gold!"

Lured tales of high-grade ore assaying \$45,000 to the ton attracted hundreds to the scene of the discovery made by two old prospectors, Charles and Jim Scossa.

Within twenty-four hours claims were staked on a five-mile area surrounding the strike.

Brothers Get Rich

The fortunes of the brothers are already made, for the dump of ore of the mine assayed over \$186 per ton, without the high-grade.

For thirty years, Charles Scossa, old-time desert rat and "pocket hunter" had dreamed of finding a bonanza in the wastelands of the Rabbit Hole district, and he never despaired he would eventually make the "big strike."

A fortune nearly was in his grip twenty-six years ago when he and his "pards," Jerry Ingals, Bob Thomas and old Nigger Jim Brown, made a discovery on the Rose Bud district.

But the desert swallowed him up again, for he yet at last satisfied he had found the mother lode.

Miners Stake Claims

This year he and his brother Jim disappeared once more into the wastelands of Rabbit Hole.

One day not long ago they walked into the assay office at Lovelock with eight sacks of sample ore from their mine tucked under their arms.

Before the left town, they had "confided" their discovery to another prospector, and by nightfall Lovelock was practically deserted of every footloose man and miner in the community.

All the old-timers came to the little camp.

One of the first to stake his claim and shake hands with Scossa was old Nigger Jim Brown, who had discovered Rose Bud with Charles.

Here came January Jones and Gurney Gordon of Goldfield fame, Joe Hall, Jim Garnier, and scores of others known to boomers all over the mining world.

G. O. P. 'Hope'?

Raymond Benjamin, above, California friend of President Hoover, and former law partner of Senator Shortridge may be the next Republican national chairman.

It is reported that he is being groomed for the post now held by Senator Fess, of Ohio, who is expected to retire early in 1931.

Benjamin here is pictured as he appeared at his desk in Republican national headquarters in Washington.

Aviation

Costes in Lindy's Steps

NICE, FRENCH RIVIERA, Dec. 29.—After ten years of death-defying, globe-girdling exploits, Captain Dieudonne Costes, hero of the Paris-New York flight, is to take a safe, regular job with the air line which once employed him as \$25 a week pilot. It was announced on his arrival here today.

Like Lindbergh, the French ace will become a technical adviser. He will be employed by the Air Union, which operates international lines from Paris. His designation will be inspector-general of lines.

In his new post, Costes will fly his own plane, quite possibly the famous Question Mark, along the now vastly extended routes served by the air union, seeking ways of tightening up the service and also ways and means of extending it economically and efficiently.

Sets Flight Record

By United Press

LOS ANGELES, Dec. 29.—Miss Juanita Burns, who has been flying for only three years and been in the air only 115 hours by herself, today claimed a new women's altitude record after flying to a height which observers believe was approximately 27,000 feet.

A barograph installed by the National Aeronautical Association was sent to Washington for checking. Miss Burns' altimeter froze at about 26,000 feet, but she said she continued her upward climb for at least another 1,500 feet.

The previous altitude record for women was 21,588 feet and was set by the late Ruth Alexander of San Diego.

In her 38th year Mrs. Anne Mitchell of Freshwater, Isle of Wight, has 130 living descendants—eight children, fifty grandchildren and seventy-two great-grandchildren.

PRESTO

JUST LIKE MAGIC
Nu-Life did it

Saves cost of new batteries

Retains charge indefinitely

It makes old batteries work like new

It adds power and pep to autos and radios

Doubles life of batteries

It ends sulphation, freeing and overcharging

Charge new and old batteries instantly

Merges Batteries with Surprising Power Instantly

Marvelous New Battery Mixture puts surprising power in Batteries with Magic Speed instantly. Works by itself! No fuss or bother! Batteries recharge instantly. Hold their charge indefinitely. Doubles the life of batteries. Dead batteries charge themselves as if by magic, old batteries act like new. Can be used by anyone instantly. Read the discoverer's sensational FREE SAMPLE OFFER below. Most generous opportunity ever extended to motorists. Don't miss it!

