

DATE MAY BE SET TO RECALL U. S. MARINES

Nicaragua Intervention to End, State Department Announces.

BY WILLIAM PHILIP SIMMS
Scripture-Howard Foreign Editor

WASHINGTON, Feb. 9.—It is expected that a date will be set for the withdrawal of American marines from Nicaragua.

Following a conference of state department officials lasting several days, it was announced that the marines will be withdrawn as soon as possible after the 1932 elections. These take place in the fall.

Participating in the conference were Secretary of State Stimson, General Frank B. McCoy, who supervised the Nicaraguan elections of 1928; Matthew E. Hanna, American minister to Managua, and others.

Fixing an exact date for the evacuation, observers believe, would cut the ground from under the feet of General Sandino, guerrilla leader, leaving him without a reasonable excuse for continuing on the warpath.

Would Fix Date

Any further activities on his part, once such a date had been officially announced, would take on the character of sheer banditry and murder and lose for him the role of patriot in which light his followers see him.

Criticism of the United States, at times very bitter throughout Latin America, would likewise lose much of its point. At present, in that quarter, the suspicion is voiced that Washington has no intention ever of withdrawing its forces.

President Hoover is understood to favor early withdrawal. At the time of his visit to that country shortly after his election, he left no doubt in the minds of those about him that he had little relish for the occupation and that the shorter it was the better it would suit him.

Too hurried a withdrawal, however, he was advised, would leave matters worse than ever. A native constabulary would first have to be recruited and trained, roads would have to be built and other work done to make it possible for the Nicaraguans to safeguard their own peace.

Refuses to Surrender

This job, it turned out, has not proved an easy one. Sandino, one of the chief lieutenants of General Moncada—now president of the republic, but formerly rebel commander-in-chief—refused to surrender and has been on the rampage ever since.

Off and on since 1927, Sandino has been waylaying American marines and native forces and killing them off. Usually dubbed a bandit in the United States, this man has become something more than a hero to millions of Latin Americans.

To those who fear or suspect the United States' intentions, he has become a symbol of liberty—a modern Bolivar defying oppression.

That sort of thing naturally has not helped, and is not now helping, American prestige south of the Rio Grande.

IDEAL MOTHERS ARE NEEDED BY CHURCHES

Minister Says They Are Great Power for Good.

The ideal mother prays. She is industrious and a good housekeeper. She is self-denying, thankful for her blessings, takes pleasure in doing for her children.

These thoughts were expressed by the Rev. L. C. E. Packler, pastor of the St. Matthew's Lutheran church, in a sermon Sunday.

"If there would be more ideal mothers, even in the church, then the church would be a greater power toward good," he said.

They are to attend school for a couple of more years before their wedding, however.

Spanish King's Order Opens New Political Era.

By United Press

MADRID, Feb. 9.—Spain entered a new political era today under a royal decree signed by King Alfonso XIII giving freedom of speech and association and convoking elections for a constitutional parliament. Newspaper censorship was lifted.

The elections for members of the chamber of deputies (Congreso de los Diputados) will be held Sunday, March 1, and members of the senate (Senado) will be chosen on March 15. Parliament will meet March 25.

Thus, King Alfonso and Premier General Damazo Beramendi hope to restore the Cortes for the first time since the dissolution of parliament on Sept. 15, 1930, two days after the coup d'etat of Primo De Rivera.

Vast Decrease in Tonnage Launched During Last Year.

By United Press

LONDON, Feb. 9.—Great Britain's mighty shipbuilding industry, once the pride of the nation, and the envy of the world, lies sprawling and battered today by the recurrent blows of the trade depression.

On Jan. 1 there were only 908,802 tons of shipping under construction in British yards, a decrease of 631,352 tons, as compared with the same date a year before.

During 1930 1,084 vessels of 2,889,472 gross tons were launched, of which 1,478,563 tons were laid in Great Britain and Ireland, and the remainder abroad.

The figures represent a decrease of 23 per cent of the total launched by Ireland and Great Britain, as compared with the previous year, and did not include warships or the output of Russia.

Housing Bill Meets Clubs' Opposition

Declares Proposed Measure Favors Contractors and Builders.

Effort of Senator Chester A. Perkins (Dem., St. Joseph) to change the Indiana housing law is to be fought by a special committee of the Better Homes in America group of Indiana, of which Wallace O. Lee is chairman, it was announced today.

The legislative organization to halt the Perkins bill was perfected last week when Mrs. Albion Fellows Bacon, Evansville, pointed out that such legislation would change requirements in favor of contractors and to the detriment of occupants of the buildings.

The Perkins bill would permit lower ceilings and less window space. The author says it will "modernize the Indiana tenement law."

