

# FEDERAL JUDGE TAKES DIG AT VIGO OFFICIAL

Baltzell Says He'll Wait  
on State Court in  
Gas Suit.

Legal ambiguities are no part of the stock in trade of Federal Judge Robert C. Baltzell, you'll find, if you will ask Charles C. Whitlock, prosecutor and alleged "Emperor of Vigo county," today for his opinion.

While Whitlock is preparing to appear before the Vigo circuit court Saturday and present his reasons as to why the Kentucky Natural Gas Company should be enjoined from laying its pipe lines in that county, he has a chance today to mull over the warning issued him by Judge Baltzell late Thursday.

Declaring that the real question involved in the fight between Whitlock and the gas company is whether a supplemental permit issued by the county commissioners is valid, Judge Baltzell ruled that "he would not at this time grant a restraining order to keep the prosecutor from interfering and mandate the state court from issuing an injunction," which was asked in the suit brought in federal court by the gas company.

Keep it on Docket  
"However, we will keep this case on the docket," declared the judge. "I think that I know what is going on in that county," Baltzell said, looking straight at Whitlock. "I am not fooled as to why the gas company was compelled to halt its operations on the grounds that it was obstructing a road."

"If the state court declares the permit valid and the natural gas company continues being harassed, you officials of the company come back here and in ten minutes I will issue a restraining order against the prosecutor."

High Hand Indicated  
Testimony of the gas company officials indicated that Whitlock had arrogated to himself the position of being "the law in Vigo county" and had threatened to run the company out of the state.

It was testified that Whitlock personally had sworn to affidavits that the company was obstructing the road and had threatened to make "wholesale arrests."

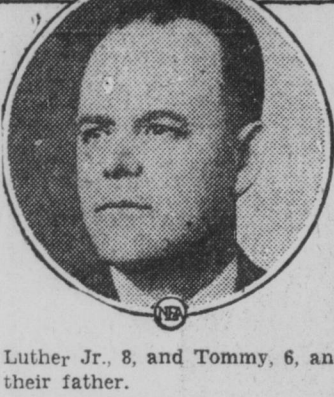

"It was all in kidding," Whitlock testified in his own defense. The record, however, showed that he also declared that he was representing some private interests.

It was brought out on cross-examination that when served with a warrant to appear here on the injunction hearing, the prosecutor was in the office of the local gas manufacturing company.

# 'Kidnaps' Own Sons

A legal battle in which officials of two nations may participate is expected to result from plans of Ft. Worth, Tex., officials, to return Luther C. Turman, wealthy oil operator, from Monterey, Mexico, on an indictment charging he kidnapped his own children.  
Mr. and Mrs. Turman, who were recently divorced and divided a million-dollar estate, each was awarded custody of the children for a part of the time, but Turman fled with them to Mexico where he has big oil interests. Shown here are the children.

Luther Jr., 8, and Tommy, 6, and their father.

# FATHER SAVES BOY, 4, GIVEN UP FOR DEAD

Parent's Swiftess Puts  
Life Into Small Lad  
With Pulmotor.

By United Press  
CHICAGO, July 10.—Four-year-old Richard Stanley Thompson was alive today because of a father who didn't know how to stop fighting. Richard went wading in a lake at the Thompson summer home a few

miles from Chicago, got in beyond his depth, was pulled out a few minutes later and given up for dead. Somebody telephoned to the boy's father, Stanley Thompson, who was at work in Chicago at the Trans-America Airlines, where he is traffic manager. "My son can't be dead," Thompson shouted back over the telephone. "I'll be there in ten minutes."

He found a pulmotor, leaped into an airplane, gave it the gun and raced against time and death to his son. He got there in fourteen minutes and began working with the pulmotor on his apparently lifeless son. For an hour he forced air in and out of the boy's lungs—and finally Richard began to breathe unassisted. Thompson flew back to Chicago, returned the pulmotor and resumed his work.

# BACKS MOVE TO PARDON STEVE

Former Legislator Starts  
Petition for Dragon.

Pardon for D. C. Stephenson, former klan dragon, serving a life sentence for the murder of Madge Oberholzer, whose appeal has been pending before the supreme court for five years, is the object of a petition being circulated here by Henry F. Kottkamp, Marion county representative in the 1929 legislature.

Kottkamp asserted today the petition for a pardon for Stephenson will be circulated among Marion county taxpayers until thousands of signatures have been obtained.

It then will be presented to Governor Harry G. Leslie and "we will have Stephenson out of the prison in ten days," Kottkamp declared.
