

'MISSING LINK' SEARCH TURNS TO TURKESTAN

Expedition Leaves Peiping for Unexplored Area in Asia.

By United Press
LONDON, May 7.—Man's search for the "missing link" will be continued by an expedition now proceeding from Peiping to the valley of the Tarim in eastern Turkestan. Professor G. Elliot Smith announced today.

The expedition is headed by Father Teilhard de Chardin and Dr. C. C. Young, a Chinese paleontologist, who were in the party which discovered the "Peking Man" in 1929.

No systematic exploration ever has been made in the Tarim region, where the river flows for 1,500 miles across central Asia and disappears in the Lob-Nor lake. According to a popular theory, millions of years ago the climate there was highly favorable to mammalian life and became a breeding ground for animals now spread over the world.

"Events of great importance to scientific research may be expected shortly," Smith said. "Some people suggest that the area where the cave containing the fossils of the Peking man was found is the home of the human family."

"The objection to that theory is that the Peking man is only one of the three contemporaries, the other being the 'ape-man' of Java, found in 1901, and the 'Pitman' man, found in Sussex in 1912."

"Early fossils of apes of the Miocene period were found in the Siwalik hills in India, and scientists engaged in excavating the Peking man have put forward the theory that the great factor which led to the evolution of man was the raising of the Himalayas at the beginning of the Miocene period."

Smith explained that the raising of the Himalayas cut off one group of these apes from India and north of these ranges they were subjected and forced to adapt themselves to new circumstances and climatic conditions or become eliminated.

BAR VISITORS FROM CLARA'S SICK ROOM

Little Change in Actress' Condition; Injury Reports Denied.

By United Press
HOLLYWOOD, May 7.—Little change was noted today in the condition of Clara Bow, screen actress, at Glendale sanitarium, where she is undergoing treatment for a nervous breakdown.

Miss Bow is permitted only liquid food, and is given massages twice daily to quiet her nerves. Dr. J. Wesley Hommel and Dr. Victor Parkin will permit her no visitors. Close friends, studio officials and newspaper men alike are barred from her room.

Paramount studio officials denied reports that just previous to her breakdown Miss Bow became violent, struck her director with a mirror and shouted, "I want to die." Reports that the actress had suffered a physical injury as the result of violence, also were denied.

BLOOD STAINS CAR OF MISSING ALBION MAN

Possessor of \$1,000 to \$1,500 Not Seen Since Sunday.

By Times Special
RICHMOND, Ind., May 7.—No trace has been found of Clayton Wright, Albion, missing since Sunday night when his blood stained automobile was found on a road in northern Wayne county. He is said to have had between \$1,000 and \$1,500 in his possession when he left Albion Sunday. His parents recall that he told them he was going to Richmond to deposit the money in a bank.

Near the automobile a pocketbook containing only 15 cents was found. A newspaper, soaked with blood and to which some human hair clung, was found in the car.

Trip to 'Naughty' Paris Given Mayor-Delegate

Left to Right—Rex P. Young, assistant secretary, Fletcher Trust Company; Mayor Reginald H. Sullivan, E. Kirk McKinney, works board president, and Fred C. Bush, French Line general passenger agent....

And now the class in facial expression-reading will please step forward and tell us which of the two city officials in the center of the above photo is going to Paris.

Correct the first time! It's E. Kirk McKinney, works board president, third from the left, wearing the broad smile.

On his right, with the doleful expression, is Mayor Reginald H. Sullivan, whose business duties prevented him from accepting invitation of the French government to make a five weeks' trip to Paris with all expenses paid.

Steamship company representatives Wednesday afternoon formally presented passage tickets to Sullivan, who in turn handed them to McKinney whom the mayor delegated to make the trip as his representative.

McKinney and Mrs. McKinney

CIVIC TO BE SCENE OF A GOOD CONTEST

By Walter D. Hickman
THE Civic Theater tonight will be the scene of the finals in the municipal drama tourney.

Three different groups of young people will appear in the finals which will determine the winners.

Last night at Brookside park community house, the judges finished their work after looking at one act plays for two nights.

The three winning groups who will compete for winning positions tonight will be the Brookside section presenting "The Valiant," the Collegiate players in "The Marriage Gown" and the Kendall Dramatic Club in "The Wedding."

The tournament opened on Tuesday night at the Municipal Gardens with four groups appearing, and on Wednesday night at Brookside with four more groups appearing.

Interest centers at the Civic tonight when the three winning groups will repeat their efforts for winning positions.

The judges are John I. Kautz, Walter Whitworth, Miss Mariam Bell, Corbin Patrick, H. W. Middleworth and myself. Mrs. Joseph Keiserly and Mrs. Allen Matthews are in charge, and it required a lot of work to put over the event successfully.

George Sommes, director of the Civic theater, will make the awards to the three winning groups. The

WHISKY MAKES DRINKER DRUNK, SCIENTISTS FIND

Seventy 'Martyrs' Undergo Test and Prove Liquor Has Wallop.

By Ole Cavling
COPENHAGEN, May 7.—Whisky, taken in a considerable quantity, will make a man drunk, a committee of distinguished Danish scientists discovered after giving seventy willing "martyrs" a thorough test.

In addition to this discovery, which many persons criticized as coming rather late, the investigators ascertained that all alcohol remains in the body only from four to six hours.

The purpose of the inquiry was to find out just what stage the ordinary drinker is affected by intoxicants. A total of 140 persons participated in the experiment. Half of them were motorists, aged 34, and the remainder 24-year-old students.

