

BIDS SCHEDULED ON DORMITORY

Poor Farm Situation to Be
Clarified Nov. 6.

Answer of county officials to charges that housing conditions at the poor farm are inadequate and the structure is a fire trap, will be given Nov. 6, when commissioners

receive bids on a new dormitory. The new building, to house 146 of the 500 inmates, is supposed to be ready for occupancy before the end of the winter, to relieve congested conditions. Estimate of the cost of the building has been placed at \$23,000 by the commissioners. For the last several years, county officials have been targets of charges by The Times and the state fire marshal's office because of deplorable living conditions and fire hazards of the buildings. Persons acquainted with the situation said the capacity of the proposed dormitory will give a small measure of relief at the institution.