At last science has discovered a new way to charge batteries with surprising power instantly. A magic new mixture gives batteries more power and pep. No more fuss and bother of changing batteries or having them recharged. No more costly batteries to buy. No more wrestling with the crank in the blazing sun, pouring rain or freezing snow. No more danger of breaking an arm with a back-firing motor. This startling discovery takes the last vestige of uncertainty out of motoring and ends 90% of all battery troubles.

Works Automatically

This amazing product is called NU-LIFE and has been so successful that demonstrations and agents are simply coming money in easy, generous commissions—up to \$10 and \$18 an hour! Some of the tests they have made are almost unbelievable. J. A. Bartlett tried Nu-Life in a battery that had been dead one year and it took a charge readily, and now works like new. J. Daniel Knox, with many witnesses subjected Nu-Life to the most critical tests and they could scarcely believe their eyes, it worked so marvelously. After severe tests, E. E. Kunkle is opening up a Nu-Life battery station on his own property. Raymond Fox treated his battery and it works like new.

AGENTS

\$150 A WEEK!

NU-LIFE is so remarkable that it simply sells itself on demonstration. Agents and spare-time workers are making surprising profits. R. B. Smith writes, "I've exposed scores of people for myself but let me say, it simply sold itself." W. E. Pope says, "Nu-Life is the easiest and best seller I have ever seen. I can truthfully say I could be sold by this time 100 times over." Find out how easily you can get your share of these wonderful profits—\$150 to \$180 a day!

FREE SAMPLE OFFER

And right now, Mr. H. S. Elliott offers to send you a FREE can of NU-LIFE at his own risk. You test it without cost. And better than that, he offers to pay you for testing NU-LIFE! If you are not astonished and enthusiastic over results, write him tonight for his sample offer and details of generous commissions to demonstrators. This unusual offer is limited to 50 days, so act at once. Clip the coupon now! Mail it today.

Wonderful Money-Maker

No wonder every battery owner is vitally interested whether he drives a car or owns a Radio battery set. No wonder demonstrators and spare-time workers report earnings as high as \$9 in a few minutes. All you have to do is show prospects how it charges batteries right up instantly, how you can save them the cost of new batteries, and how you can save them the trouble of run-down, weak, discharged batteries. Nine out of ten want to buy right away—and the generous commissions we give will run your cash profits into the hundreds in no time!

Mail This Coupon Now

Mr. H. S. Elliott, Pres.
ELLIOTT WORKS, Inc.

Noted Talkie Stars Find Quickest Way To Get Rid of Colds

MARION NIXON NO LONGER FEARS THAT A COUGH OR SNEEZE WILL SPOIL HER SOUND FILMS

Hollywood Stars, Like Hundreds Here, End Colds Quickly By Pleasant Hospital Remedy Which Doctors Name As Best of Widely Used Methods Tested For Head Colds, Coughs and Chest Colds!

Getting rid of colds is no longer a worry among talkie stars! No longer the embarrassment of spoiling a sound film by the harshness of a cough, the snuffle of a head cold or the hoarseness of a chest cold. No more feeling miserable or needlessly risking pneumonia!

ALICE WHITE ENDS THREATENING COLD CAUGHT AT DANCE

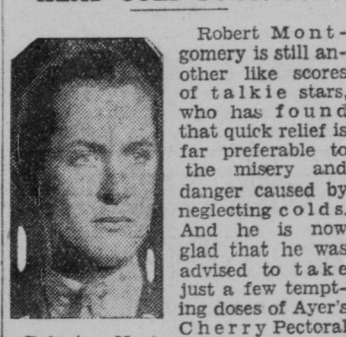

Star of "Sweethearts on Parade," "Man of the Hour" and "The Naughty Flirt."

