**PILOTS ASKED
TO PASS ON AIR
RACE PROGRAM**
New Rules Will Put Women
on Equal Footing
With Men.

By Scripps-Howard Newspaper Alliance
WASHINGTON, Feb. 27.—America's airplane pilots are being asked to pass upon the race program drawn up for this year's national air races to be held in Cleveland, from Aug. 29 to Sept. 7.
For several years there has been dissatisfaction among participants, especially the women, on the way rules for the various races were drawn.
But this year there can be no kick. A tentative schedule of events has been drawn up, mailed out to every pilot in the country, and criticisms invited. When the objections are all turned in, the program will be arranged to suit the majority of pilots.
Three Derbies Announced
Luke Christopher, secretary of the contest committee of the National Aeronautic Association, has just returned to Washington after two weeks in Cleveland drawing up the race program. He will return to Cleveland on March 15, the closing date for objections to be filed.
The women pilots should have no kick this year. They have been put on an equal footing with men, and can fly practically anything they please.
There will be but three cross-country derbies this year. One will be an "On to —" derby, for both men and women. It will start from the Pacific coast and the first plane to reach Cleveland wins. Pilots can fly nonstop, or make as many stops as they choose.
Prizes Are Higher
The other two will be from the Pacific coast to Washington, D. C., and back to Cleveland. Several days will be taken for these races. One is for men, the other for women, but both will be flown together, over the same route at the same time. More than forty planes are expected in the race.
Total prizes for the derbies and the closed-course events during the ten-day race program will amount to \$92,000. Most races will pay higher prizes than hitherto. One feature will be a race solely for autogyros.

Special 'Chutes Used
By NEA Service
KELLEY FIELD, Tex., Feb. 27.—Special parachutes have been designed for heavyweight pilots here. These are known as "super-parachutes," and have a diameter of twenty-eight feet, as compared with twenty-four feet for the regulation type.
Eleven fliers who weigh more than 160 pounds are required to use these special "chutes."

Arrivals and Departures
Mar's Hill Airport.—Passengers eastbound on the T. & W. A. plane were Fred T. Hill and H. G. Gregory, both of Bloomington, and Frank C. Pope of West Baden; westbound passengers included Mrs. C. H. Baker, Okmulgee, Okla., Mrs. E. R. Baker, Chicago, and Miss Catherine Hay of Chicago.

Pilots Accommodated
By NEA Service
FT. WAYNE, Ind., Feb. 27.—Pilots who are forced to stay in Ft. Wayne overnight do not grumble. The airport has furnished a room for them.
It is equipped with beds, dressers, smoking sets and all necessary equipment. Meals also can be obtained.

Rocket Port Built
By NEA Service
BERLIN, Feb. 27.—Just like regulation aircraft has airports, so do the new rocket planes being tried out in Germany. One such port has been erected outside this city.
It is two and a half miles square and is equipped for experimental rocket flights. Laboratories and shops for working out and constructing rocket craft all are on the grounds.

**UNREST IN INDIA IS
DESCRIBED BY PASTOR**
Unemployment and depression ravages India just as it does the rest of the world, the Rev. H. M. Zorn, pastor of St. Paul's Lutheran church, said today, following his return here after six months' visit of missionary posts in southern India.
Political unrest caused by the prophet, Gandhi, coupled with lack of enterprise, have been responsible for making the situation in India critical, he says.
He said the lower classes of natives were especially receptive to the work of the missionaries.
The Rev. Mr. Zorn will resume his pastorate Sunday. The Rev. Irvin Melzer has been acting pastor.

**Illinois Woman's Reformatory
Resembles Good Country Club**

The administration building of Illinois' new prison for women, looking more like an exclusive country club, is shown above. Below is a cozy living room in one of the cottages where the inmates will be housed.

**Prisoners to Have Individual
Rooms in Comfortable
Cottages.**

By BRUCE CATTION
NEA Service Writer
DOWD, Ill., Feb. 27.—A prison without iron bars or high walls or cells—
A prison where each inmate has a comfortable bedroom, dining room, a cozy little living room and a cheerful living room and sun porch for the leisure hours of the evening—
A prison where organized society makes a genuine effort at rehabilitation and spends freely of its time and money to make its wards better people when their terms end—
Such is the new Illinois reformatory for women, now nearing completion on a 160-acre tract of land a few miles outside this town on the open prairie.
Eventually the state will lodge approximately 300 women in this institution—criminals of all kinds, from shoplifters to "girl bandits."
The reformatory is open now, although it is not quite finished. An executive staff, under the direction of Miss Helen Hazzard, superintendent of the institution, is on duty, and a few prisoners are confined there.
Seen from the road, the reformatory looks like an exclusive country club development. The administration building rises in a graceful pile of rough stone, like an old chateau in Normandy.
Beyond it, a winding gravelled road leads through a grove of oak trees to the eight cottages that are to house the prisoners.

