

UTILITIES FACE ACCUSATION OF UNFAIR CHARGES

Committee of City Council
at Muncie Suggests
Meter Inspector.

By Times Special
MUNCIE, Ind., March 2.—Asserting that several utilities companies serving Muncie are collecting and attempting to collect excessive and unreasonable charges, "alleged to be largely in excess of a reasonable and fair charge," the public utilities committee of the city council recommends appointment of a meter inspector.

The recommendation will be considered at a meeting of the city council tonight.

Companies mentioned by the committee are the Indiana General Service Company, supplying electricity and steam heat; Muncie Water Works Company, Central Indiana Gas Company and the Indiana Bell Telephone Company.

In addition, the committee recommends that action be taken at once toward seeking a reduction of utilities rates, and that steps be taken to standardize and measure the commodities supplied by the various companies.

Attitude of Mayor George R. Dale on the committee's recommendations has not been disclosed. In the 1929 campaign preceding his election, Dale declared himself as favoring appointment of a meter inspector, but since assuming office, has done nothing along that line. However, he has advocated that the city acquire the water works and operate it as a municipal venture.

BLIND MEN ESCAPE BLAZING SHOP ALONE

Boss Smells Smoke and Seven Reach
Safety Without Help.

By United Press
LOWELL, Mass., March 2.—Seven sightless men escaped unassisted when fire damaged a two-story building housing a garage, lodging house and the "workshop of the blind," a state-operated chair factory, here today.

Stephen Makuch, boss at the chair shop, and blind himself, smelled smoke coming from the cellar of the establishment. He immediately warned his six associates.

They left the building in order and upon reaching the sidewalk met Postman George Jacobs and Patrolman Arthur Lamoline, who escorted them to a safer place across the street.

ATLANTA CENSUS PLEA IS DENIED BY COURT

Suit Brought to Raise Population
Figures for City.

By United Press
WASHINGTON, March 2.—The District of Columbia court of appeals today denied the application of the city of Atlanta for a writ of mandamus to compel the director of the census to give Atlanta a higher population figure.

Atlanta contended that the population of some outlying sections should be included in the city's census total, although the territory was not within the sounds of the city proper. It first brought its action in the District of Columbia supreme court, where its plea was overruled.

Best Remedy for Cough Is Easily Mixed at Home

You'll never know how quickly a stubborn cough or chest cold can be conquered, until you try this famous recipe. It is used in millions of homes, because it gives more prompt, positive relief than anything else. It's no trouble at all to mix and costs but a trifle. Into a pint bottle, pour 2½ ounces of Pinex; then add plain granulated sugar syrup or strained honey to make a full pint. This saves two-thirds of the money usually spent for cough medicine, and gives you a purer, better remedy. It never spoils, and tastes good—children like it.

You can actually feel its penetrating, soothing action on the inflamed throat membranes. It is also absorbed into the blood, where it acts directly on the bronchial tubes. At the same time, it promptly loosens the germ-laden phlegm. This three-fold action explains why it brings such quick relief even in severe bronchial coughs which follow cold epidemics.

Pinex is a highly concentrated compound of genuine Norway Pine, containing the active agent of creosote, in a refined, palatable form, and known as one of the greatest healing agents for severe coughs, chest colds and bronchial troubles.

Do not accept a substitute for Pinex. It is guaranteed to give prompt relief or money refunded.

In Realm of Aviation

Weather conditions in the air at 9 a. m.:
East wind, 5 miles an hour;
barometric pressure, 30.14 at sea level; temperature, 29; ceiling, 4,000 feet; visibility, 2 miles; field, good.

Arrivals and Departures

Municipal Airport—T. and W. A. passengers westbound included Madame Richelt, 1440 Broadway, New York; Mrs. W. A. Coglizer, 1701 North Illinois street, and two children.

Mars Hill Airport—Lieutenant Howard Maxwell, Indiana national guard, Indianapolis to Cleveland, O., Douglas 02-H; H. Weir Cook, general manager of the Curtiss-Wright Flying Service of Indiana, Indianapolis to Anderson and return, Curtiss Robin; E. M. Murphy of Curtiss-Wright, Indianapolis to St. Louis and return, Challenger Robin, one passenger.

