A new and novel tournament has been scheduled for the second tournament of the year, Saturday, May 9. It will be called the "Duffer's Delight," and according to the rules when the players have finished eighteen holes of play they may substitute par figures for any four holes they may choose.

Armory Foes End Work for Bout Tuesday

Del Fontaine and Charley Arthurs, who meet in the Armory feature Tuesday night, wound up their active training seasons in local gymnasiums Sunday afternoon, and hundreds of fans turned out to watch the middleweights work out.

Arthurs held forth at the Victory gym, where he put in two hours of hard work, winding up by boxing six rounds with Joe Lynn and Willard Chappell. The New Yorker looked impressive.

Fontaine worked out at the Arcade training quarters and contented himself with punching the bag and shadow-boxing. The French-Canadian says he is on edge for his scrap with Arthurs.

Meditch had a field day Sunday, winning the 200 scratch steeple at the Shawnee alleys with a total of 715 and sharing top honors in the 300 doubles at the Illinois alleys with Faust on a total of 1,263.

Other players to cash in on the Delaware play were Decker, 679; Benner, 671; and Freije, 660.

A poor start of 158 failed to worry Frank Hueber, winning the first week's play of the Round Robin sweepstakes at the Fountain Square 253, 189 and 239. He was showing 721 for a total of 879 and the lead over a large field. Bohne was second with 637 and Vollmer third on 635. Next Sunday the players will roll at the Pritchard Central alleys.

Entries for the annual Industrial tournament to be rolled on the Hotel Antler alleys, starting next Saturday still are being received. This year's meet is divided into class play teams with an average of 60 or over being in Class A, while averages under this mark roll in B, Doubles and singles events also will be rolled.

Another new recreation plant is being prepared for local bowlers, Paul Crozier and Company proprietors of the Uptown and Fountain Square drives, securing a location at Thirty-fourth and Illinois streets for the installation of twelve alleys to be known as the Parkway Recreation.

JEWRY OF CITY TO OBSERVE PASSOVER

One of Most Significant Festivals of Hebrews Starts Wednesday.

Jewish citizens of Indianapolis will join with their brethren over the world Wednesday in the celebration of the Feast of Emancipation, known in Hebrew as "Pesach" or Passover. This holiday is celebrated for eight days by the conservative and orthodox congregations, while the reformed synagogues observe but seven days.

This holiday looms among the most significant festivals of the Jewish calendar, for the idea of freedom, upon which it is based, constitutes a basic concept in Jewish thought.

The feast is founded upon the incidents in the book of Exodus when the Hebrew people were led by Moses in a revolt against their slavery in Egypt and left that country to wander forty years in the wilderness and then found a nation.

To symbolize these years of hardship Jewish people eat the unleavened bread during the period of the festival.

The first night of this holiday looms among the most beautiful home festivals of the Jewish year and is observed with an elaborate meal and served with an ancient pomp and ceremony. It is known as the "Seder."

Services will be held in the Indianapolis Hebrew congregation temple, Tenth and Delaware streets, at 5:30 p. m. Wednesday and at the Beth-El Zedek congregation, Thirty-fourth and Ruckle streets, at 5:45.

Services at the Hebrew congregation temple that night will be brief in order to permit members to return to their homes for the "Seder." However, the regular Passover liturgy will be presented Thursday at 10 a. m. when Rabbi M. M. Feuerlicht's sermon topic will be, "Is Freedom in Danger?" At the concluding services at 10 a. m., April 8, Rabbi Feuerlicht will have for his topic "Four Types of Jew."

A communal seder will be conducted Thursday night at the Beth-El Zedek temple by Rabbi Milton Steinberg. He will preach at 9:45 Thursday morning. Observances at this temple will close April 10.

Capitalist's Suicide Brings Dispute Between Wife and Alleged Ex-Mistress.

By United Press

SAN FRANCISCO, March 30.—The ashes of Lieutenant-Commander Emory A. Winship, capitalist and retired navy officer, who committed suicide two weeks ago, were en route to Macon, Ga., today, while the dispute that followed his death was halted pending filing of his will.

Mrs. Dorothy Blount Winship, who was accused by a coroner's jury of bringing about her husband's suicide, sent the ashes to Macon in care of his brother, Major-General Blanton Winship.

The will is to be filed in Macon. On its contents will hinge two suits. One was prepared by Helen Elizabeth Thompson of Los Angeles, former screen actress, who claimed she was a "wife" to Winship for many years before his marriage to the present Mrs. Winship.

The other was prepared by Mrs. Winship herself to establish Winship's legal residence in San Francisco and, thus bring the probate of his reputed \$1,000,000 estate here.

Mrs. Thompson, according to her attorneys, received \$200 a month from Winship for an extended period, but they said this later was stopped. If the will does not provide for her, Mrs. Thompson will sue the estate, she said.

Mrs. Winship, who denied the tes-

timony of three servants that she excited her husband's jealousy by being found scantily clad in her chauffeur's room, refused a request of J. W. Preston Jr., estate manager, to turn over Winship's ashes to him.

Preston then refused Mrs. Winship's request for \$750 expenses to attend the Macon funeral and she remained here.

It's no easy matter to pilot a bucking log through white-tipped rapids. It's even harder to pry a Chesterfield smoker loose from his choice. A man wants *taste* in his cigarette and in Chesterfield he gets it... The *better* taste of milder and better tobaccos—nothing else! Nothing else is needed... thanks to the "cross-blend," which brings out the aroma and flavor of the tobaccos themselves!

Greater mildness... better taste!

FOR NINETEEN years, our Research Department has kept intimate touch with every new development of Science that could be applied to the manufacture of cigarettes. During this period there has been no development of tested value or importance to the smoker which we have not incorporated into the making of Chesterfield cigarettes.