Hollywood Stars Find Quickest Way To Get Rid of Colds

JUNE COLLYER NO LONGER FEARS THAT A COUGH OR SNEEZE WILL SPOIL HER SOUND FILMS

Hollywood Celebrities, Like Hundreds Here, Discover That Tempting Taste of Pectoral Brings Speedy Relief—Named by Doctors as Best of Different Widely Used Remedies Tested for Head Cold, Cough, Chest Cold.

Getting rid of colds is no longer a worry among talkie stars! No longer the embarrassment of spoiling a sound film by the harshness of a cough, the snuffle of a head cold or the hoarseness of a chest cold. No more feeling miserable or needlessly risking pneumonia!

By taking the advice of doctors scores of Hollywood stars like June Collyer, Robert Armstrong, Alec Francis, James Gleason, Marion Nixon and Alice White have learned to end colds at once. To accomplish this they use a hospital certified remedy which gives almost instant relief—then quickly drives the cold out of one's system. For a group of hospital physicians approved Ayer's Pectoral as the best of different widely known methods tested for home use in relieving head colds, coughs and chest colds.

June Collyer Finds Cold Soon Disappears

Typical of the quick relief which has come to scores of stars is the experience of Miss June Collyer, noted star.

"I found that a miserable cold was lowering my visibility," says Miss Collyer. "I simply had no energy. I dreaded to stand before the microphone with the full knowledge that the slightest hoarseness, cough or sneeze would spoil the dialogue."

Acting on the advice of doctors, I ordered a bottle of Ayer's Pectoral from my druggist. The taste was really tempting and next day my hoarseness was gone! I was surprised to see for myself how quickly my cold disappeared."

Glenn Tryon is still another of the scores of Hollywood stars who have taken the advice of physicians and found how quickly colds disappear after a few pleasant doses of Ayer's Cherry Pectoral. For in Hollywood, as in hundreds of Indianapolis homes, this hospital certified remedy has become the standard treatment for colds.

Glenn Tryon, for example, caught a severe cold while motoring at night in an open car. Realizing the danger of neglecting a cold, Mr. Tryon remembered the advice of physicians and started taking a pleasant spoonful of Ayer's Cherry Pectoral every 15 minutes. In just a few hours, his nose, throat and chest had cleared up. In a day or so, his cold was completely gone.

BETTY COMPSOON ENDS COLD QUICKLY; AVOIDS RUINING SOUND FILMS

When an actor coughs, sneezes or becomes hoarse while making a sound picture, the costly sound film must be made over. So scores of Hollywood stars now get rid of colds by a pleasant taste of Ayer's Pectoral.

For doctors have found this hospital certified remedy to be the quickest and surest of different methods tested for colds and coughs.

Those who heard Betty Compssoon's marvelous voice in a recent sound picture, little realized her fear that hoarseness would ruin the recording. Yet, "My cold was terrible," says Miss Compssoon, "I am certainly grateful to the doctor who advised Ayer's Pectoral. Just a few tempting tastes eased my throat, clearing up my hoarseness. In a day or so all trace of the cold had disappeared."

In Indianapolis homes, as in Hollywood, Ayer's Cherry Pectoral is the first thought for colds. Many doctors and leading druggists advise Ayer's Pectoral.

JAMES GLEASON ENDS BAD COUGH BY QUICK, TEMPTING METHOD

Starring in "Matrimonial Bed," "Big Money," "Beyond Victory," etc.

Colds always make one feel miserable and may bring risk of pneumonia. And in the "talkies" a cough, sneeze or hoarseness will spoil the sound film. At the first sign of a cold, leading stars are now given a few pleasant doses of Ayer's Pectoral. It has been certified by leading doctors as the best of different remedies tested.

The comment of James Gleason is interesting and typical of the Hollywood colony.

"I had such a head cold and harsh cough that it seemed almost necessary to hold up my latest sound picture. Acting on the experience of physicians, I dropped in the nearest drug store for a bottle of Ayer's Cherry Pectoral. In a surprisingly short time coughing had ceased and my voice became clearer. In just a day or so, Ayer's Pectoral entirely ended the cold."

In Indianapolis homes, as in Hollywood, Ayer's Cherry Pectoral is the first thought for colds. Many doctors and leading druggists advise Ayer's Pectoral.

Royalty Diets

By United Press

LONDON, Feb. 9.—Life is dull these days for the rulers of the royal kitchens.

"No food 'fit only for a king' can really be prepared for King George, the chefs complain, since as a result of his recent illness, he must eat only plain foods.

The queen, likewise, prefers plain fare and—cold dessert.

Queen Mary appears to have borne up well under the stinging criticism of an Illinois woman's club, and still enjoys an occasional gold-tipped cigarette after dinner.
