

LAST RITES TO BE WEDNESDAY FOR DR. ROSS

Medical Society to Hold
Memorial for Noted
Surgeon.

Last rites for Dr. David Ross, 65, prominent Indianapolis surgeon, who died Monday at St. Vincent's hospital, will be held at 4 p. m. Wednesday at the First Presbyterian church with the Rev. George A. Frantz, pastor, officiating. Burial will be in Crown Hill cemetery.

A special memorial service will be held by the Indianapolis Medical Society at 8 tonight at St. Vincent's nurses' home auditorium. Dr. Ross, one of the country's foremost surgeons, died after two weeks' illness from pneumonia. He was born in this city in 1865, a descendant of Scotch parentage. He attended common school at Brazil and was graduated from Central Normal college, Danville, and the Indiana medical school.

Started Here in 1906
Beginning practice of medicine in Indianapolis in 1906, he became active in Indianapolis Medical Association, serving as president in 1915. He also headed the Indiana State Medical Association in 1921, belonged to the American Medical Society, and was a fellow of the American College of Surgeons.

For several years he had served as an elder in the First Presbyterian church and was identified with various Masonic organizations, including the Mystic Shrine, Scottish Rite and Ancient Landmarks lodge. He was a thirty-second degree Mason.

Instructor at College
Besides membership in the Indianapolis Rotary Club, Athletic Club, Dr. Ross served on the board of directors of the Wheeler Rescue Mission, and was an instructor at the medical college of Indiana university. He was on the staffs of St. Vincent's and the city hospitals.

Survivors include the widow, formerly Miss Margaret G. Goodhart, whom he married in 1901; one son, Andrew F. Ross; two brothers, Harry and Hugh Ross, all of Indianapolis, and three sisters, Mrs. Verd R. Mayer, Indianapolis; Mrs. E. W. Leeds, Terre Haute; and Mrs. W. S. Morrison, Waltham, Canada.

WALKER GOES ABROAD

Mayor Jimmy Salls for Germany, to Take Month's "Rest."

NEW YORK, Aug. 4.—Mayor James J. Walker sailed for Europe Monday night aboard the Bremen, bound for Germany, where he will take a month's rest cure.

Several thousand persons were at the pier to cheer the mayor. Dr. Otto Kieb, German consul-general, welcomed him "to Germany."

"I accept this figurative welcome to German soil," the mayor replied, "but I understand that it does not become real until we are twelve miles out."

UNSIGHTLY FAT MUST GO SAYS DAME FASHION

Effervescing Salts New Aid
to Slim Beauty.

Fat is ugly and unhealthy. Get rid of it. French Lick Salts has helped thousands. It will positively help you.

French Lick Salts is the rational way to a stylish figure. It gets down to the real cause. When elimination is bad—when body wastes accumulate—be sure correct this unhealthy condition as the first step to cutting down unhealthy fat.

French Lick Salts is a skillful blend of the same health-giving mineral salts found in the renowned spring waters at famous French Lick Springs—combined in effervescing form. Dropped in cool water, it effervesces delightfully—is as pleasant to drink as a fountain beverage!

Take a little each morning. Get rid of double chin, heavy hips, thick ankles. Note how much better you feel—happy, vivacious, full of new vigor. Ask your druggist today for a generous 50c bottle of French Lick Salts.

Hits Wage Cuts

Josephine Roche (above), of Denver, only woman coal operator invited to the proposed White House conference on stabilization of the soft coal industry, declares she welcomes an opportunity to testify to the benefit of high wage scales and union labor in mines. She controls the second largest coal producing company in Colorado, and has thrown down the gage to John D. Rockefeller Jr., owner of the largest mines in that state.

SIGNS CREATE JOBS

Unemployed in Campaign to
Paint House Numbers.

Employment for forty to fifty jobless family heads will be provided by a new campaign, started today, for painting house numbers on curbs, it was announced by J. H. Charnock.

