

BUSINESS GAIN BY FALL, VIEW OF CREDIT MEN

Confidence Expressed at
Convention, Solomon
Says on Return.

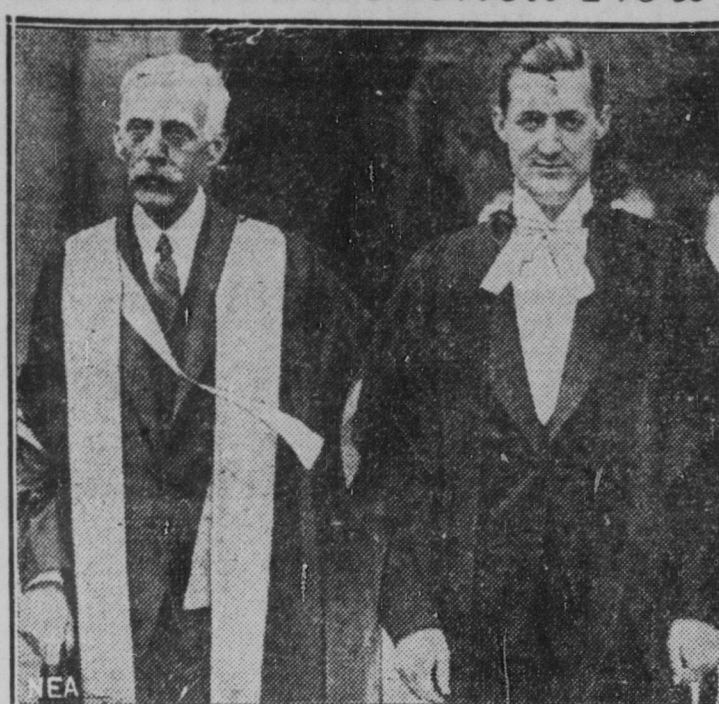

Confidence that a business upturn will be seen early this fall, was expressed today by Jacob B. Solomon, president of the Indianapolis Association of Credit Men, returned from the convention of the national association at Boston.

"After several days of discussion," he said, "the credit congress voted and went solidly on record that there is a distinct betterment in general business conditions; that the bottom absolutely has been reached and there is every reason to believe a genuine trade revival will take form by fall."

Solomon, secretary of the Kahn Tailoring Company, said the outlook is that of "hard-headed business men, looking facts squarely in the face."

Dr. Andrew Mellon Now

Andrew Mellon had gone to Cambridge university to see his son, Paul Mellon, take his A. B. degree in company with other honor men from Clare college. But shortly before the picture ceremony began, university officials announced that the elder Mellon also would be honored—with a degree of Doctor of Laws.

So here you see the secretary of the treasury—Dr. Andrew Mellon now—and his son in their robes.

DRY AGENT FLAYED

Ousting for Pistol Use to Be Demanded.

By Scripps-Howard Newspaper Alliance
WASHINGTON, July 2. — Although S. A. Bonney, dry agent at Denver, has just undergone a ten days' suspension by Prohibition Director Woodcock for alleged indiscriminate use of firearms, the incident had not been closed and the agent's dismissal, it is understood, will be demanded.

Bonney has admitted firing three shots at a car containing James J. Feuerstein and Miss Dolores McNichols, young Denver people, because Feuerstein refused to halt when he encountered a prohibition car parked across a country road.

Two shots struck the fenders of Feuerstein's car, but the third narrowly missed Miss McNichols. The latter is the daughter of the city auditor of Denver.

Investigation proved that Feuerstein and his companion were innocent of dry law violation.

America leads the world in air lines, with nearly 50,000 miles out of a total of 172,000 in regular commercial operation.