They were divided into two main groups. One was given six cubic centimeters of alcohol per kilogram of the person's own weight, while the other half got nothing. A regular restaurant size glass was used.

Those who had not eaten for four hours prior to the test were given three drinks in 15 minutes and the scientists found they made 24.5 per cent more mistakes with figures and in writing tests, while other activities were retarded as much as 60 per cent.

Even small doses of alcohol decreased activity, it was reported. However, the experiments failed to decide the question of capacity. One student was thoroughly drunk 15 minutes after he had bent an elbow for the first time. Yet it took more than an hour for one motorist to be classed as intoxicated.

On Account

By United Press
DENVER, May 7.—The Rannum family was short on cash when they separated and couldn't go to Reno and get a divorce in six minutes, so they tried the installment plan.

"One more payment and it'll be yours," Rannum's attorney told him when he laid down another installment today which paid for the complaint.

WORLD KIWANIS ELECTS

William O. Harris, Los Angeles, Is Named President at Convention.

By United Press
MIAMI, Fla., May 7.—Election of six international trusteeships and choice of a convention city from among Detroit, Chicago, Cleveland and Toronto, remained the major unfinished work of the Kiwanis international convention today.

William O. Harris, Los Angeles, was elected president unanimously to succeed Raymond Crossman, Omaha. Vice-presidents elected were Andrew G. Gaul, Hamilton, Ont., succeeding C. E. Jenkins, Brantford, Ont., for Canada, Harper Garton, Madisonville, Ky., United States vice-president, and Walter R. Weisner, Daytona Beach, Fla., treasurer, were re-elected.

AX KILLER TO ASYLUM

Child's Murder Laid to Overcrowding at Hospital for Insane.

AKRON, O., May 7.—Officials here today blamed overcrowded conditions at the Massillon State Insane hospital for the maniacal murder of Louise Burleson, 5, slain with an ax by Mrs. Hattie May, 50, a neighbor.

The insane woman was committed to the asylum some time ago, officials said, but was allowed to remain in her home because of conditions at the institution. She is held in county jail, and, according to authorities, will be removed to the asylum immediately.

French Discovery... New Lemon-Magnesia Pack

An Utterly New Beauty Treatment...
Whitens Skin Gently, Safely and Quickly...
Draws Out Blackheads, Blemishes and Discolorations...
Freshens and Tones the Skin to Unbelievable Smoothness

How to Give Yourself This Marvelous New Youthifying Facial

The application of Boncilla Lemon-Magnesia Pack is simple as A. B. C. Just smooth the dainty, fragrant cream over the face and neck and let it dry for nine minutes. Then wash it off gently with tepid water and examine the result in your mirror.

Notice how completely the fatigue-lines have disappeared—how astonishingly firm and smooth the contour of chin and throat—how fresh and clear the skin! Sallowiness and muddiness are conspicuous by their absence—while blemishes are utterly of the past!

Most of the better beauty shops give Boncilla Lemon-Magnesia Pack treatments as do leading barber shops. Men particularly benefit by the cleansing action of this new discovery, which leaves their faces fairly radiating cleanliness.

WHEN this new discovery was recently announced in Paris, beauty specialists were astonished! Within a week after the first treatment had been given by Andrelys in his famous beauty salon at 3 Rue du General-Lanrezac, the "citron-magnesia masque" (as they call it in France) was the talk of the town! Society women and stage stars flocked to it overnight. For they found its effect was nothing short of amazing.

Never has there been anything even remotely like this Lemon-Magnesia Pack—now brought to American women for the first time. Applied as a smooth, white, dainty cream it swiftly forms into a soft, pliable mask that brings instant beauty to your skin.

Immediately you feel a gentle toning and lifting effect as sagging contours are corrected. At the same time loose, "crepe" tissue about the eyes is perceptibly tightened and smoothed—crows' feet and surface wrinkles blended away. For by reducing puffiness and stimulating lax muscles,

Lemon-Magnesia Pack makes the face appear far slimmer—far fresher—and infinitely more youthful.

Simultaneously, dark skin is gently lightened and whitened—two or three shades at a time. Sun-tan and sallowness are coaxed away. Discolorations and roughness vanish. Coarse pores are reduced to normal invisibility—while the complexion takes on a natural delicacy of color and velvet-smoothness that no cosmetic has ever been able to imitate!

Made by Secret French Process

The magic of this new rejuvenating facial lies in the exclusive French process by which it is made. Lemon and magnesia are blended in such a way that their effectiveness is multiplied many times. Held closely in clinging contact with the skin by the cream-mask method of application, their potency is doubled and tripled through the action of body warmth.

But that is not all. Lemon-Mag-

nesia Pack not only acts as a marvelous corrective, but is a super-cleanser and fresher as well. One of its rare ingredients stimulates skin metabolism, and blandly dissolves pore impurities. Old dead cuticle is washed away—blackheads are eradicated—while the skin is enlivened and left glowing with youth and radiant color!

Dazzling New Freshness and Color

Your first Lemon-Magnesia Pack treatment will give you a new beauty-thrill. Application is simplicity itself and the whole process takes only nine minutes. But the rewards are really amazing.

Try it tonight. Ask for Boncilla Lemon-Magnesia Pack at any drug or department store. See for yourself its rejuvenating, beautifying action—how it smooths and refines the skin. Only a dollar for a generous size jar or tube—each treatment costs only a few cents. And your money will be refunded if you are not amazed and delighted with results. Get it today!