Charnock has received authority from the works board for the campaign and has obtained endorsement of the Chamber of Commerce for the project.

Using jobless men supplied by the emergency work committee, Charnock today began a house to house solicitation for orders. The signs will be painted on both the top and side of the curb and can be seen easily at night, he said.

Men employed for the campaign will be paid on commission. Charnock said he has conducted similar campaigns in approximately 300 other cities.

GERMAN BANKS ARE REOPENED FOR BUSINESS

Depositors Shift Funds to
Safer Institutions as
Holiday Is Lifted.

BY FREDERICK KUH
United Press Staff Correspondent

BERLIN, Aug. 4.—All private banks at 9 a. m. today resumed transfers on a normal business basis after a three weeks' enforced bank holiday.

The various emergency moratorium measures adopted by President Paul von Hindenburg gradually

have been relaxed and the reopening of the banks was regarded as a long step toward resumption of a normal economic life in Germany, torn by financial uncertainty.

Private depositors and corporations began withdrawing from certain banks and transferring deposits to others in which they had more confidence.

Unlimited public drawing from bank balances will be recommended Wednesday, the government indicated, when the paying counters reopen.

Interest today, however, centered in observing from which banks funds were being taken and to which they were transferred, as well as the extent of these transfers.

The outcome of today's transfers, it was emphasized, will be a barometer of the financial nervousness or confidence of the general public after three weeks of intense strain.

Early advice indicated no unexpected heavy runs on any banks. The heaviest withdrawals were reported on the Danat and the

Dresdner banks, both affected by the recent crisis.

The bank holiday was decreed by the government three weeks ago in order to give the country a "breathing spell" and permit the people to regain waning confidence in the country's national and private banking houses.

International co-operation in the extension of large comparatively longer-term credits to Germany in the meantime has tended to stabilize the situation and the government has relaxed its grip on the banks.

Cloud writing with a huge searchlight of 1,500,000 candlepower is the latest form of advertising in Berlin.

**A
Railroad
Has
Many
Owners**

A Message from
L. A. Downs, President
Illinois Central System.

Railway plants don't just grow. They are built up painstakingly out of the savings of thousands of industrious citizens, to whom interest and dividends often mean their own or their dependents' subsequent support.

Title to the Illinois Central System is vested in approximately 20,000 stockholders. Five out of every six of them own fewer than 100 shares. Two out of every five reside in states in which the Illinois Central System operates. One out of every twenty is an employee of the railroad.

More than half the railway investment is represented by bonds, many of which are held by insurance companies, savings banks and endowed institutions of learning. Through these bondholders thousands of other individuals become indirectly, but none the less really, dependent upon railway earnings.

Constructive criticism and suggestions are invited.

Chicago, August 1, 1931.

This is the third of a series of sketches descriptive of this railroad. Its territory and its plant have been covered; other sketches will cover personnel and patrons.

DEPENDABLE FOR 80 YEARS

Every LUCKY STRIKE is made of the finest tobacco leaves the world can offer—the finest from Turkey—the finest from Kentucky, Tennessee, Virginia, Georgia and the Carolinas—the Cream of many crops throughout the world. But all tobacco leaves, regardless of price and kind, as nature produces them, contain harsh irritants. LUCKY STRIKE'S exclusive "TOASTING" Process—a process that mellows, that purifies, that includes the use of the modern Ultra Violet Ray—expels certain harsh irritants naturally present in every tobacco leaf. We sell these expelled irritants to manufacturers of chemical compounds, who use them as a base in making sheep-dip*, as well as a powerful spraying solution for fruits, flowers and shrubs—enough to permit the daily dipping of over 50,000 sheep or the daily spraying of many thousands of trees. Thus, you are sure these irritants, naturally present in all tobacco leaves, are not in your LUCKY STRIKE. "They're out—so they can't be in!" No wonder LUCKIES are always kind to your throat.
