

PRESS LIBERTY IS DEFENDED BY WILLIAM GREEN

Bound Up With Fight of
Labor on Injunctions,
Editors Told.

By United Press
WASHINGTON, April 17.—William Green, president of the American Federation of Labor, today told members of the American Society of Newspaper Editors that the principle of freedom of the press is bound up with the effort of organized labor to obtain enactment of legislation to curb injunction powers of the courts.

"We have regarded the injunction orders of some equity courts," Green said, "commanding labor to refrain from printing and publishing facts concerning industrial disputes and industrial struggles, as a transgression upon the exercise of the freedom of the press."

"It is but a step from the suppression of news circulated by hand bills, circulars and through the labor press, to the hampering and hindering of the newspapers in their expression of news relating to strikes and labor disputes."

The editors met here Thursday in the first session of their ninth annual convention, and last night were guests at an informal White House reception.

SHIPYARD JOBS GAINING

More Men Employed With Production Only at 50 Per Cent.

By United Press
NEW YORK, April 17.—Although American shipyards are operating at only 50 per cent of their capacity, they are employing more men at present than a year ago, a report by H. Gerrish Smith, president of the National Council of American Shipbuilders, said today.

The Indian population of the United States in 1930 was placed at 340,541.

Besieged

From behind the walls of a virtual fortress—a Lisbon army barracks surrounded by barbed-wire entanglements and artillery emplacements—President Carmona (above) is ruling revolution-torn Portugal.

Lisbon, the capital city, is seething with reports of rebellion, with Madeira and the Azores already in open revolt.

LOWER STANDARD OF LIVING IS PREDICTED

Natural Resources Being Depleted,
Warns Bertrand Snell.

By United Press
NEW YORK, April 17.—The next generation in America will live according to lower standards because, without protective tariff and natural resources, "we have artificially maintained a higher standard of living than in other countries, but we have gone the limit on a tariff and our natural advantages are being depleted," Bertrand H. Snell, Republican chairman of the house and candidate to succeed the late Speaker Nicholas Longworth, said in an address Thursday night.

Snell spoke before the St. Lawrence County Society's annual dinner at the McAlpin hotel. He is representative in congress from that county.

'LEGAL BEER-- LOWER WAGE,' FORD WARNING

Return of Liquor Would
Demoralize Labor, He
Asserts.

By United Press
NEW YORK, April 17.—Henry Ford feels that the return of legalized beer and whisky would be followed by widespread reduction of wages in the United States.

His answers to three questions propounded by the Alcohol Information Committee and made public today, also revealed that he is of the opinion employers should enforce the prohibition law, aided by government supervision of liquor traffic. His answers in part were:

"I believe business has more to do with prohibition enforcement today than any other agency."

"Those employers who were anxious to improve the condition of their men by increasing their wages soon discovered that no business can afford to pay high wages to intemperate or drinking workmen."

"If the impossible should occur—I mean the return of legalized liquor—its first effect would be widespread reduction of wages due to the demoralizing of labor which liquor always causes."

"Business has been vastly helped by the prohibition law in securing sobriety. The law gives us a weapon. We are no longer left to ourselves to get decent conditions for families, but have the support of the government."

"The liquor business made money for very few—took money and money making ability from very many. General business since prohibition has resulted in the kind of business that benefits all who engage in it."

C. of C. Head Re-Elected

By Times Special
SOUTH BEND, Ind., April 17.—Carl L. Hilber, president of the South Bend Chamber of Commerce, was re-elected at the annual meeting of the board of directors.

Has Your Little House Spring Fever?? ... then Visit M. D. Kirk's

Modern Decorator

R

"Well, well," said the M. D. to his dejected visitor. "What seems to be the matter with you?"

"Many things, I'm horribly upset. I have a pain in the kitchen, a run down dining room, a discolored bedroom, and a general mess in the living room."

"Sad case," said the M. D. "Very sad, in deed, but very common and easily remedied. It's caused by neglect and improper house furnishings. It makes itself noticeable in the spring, and is termed 'Spring Fever.' We can have you in good shape, if you follow the prescription."

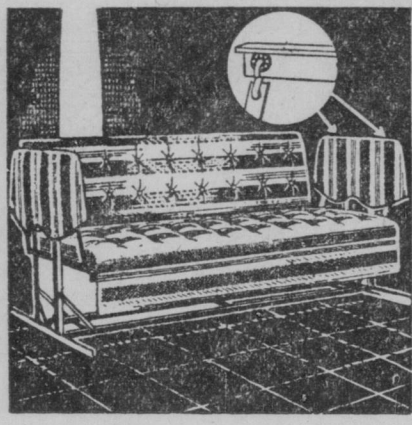

"Now open your door, and let's look inside—wider—wider, that's it—h-m-m-m, pretty bad. This should have been attended to years ago. Your home is terribly run down, sheer neglect, your home furnishing diet has not been properly balanced. You have not acquired the simple necessities, let alone little luxuries that bring color into your life. You need a complete overhauling."

"Here is a prescription that will fix it up with economy and convenience . . . Trade in your worn out furnishings . . . get everything you need . . . and pay for it as you can."

"Good-by."