3,000 Visit Airport

Popularity of the new municipal airport as a center of travel was made evident Sunday by a crowd of nearly 3,000 persons who visited the airport to inspect it and watch the arrival of incoming planes. Students of the Eaglet Aviation Corporation engaged in training activities throughout the day.

Blimp Guides Fliers

By NEA Service
WASHINGTON, March 2.—Aviators flying into Bolling field here keep their eyes on a baby dirigible set up at the airport as a weather indicator. It floats from a steel mooring mast.

It is built of doped fabric over a steel frame. It is seventeen feet long and three feet in diameter. At night it is lighted from within and can be seen for miles.

Predicts Fast Planes

By NEA Service
BRIDGEPORT, Conn., March 2.—The future will see huge passenger planes carrying 1,000 persons on regular trans-Atlantic commercial flights, according to a prediction of Igor Sikorsky, noted aviation engineer.

He further predicts that these planes will climb to a height of fifty miles and travel at a speed of from 600 to 800 miles an hour.

Makes Solo Flight

Frank Herdrich, 3192 North Capitol avenue, made his first solo flight at Hoosier airport Sunday under direction of Bob Shank, Hoosier airport president and flight instructor. New pupils in the Hoosier Flying school are: Carl Schubert, 130 North Wallace street, and J. W. Moore, 1503 North Pennsylvania street.

Makes Loop Record

By United Press
BURBANK, Cal., March 2.—New women's record of twenty-three consecutive outside loops in an airplane was claimed today by Miss Dorothy Hester, 19, of Portland, Ore., who bettered her own previous record of five loops at a Red Cross air circus. Miss Hester claims she was the first woman pilot to do an outside loop.

Hawks to Tour Europe

By United Press
NEW YORK, March 2.—Captain Frank M. Hawks, who has covered the United States like a blanket with his record breaking airplane, is planning to do the same thing in Europe.

Hawks, proclaimed America's outstanding pilot for 1930, will sail for Brussels late this month, to make a three months' aerial tour of the continent in behalf of the Texas Company.

The plane in which Hawks made his transcontinental and other speed records will be shipped along with him. It is the fastest commercial plane in the world, so far as is known.

He will use it to inspect airports and transport routes in Europe, and between times will confer with foreign airplane and petroleum technicians.

Delay Air Program

Aerial program scheduled for this afternoon and tonight dedicating the new airways marking beacon atop the Merchants National bank has been postponed, probably one week, it was announced today by Lieutenant Paul Zartman, committee chairman.

Postponement was forced by delay in completing the beacon. Approximately thirty airplanes from all airports, commercial, military and municipal, will take part in the program.

Air Line Extended

By United Press
CINCINNATI, March 2.—Another thread in the great network of air-lines in the United States was woven today when the Embury-Riddle Company's Cleveland-Louisville air mail line was extended to Nashville, Tenn., completing directions with Atlanta, Ga.

The first ship over the extended line was piloted from Cleveland to Cincinnati by Julius Johann Peter and from Cincinnati to Nashville by Roy L. Mitchell. Four other ships carrying company officials and guests conveyed the plane.

A reception was to be held in

REBELS FORCE PERU MILITARY REGIME TO QUIT

New Provisional Government
Ends Immediate
Civil War Threat.

By United Press
LIMA, Peru, March 2.—A new provisional government ruled Peru today in place of the military junta of Lieutenant-Colonel Luis P. Sanchez Cerro, whose resignation Sunday ended the immediate threat of a civil war.

Intervention of the navy, on the side of the revolutionists who have been demanding the retirement of the military leader, forced him to yield, and Ricardo Leoncio Elias, chief justice of the supreme court, was sworn in as head of the new government.

The navy issued a manifesto revealing that some 2,000 troops aboard transports, believed en route to southern Peru to attack rebels at Arequipa, Cuzco and Puno, never had gone outside Callao harbor.

The cruiser Grau prevented the departure of the transports after they had sailed away with Sanchez Cerro's blessing. They got out of sight behind San Lorenzo island, but no farther.

Sanchez Cerro was left in Lima with only one regiment of regular troops and the city police force.

With rebel movements on both sides of the capital and most of the loyal army anchored in Callao bay, the provisional president had no choice but to resign.

