# School Teaching

## Foundation of Our Youth

Parents—our school system of today is building a great foundation for our Youth—the leaders of tomorrow.

Are you interested in continuing their work in your home?

Ethical training is a parent's duty, but here is how the schoolmasters do it.

They teach accuracy by Arithmetic—humanity by History—breadth of mind by Geography—thoroughness by Handicraft—reverence by Astronomy—fair play, on the playground and gymnasium.

They teach kindness to animals; courtesy to servants, good manners to one another, and most of all truthfulness in all things:

They teach it by showing the children that the teachers are their friends and not enemies!

They teach them to build and never to tear down:

Parents—your child is in school but a few hours a day. Are you continuing this line of teaching in your home?

Do you help your child practice his learnings?

Is your home an institution of good morals and ethics?

There is no environment too good for our youth, who are the coming leaders of industry, finance and commerce of our nation.

To fulfill your obligation as a parent, in your own fashion, teach your child what the schoolmaster offers in school.

*Custom in infancy becomes nature in old age!*

If you are leaving ethical training out of the education of your children, you must accept the responsibility.

This page is made possible by our leading citizens, who are lending their unselfish support to build wholesome characters in the youth of today—for they are citizens of tomorrow.