Large Homes
In the spring these cottages will be in operation. Each will be a complete unit—and each is remarkably like the country home of a moderately well-to-do business man who happens to have a large family.
On the first floor of each cottage, a covered porch opens into a hallway which leads back to a large living room, furnished neatly with wicker chairs and lounges, a piano, a tableful of magazines and a phonograph. Adjoining is the suite for the matrons, who oversee the place. At the other end is the dining room, set with small tables of brightly painted wood, and the kitchen—a large room, this, equipped with iceless refrigeration, electric range and other modern appliances. Upstairs are the bedrooms, airy and pleasant, each with a neat iron bed, white sheets, and a dresser.

To Be No Coddling
Nothing in the house suggests that this is a penal institution. An exact duplicate of each house, including its landscaping, would make a fine and salable addition to any residential suburb.
One realizes that it is a reformatory only when one sees the women inmates in their reformatory garb of plain denim.

But Miss Hazzard, the superintendent, says the prisoners are not going to be coddled or pampered. They will be prisoners, just as truly as in an iron-barred institution of the older type. They will have to conform to strict discipline. They will have to work or study all day, and the work will be hard.
Miss Hazzard explains that the aim of the institution is expressed in its title—reformatory.
An attempt will be made to fit each prisoner for a normal, law-abiding life in the outside world. She will be taught to read and write, and will be given as much of an education as her mental capacities fit her for.
She will be taught to work, so that when she is released she will be able to support herself. A psychiatrist and a psychologist will visit the institution regularly to correct mental quirks that stand in the way of a normal life.
There is no wall about the grounds. There is, instead, a seven-foot wire mesh fence; but, as Miss Hazzard points out, this was built more to keep intruders out than to keep the inmates in.
The reformatory will be open to all women offenders who draw sentences of longer than six months.
On the average the gainful workers of the United States do not work more than 275 days in the year.

**AGE PENSIONS
BILL GOES TO
THIRD READING**

House Lets Amendments by Senate Stand; Fear Measure's Death.

Without a dissenting vote, the Indiana house of representatives today passed to third reading the amended senate old age pension bill which made the maximum age for qualification for pension 70 and gives counties optional right to adopt the system.
The house mandatory measure with a 65-year minimum is still in senate committee.
Proponents of the old age pension system in the house refused to strike off the senate amendments because they fear conferences would result in the death of the bill.

"Better Times" Are Visioned
By United Press
PROVIDENCE, R. I., Feb. 27.—The bottom of the business depression has been reached, Governor Roy A. Young of the federal reserve bank of Boston told members of the Providence Chamber of Commerce.

**MEASURE TO ENLARGE
U. S. HOUSE KILLED**
Bill Was Intended to Save Seats for Many States.
WASHINGTON, Feb. 27.—The house census committee voted today to table all measures proposing to increase the size of the house of representatives, legislation designed to save many states from losses in representation as a result of the reapportionment act, which goes into effect March 4. The vote against attempting to pass such legislation at this session was 13 to 8.

Gallantry
By Times Special
COLUMBUS, Ind., Feb. 27.—When two bandits held up Charles Goble and Miss May Horn of this city on the Clifty hill road east of this city, they took money, jewelry and a new dress which Miss Horn had but a short time before purchased. Miss Horn explained to them how badly she needed the dress, and it was returned to her. However, the men with drawn guns, took wrist watches and about 20 cents from Miss Horn and about \$7 from Goble. The couple were returning here by motor from a visit in the country and were stopped by a car parked in the road.

**Easy to Lose
a Pound of Fat a Day
on a Full Stomach**
Do Just These Two Simple Things—Fat Melts Away
Here is a quick and easy way to take off a pound a day—four to seven pounds every week!—with never a hungry moment. A way any doctor will tell you is safe and sure. This is what you do. Take a teaspoonful ordinary Jad Salts in glass of water half hour before breakfast every morning. This reduces moisture-weight instantly. Also cleanses your system of the waste matter and excess toxins that most fat people have and banishes puffiness and bloat.
Then do this about eating. FILL YOUR STOMACH—eat your fill of lean meats, vegetables like spinach, cauliflower, cabbage, tomatoes, etc., and lots of salads. Eat a lot. Eat all you can hold. Don't go hungry a minute. Cut down on butter, sweets and desserts, bread. Eat any fruit except bananas, for dessert. That's all you do. Fat seems to melt away. The coarse lines of overweight give way to the refined ones of slenderness. You lose as much as a pound a day. You feel better than for years. For in this treatment you achieve two important results. The Jad Salts clear your system of toxins. "The diet takes off fat with foods that turn to energy instead of weight."
If you're tired of being embarrassed by fat, try this way. You'll be glad that you did. You can get Jad Salts at any drug store.
*Note particularly—the salts are used purely as a poison-banishing agent—not as a reducing. The change in foods does the work.—Advertisement
