

FORTNIGHTLY BUSINESS and INDUSTRIAL NEWS

A POLAR Refrigerator Pays Its Own Cost—And Much More

Actual money savings on the lesser amount of ice used in a well insulated and properly designed refrigerator, when compared with inadequate refrigeration, will—on one item alone—pay the entire cost of the good refrigerator in from three to five years. The tremendous additional savings in food kept from spoiling, the value of protection of the family's health, and the worth to the housewife's pride and contentment are incalculable in dollars and cents.

We'll appreciate the privilege of showing you our immense display. Just phone TA 1069.

LAUNDRY SAVES WOMEN FROM NEEDLESS TASK

Time Wasted Over Wash-tub by Housewives Held Economic Loss.

For a half century women in America have made great progress. From their present position in the world of affairs, it hardly seems possible that old idea of women being confined to household tasks ever held sway. Nor does it seem possible that the thought women never could make a success in business life prevailed.

Perhaps the only reason these two ideas ever got the hold upon the public they did was because the work in the household had to be done, and there was no other way to do than by hand labor. So women, with their adaptability, had to do it.

How much the world in days gone by lost through this remains to be seen. Surely no one could measure it now. But one thing has been established pretty definitely now—that women's brains are too valuable to allow them to waste their time over a wash-tub.

It is too great an economic loss, to say nothing of the physical strain. The woman who does her washing these days must underestimate her value to the world greatly.

Laundries are so much better equipped to do the family washing; they do the washing itself so much better, and the clothing and other articles actually look cleaner and wear better, that it really is more of a waste than easily is apparent to try to do such work at home.

The care taken in the modern laundry is so great, the cleanliness so superb, and the labor saving so marked, that women all over the city are sending their weekly wash to the Best-Grand Laundry, which has several methods of doing the family wash.

Clothes may be simply washed and rough dried, or they may be completely ironed, and there are plans by which work may be done just so far as desired.

In fact, this laundry is ready and willing to free women from drudgery just to the extent the women desire. The work of the laundry unquestionably is excellent, and women are invited to use its facilities to the utmost for their own comfort.

Prompt collection and delivery are made in response to telephone calls over RI 2555.

SPRING WATER ACTS AS TONIC

Service Given by City Firm Easily Obtained.

No one yet has been able to find definitely what it is in good spring water that is so beneficial to health. There is something elusive about it. Analyses show that the water is good, perhaps with no indication of medicinal virtues.

Yet when individuals make a practice of drinking this water they become springier in step, clearer of eye and more buoyant in their mental attitude. This thing happens so often that it is not questioned, even if cause is not understood fully.

That is one of the reasons why so many Indianapolis business concerns and private residences have rented the service offered by the Crystal Springs Water Company, 146 Virginia avenue. This service consists of specially arranged Frigidaire coolers kept filled with the well-known Crystal Springs water; and dispensed through Burt paper drinking cups.

The Ostermeyer Paper Company, 149 Virginia avenue, controls the Crystal Springs Water Company, offering its service in conjunction with its business in paper cups. It is the exclusive Frigidaire water cooler distributor in Indianapolis, the exclusive agent for the Burt paper cups and Sanitex toilet paper.

A. C. Ostermeyer is president of the company, which has been operating in this city for twelve years. A fleet of six trucks make its deliveries.

Two Accused of Theft

By Times Special

LAFAYETTE, Ind., Feb. 2.—Francis Murphy and Ralph E. Ford, Lafayette youths, wanted here on a charge of grand larceny, are under arrest in Kansas City, Mo., according to word received by the police. They are alleged to have stolen \$157 from Alfred Hansen, stepfather of Murphy. Two officers will be sent to return them to this city for trial.

Sheet Metal Firm Has Well-Equipped Shop and Force of Skilled Mechanics

Public Confidence Held by Fine Workmanship and Unbroken Pledges.

When it comes to sheet metal work, or the manufacturing of any sheet metal specialties, welding or brazing, the residents of this city have come to put a great deal of faith in the workmanship of the V. E. Sprouse Company, 12 North Liberty street.

This firm, headed by V. E. Sprouse, while it comparatively is in its infancy in the industrial life of Indianapolis, due primarily to its expert workmanship, has made rapid progress, the fact that a job always is done when promised, and to the attention to all its details.

The company has a force of expert mechanics, declared to be the most competent in the city, aided by a completely equipped shop for machine and metal work of all descriptions.

Here, in part, is what constitutes the work of this live establishment: Spot and acetylene welding of every form and description; aluminum, brass, copper and bronze work; manufacturing of light sheet metal parts; manufacturing of check machines, electric heaters, mufflers, cash boxes, adding machine parts, radio parts and a varied description of novelties.

Sprouse has been active in his work for fourteen years, and this vast experience has been molded into his own business, with the result that the Sprouse company is ranked as one of the best shops in the state.

For those who get the most enjoyment out of going alone to strange places this company can give valuable information. Should the destination be the sunny shores of the Central and South American countries during the severe weather here traveling will be made easy by the facilities offered.

Of course, persons who are going abroad, to Asia or Europe or any place else along the shores of the seven seas, will want to get the Union Trust Company's service. Information that will save you a lot of embarrassment, routes that will give most for the time available and a lot of information about the things required to travel abroad all are at Kurtz's finger tips, ready for use of the public.

It really matters little where the trip is to be made. If the intention is to explore the United States, the Union Trust Company has a number of trips planned that will make most delightful traveling amid the country's wonders.
