Cleanup Campaign Opened;  
Sullivan in Ceremony  
at Monument.

With shovel, broom and paint brush, Indianapolis today began its annual intensive drive on a winter's accumulation of grime as "Clean-Up, Paint-Up" campaign opened.

A force of men assigned through the "made work" committee of the Chamber of Commerce started today under the board of sanitary commissioners to clean up all vacant lots in the city.

Mayor Reginald H. Sullivan was to open the campaign officially at noon in a brief ceremony on the south steps of the Soldiers' and Sailors' monument.

The drive is to continue until May 2 under the auspices of the Chamber of Commerce. Frank Gates is chairman of the committee. Thirty inspectors were assigned early today by Fire Chief Harry E. Voshell to start a city-wide inspection of homes, yards, and garages and check up on conditions which should be corrected.

Everyone is asked to co-operate and make jobs for the unemployed through calling the city employment bureau, city-state employment bureau and the veteran's employment bureau.

City schools, both public and parochial, will give programs emphasizing the need of the spring clean-up, paint-up campaign and Boy Scouts, Girl Scouts and other public agencies will co-operate in the work.

## NEW SPANISH CHIEFS REFUSE TO TAKE LOAN

Think Peseta Can Be Made  
Stable Without Foreign  
Credit Extension.

BY JOHN DEGANDT

MADRID, April 20.—Speed and determination with which the provisional government of the republic has started reconstruction work in Spain was praised today, as the cabinet continued its efforts toward solution of the most pressing political and economic questions.

Directors of the Bank of Spain—as one example of speed in transformation of the government—were summoned into session this morning to draw up a proclamation rescinding the contract with New York and European banks for extension of a \$60,000,000 credit to Spain.

The credit, secured under the

monarchical government, was not accepted by the republican regime, which expressed confidence that the peseta could be stabilized without it.

Another instance of the rapid change of policy of the government was seen in the fact that several Madrid newspapers carried advertisements of Protestant churches for the first time.

The new government has repudiated the policies of the monarchy in supporting the Catholic church and, while maintaining the utmost respect for the church, has instigated a policy of separation of church and state and complete freedom of religious views.

"Profound satisfaction" was expressed by government officials in connection with the recognition of the republic by various foreign nations, including Portugal, Argentina, Greece, Czechoslovakia, Cuba and Turkey.

It also was announced the minister of war soon would publish a plan for reorganization of the army and the minister of justice will announce a plan for reorganization of the supreme court and other tribunals.

## LABOR READY TO OPEN DRIVE AGAINST DRYS

Two-Day Convention at  
Philadelphia to Map  
Beer Campaign.

By United Press

WASHINGTON, April 20.—Organized labor's heralded campaign for modification of the Volstead act will begin April 27 at Philadelphia.

Following a two-day convention, an American Federation of Labor announcement said, "a network of local organizations reaching into every American community will be formed, and it is our plan to conduct the most consistent vigorous campaign yet launched against the injustice of the Volstead act."

Under the direct auspices of the labor national committee for modification of the Volstead act, ranking officers of most of the national and international trade unions are ex-

pected to attend the Philadelphia meeting. Almost simultaneously with this announcement came a broadside from the Methodist board of temperance, prohibition and public morals, attacking beer—one of the outstanding objectives of labor's campaign.

An article in the weekly clip-sheet

of the board, signed by Dr. Edwin F. Bowers and entitled "Beer the Brutalizer," purports to show that hops, said to be one of the chief ingredients of beer, has the same effect on the human system as hashish, a drug that causes its "habitués to become dangerously violent."