Clubman Ill

Courtland Dines

COLORADO SPRINGS, Col., March 2.—The condition of Courtland S. Dines, Denver clubman and one-time friend of Mabel Norman, motion picture actress, was reported improved today by physicians.

Dines, who had been ill for several months, was taken to the Colorado Springs psychopathic hospital after relatives presented a petition declaring he was "incapable of taking care of his property."

He previously had been under care of doctors and two nurses at a mountain ranch. Repeated sinking spells alarmed members of his family and he was removed to Colorado Springs.

CAPONE MAY BE MERE PAWN OF UNKNOWN BOSS

Al Thought to Be 'Front,'
Keeping Attention From
Real Vice Lords.

BY MARGEN GRAHAM
United Press Staff Correspondent
(Copyright, 1931, by United Press)

CHICAGO, March 2.—A ring of super-gangsters, it developed today, may be using the notorious "Scarface Al" Capone as a mere pawn to direct suspicion of federal, state and city officials away from the actual heads of America's most powerful liquor, vice and gambling syndicate.

Capone, the information goes, has been allowed to attain his reputation as the lord of the American underworld so that his astute and extremely mysterious employers may pursue their billion-dollar extra-legal businesses without any particular interference from authorities.

As a Chicago gangster would tell the story, if he dared:

"Scarface Al maybe isn't such a big shot after all. It begins to look like he's just the front to take the rap for the higher ups."

Confidential information indicates that Capone's immediate employers are citizens of Chicago, men who have no ostensible connection with his nefarious operations. So fearful was the informant that he would be "put on the spot," however, that he refused flatly to identify further the men for whom he said he believed

SUICIDE EFFORTS FAIL

City Girl Refuses to Give Police Reason for Her Act.

After twice attempting suicide on Saturday night and Sunday by drinking poison and slashing her wrist with a razor, Miss Bessie Wilson, 20, of 126 West Twelfth street, apartment 1, refused to give police a reason for her acts. She was treated at city hospital and sent home.

Japan produces 300 more movies every year than Britain does.

Simple to Lose Fat a Pound a Day on a Full Stomach

Do Just These Two Simple Things
—Fat Melts Away

Science has made important discoveries in fat reduction. The average fat person can now rip off fat a pound a day—four to seven pounds every week—on a full stomach, with never a hungry moment. Thus it is foolish now to stay fat.

This is what you do: Take a teaspoonful ordinary Jad Salts in a glass of water half hour before breakfast every morning. This reduces moisture-weight instantly. Also cleanses the system of the waste matter and excess toxins that most fat people have, and banishes puffiness and bloat.

Then do this about eating. FILL YOUR STOMACH—eat your fill—of lean meats, vegetables like spinach, cauliflower, cabbage, tomatoes, etc., and lots of salads. Eat a lot. Eat all you can hold. Don't go hungry a minute! Cut down on butter, sweets and desserts, bread. Eat any fruit except bananas, for dessert.

That's all you do. Fat seems to melt away. The coarse lines of overweight give way to the refined ones of slenderness. You lose as much as a pound a day. You feel better than for years. For in this treatment you achieve two important results. The Jad Salts clear your system of toxins. "The diet takes off fat with food that turns into energy instead of weight."

If you're tired of being embarrassed by fat, try this way. You'll be glad that you did. You can get Jad Salts at any drug store.

Note particularly—the salts are urged purely as a poison-banishing agent—not as a reducing. The change in food does the work.—Advertisement.

"I've ridden the Western Plains
—says Chesterfield

© 1931, LIGGETT & MYERS TOBACCO CO.

Yet you'll meet me in the thick of a Broadway crowd"

It's a far cry from the cow country to Broadway. But what it takes to make the broncho buster "open up" about his cigarette is exactly what you want in your smoke. Good taste—and lots of it! And that is first a matter of tobacco quality, never forget it! What you taste in Chesterfield is riper, better tobaccos—not another thing—blended and "cross-blended" to a fragrant, satisfying mildness that is Chesterfield's own!

Greater mildness
... better taste!

FOR NINETEEN years, our Research Department has kept intimate touch with every new development of Science that could be applied to the manufacture of cigarettes. During this period there has been no development of tested value or importance to the smoker which we have not incorporated into the making of Chesterfield cigarettes.
