

ROOSEVELT HITS BIG BUSINESS' MERGER 'ORGY'

Makes Indirect Attack on
Consolidations in U. S.
in Last Decade.

By United Press
SILVER BAY, N. Y., Aug. 13.—Big business mergers and consolidations under way in the United States during the last decade have been attacked indirectly by Governor Franklin D. Roosevelt of New York.

In his speech Wednesday night before representatives of the Smaller Industries of America, in session here, the Governor, considered a leading candidate for the Democratic nomination for president, in one passage reminiscent of the Bryan era, said:

"We have heard much of the economies resulting from mergers and consolidations. And immediately following an orgy of merging, the country has been hit by the worst economic collapse of modern times."

Earlier the Governor had commented: "There is among the unthinking a widespread idea that the smaller industries of this country are doomed, and that presently we shall find all industries controlled by a score or a dozen of nation-wide producers."

"We have gone mad over the word 'co-operation,' with trade papers, codes of ethics, red fire and pep talks all designed to build up sales and increase production."

"There has been too much salesmanship, too much talk, too much overproduction. Real planning is needed. It is time we experimented. We already have experimented with big town, high pressure salesmanship, overproduction and centralization. Let us now turn the other way. I suggest that you as business men help us to make these experiments."

LABOR COUNCIL PUTS UP PLAN TO AID JOBLESS

Shorter Working Hours,
Pay Rate Maintenance
Are in Platform.

ATLANTIC CITY, N. J., Aug. 13.—The executive council of the American Federation of Labor today urged adoption of a five-day week and a six-hour day to meet the "national emergency" of the coming winter, the third consecutive winter of widespread unemployment.

Finding unemployment "increasing to an astonishing degree," while

the owners and managers of industry "stand impatient and helpless," the council issued a plan of action, which included six provisions:

Adoption of the five-day week by private and government industries. Adoption of the six-hour day if necessary, and "work security" wherever possible. Maintenance of the standard rate of pay. Inauguration and maintenance of a federal, state and municipal building and construction program "minus red tape."

Formulation and use of a plan to stabilize industry.

Calling of a conference of representatives of industry and labor by President Herbert Hoover.

Reports to the federation from member organizations in daily contact with labor conditions tell of distress and human suffering, according to President William Green.

"It would be a reflection upon government and upon our social order if society would stand helpless in the face of such a national emergency, the council's resolution stated.

THREE HURT IN DOUBLE CRASH ON WEST SIDE

Sheriff's Car Rammed as
Deputies Probe Earlier
Auto-Bus Mishap.

Two accidents at a West Washington street intersection Wednesday night, resulted in injuries to three men, and three cars, one the sheriff's emergency automobile, were reduced to wreckage.

Deputies arrested James Fykes, 21, of 1108 Westbrook street, on a charge of drunkenness after he had been taken to city hospital suffering from cuts when the car in

which he was riding ran into a passenger bus at Denison and Washington streets.

Authorities seek his brother Floyd, 29, of the same address, driver of the automobile who, they say, fled after the crash. Floyd Fykes sustained head cuts.

No one in the bus was hurt and the Fykes car was demolished. While deputy sheriffs Ed Kassenbrock and August Gatto were at the scene investigating the crash, another auto smashed into the rear of their car and the car involved in the first collision.

Harry R. Gregory, 24, of 4804½ West Washington street, driver of auto, was charged with reckless

driving and taken to city hospital. The sheriff's emergency auto, the second to be wrecked in the last three days, was damaged badly where Gregory's car struck it in the rear.

The deputies said they narrowly escaped serious injury or death, as did seven other persons who were at the scene of the accident when Gregory's car hurtled across the highway.

The world's highest suspension bridge, spanning the Royal Gorge of the Arkansas river at a height of 1,053 feet, has been opened to traffic.

Every LUCKY STRIKE is made of the finest tobacco leaves the world can offer—the finest from Turkey—the finest from Kentucky, Tennessee, Virginia, Georgia and the Carolinas—the Cream of many Crops throughout the world. But all tobacco leaves, regardless of price and kind, as nature produces them, contain harsh irritants. LUCKY STRIKE'S exclusive "TOASTING" Process—a process that mellows, that purifies, that includes the use of the modern Ultra Violet Ray—expels certain harsh irritants naturally present in every tobacco leaf. We sell these expelled irritants to manufacturers of chemical compounds, who use them as a base in making sheep-dip*, as well as a powerful spraying solution for fruits, flowers and shrubs—enough to permit the daily dipping of over 50,000 sheep or the daily spraying of many thousands of trees. Thus, you are sure these irritants, naturally present in all tobacco leaves, are not in your LUCKY STRIKE. "They're out—so they can't be in!" No wonder LUCKIES are always kind to your throat.