Alice White, like scores of Hollywood stars, has taken the advice of physicians and found how quickly colds disappear after a few pleasant doses of Ayer's Cherry Pectoral. "During a recent dance," says Miss White, "I became overheated on the dance floor and walked out on the veranda to cool off. As a result, I was astonished to find that all traces of the cold had disappeared. No wonder Ayer's Cherry Pectoral is a necessity to players, especially now that talkies demand that one's voice be kept free from the effects of a cough or cold."

"That evening the cold was worse and I was advised to take Ayer's Pectoral every 15 minutes until congestion began to clear up, then once every two hours."

"By night my fever was gone. I was able to sleep without coughing. The next day my voice cleared up so that I could work—and in just a day or so I was astonished to find that all traces of the cold had disappeared. No wonder Ayer's Cherry Pectoral is a necessity to players, especially now that talkies demand that one's voice be kept free from the effects of a cough or cold."

ROBERT MONTGOMERY TOOK DOCTOR'S ADVICE; HEAD COLD SOON GONE

Robert Montgomery is still another like scores of talkie stars, who has found that quick relief is far preferable to the misery and danger caused by neglecting colds. And he is now glad that he was advised to take Ayer's Cherry Pectoral every 15 minutes so that his cold would be relieved in time to resume work at the studio the next day.

"The quick relief from Ayer's Pectoral was certainly remarkable," says Mr. Montgomery. "Almost immediately my cold began to disappear. By night I was a great deal better and the next morning I awoke with the welcome freedom from congestion. Ayer's Pectoral licked the cold completely and I was able to resume work without needless loss of time."

By taking advice of doctors stars have learned to end colds at once. To accomplish this they use a hospital certified remedy which gives almost instant relief—then quickly drives the cold out of one's system. That's why Ayer's Cherry Pectoral was chosen!

A group of hospital physicians approved it as the best of different widely known methods tested for home use in relieving head colds, coughs and chest colds.

Miss Nixon Finds Pectoral "Most Tempting to Take"

Typical of the quick relief which has come to scores of stars is the experience of Miss Marion Nixon, leading lady in "Scarlet Pages," "College Lover," "Courage," etc.

"My doctor was frantic," says Miss Nixon, "when I arrived at the studio with a terrible cold, which had started in my head and spread down into my chest. I was simply too hoarse to work. It was very clear that unless I could end the cold quickly there would either be expensive delay or the risk of coughing or sneezing while the photoplay was being recorded."

"Within a few minutes after I was given a pleasant spoonful of Ayer's Pectoral, I was relieved by its comforting, healing warmth. That night, I was able to enjoy refreshing sleep, which had been impossible the night before. The next morning I felt a great deal better; and by afternoon my voice cleared up so that I could continue making the picture. In a day or so, all this miserable business of my cold had disappeared entirely."

Starling in "Within the Law," "The Record Run," "Beyond Victory," etc.

ROBERT ARMSTRONG FINDS QUICKEST WAY TO END BAD COLD

In making talking pictures, Robert Armstrong no longer dreads to face the sensitive microphone. For, like scores of other Hollywood stars, he has found how easily one can get rid of a cold by the quick, pleasant method doctors now advise for home use.

Mr. Armstrong, for example, had a severe cold caused by neglecting a chest cold. Examination showed that his breathing passages were congested, his throat was inflamed by constant coughing and his voice "was hoarse."

Then he was given double strength doses of Ayer's Cherry Pectoral every 15 minutes until congestion started clearing up, then a spoonful every two hours.

In just an hour or so the medication began to relieve congestion. Breathing became easier; the spasmodic attacks of coughing ceased; and by dinner time he was feeling like a different person. When friends arrived for bridge that evening his hoarseness had almost entirely disappeared. The next day he was delighted to find that the cold which had cleared up the cold so that his voice was in condition to go ahead with the picture.

Ayer's Pectoral was hospital certified as the best of different widely used methods tested for head colds, coughs and chest colds because it gave the quickest, surest relief—with absolute safety. It is now featured by all leading druggists.
