What's in Fashion?

Cheerful Breakfast Nooks

Directed By AMOS PARRISH

Informal Maple Furniture in a Modern Breakfast Nook

NEW YORK, March 19.—Everybody knows the value of starting the day off pleasantly and cheerfully. And that's one good reason for the fast growing fashion of gay breakfast nooks in homes.

Even apartment house builders are recognizing this fashion and partitioning off a corner of the kitchen for this purpose. Breakfast is an informal meal, of course. Somebody's always in a hurry. No time to stand on ceremony.

So—because it's in harmony with the meal—informal looking furniture is found in breakfast nooks in fashion-knowing homes.

Two Types Good

Two kinds of furniture are in fashion, both informal in character. One is the simple, sturdy maple furniture that looks like that used in American Colonial days. A butterfly table and ladder back chairs, such as are illustrated.

The other is the gay painted furniture, still with more or less Colonial lines. A drop leaf table and Windsor chairs, or just small, straight chairs of simple lines. And their color chosen to harmonize with the rest of the kitchen.

Of course the whole color scheme of the fashionable breakfast nook is planned to harmonize with the rest of the kitchen, because it is a part of the kitchen.

Yellow and Green Good

The two most fashionable color schemes for kitchens right now are yellow with green and blue with cream. So that makes them the most fashionable for breakfast nooks, too.

But—because the breakfast nook is really a separate unit, it can have greater intensity of color and more interest in decorative effects. For instance—if you've a yellow and green kitchen and you're a bit daring, here's a breakfast nook color scheme that will keep you cheerful for every one of at least 365 breakfasts.

Walls are yellow in both kitchen and nook. This yellow is repeated

in the window cornice board shown in the sketch above. But, the edge of the cornice introduces a new color—a real lacquer red. Not crimson or scarlet, but that lovely orange-red.

The overdrapes are lacquer red chintz with tiny yellow flowers. So are the chair pads. And the edging of both draperies and pads are finished with a fluted ruffle of plain yellow glazed chintz. Glass curtains are white marquisette with a yellow dot.

If the idea of lacquer red seems too daring for you, substitute a green chintz with a tiny orange flower and edge it with plain orange. And for glass curtains, try plain yellow ones.

And here's a good scheme based on blue and cream. Furniture in soft French blue. Cream walls. At the windows, peach colored organ-die bound in French blue. With overdrapes of chintz in peach, cream and blue.

Of course if your breakfast nook has built-in seats and tables, as so many do, then you simply paint them in the wanted color, or stain them maple.

FAKE LISTS OF VETERAN LOANS ARE SOLD HERE

Car Dealers Buy False Information; Officials Begin Probe.

Government officials in Indianapolis today were perusing evidence obtained against several persons on the sale of fraudulent lists of World War veterans purported to be receiving government loans on adjusted compensation certificates.

The lists, according to John H. Ale, regional manager of the veterans' bureau, were being sold to dealers in used cars, and to other merchants.

A check of the lists showed that the greater percentage of names listed had never applied for loans. Ale warned veterans to decline information concerning bonus applica-

tions, even though the person calling represented himself as "being connected with the bureau." "We are making no calls of this nature," Ale said.

The regional manager says most veterans filing applications for loans will receive their checks within the next three weeks.

AMAZING RELIEF FROM INDIGESTION

Can be obtained in from two to five minutes by taking a little "Bisurated" Magnesia immediately after eating or whenever pain is felt. Thousands who have tried it say there is nothing like "Bisurated" Magnesia for indigestion, gastritis, acidity or dyspepsia. This is because it neutralizes the dangerous excess stomach acid, sweetens the sour fermenting food and soothes and protects the sore inflamed stomach lining—thus quickly stopping gas, burning feeling and pain, and giving nature a chance to restore painless, normal digestion. Get a test package—either powder or handy tablets—from Hook Drug Co., or the nearest reliable drug store, take as directed, and forget you ever had indigestion.—Advertisement.

Between-meal fatigue is a signal

to eat something sweet

Thousands of workers and shoppers overcome fatigue in mid-afternoon by eating a food or drinking a beverage with sugar in it.

IT IS UNWISE to endure fatigue. For fatigue may develop into exhaustion, and when the system is in that state, it has virtually no resistance. Colds and other common ills are inevitable.

It is a good idea when you feel fatigued, to stop a moment and eat or drink something sweet. Such foods or beverages are quickly digested—the body is nourished, and the energy in the

sugar is ready at once to renew vigor.

Appropriate sweet snacks can be had in soda fountain beverages, ice cream, candy and small cakes. For children coming home from school, sweetened and flavored milk shakes, also bread and butter sprinkled with sugar are recommended. Most foods are more delicious and nourishing with sugar.
