

HIGH TRIBUTES PAID EDISON BY U. S. LEADERS

'Every American Owe Debt to Him,' Says Hoover in Statement.

By United Press
Messages of condolence and sympathy from high public men, financiers, scientists, personal friends, and others of lesser renown, on the death of Thomas A. Edison, poured in to Mrs. Edison and the inventor's family at their home in Llewellyn park today.

Among the hundreds of messages and statements were:

President Herbert Hoover—It is given to few men of any age or calling to become the benefactor of all humanity. That distinction came abundantly to Thomas Alva Edison, whose death in his eighty-fifth year has ended a life of courage and outstanding achievement. His lifelong search for truth, fruiting in more than 1,000 inventions made him the greatest inventor our nation has produced, and revolutionized civilization itself.

He multiplied life and dissolved darkness. He added to the whole wealth of nations. He was great, not only in his scientific creative instinct and insight, but did more than any other American to place invention on an organized basis of the utilization of raw materials of pure science and discovery.

He was a rare genius. He has been a precious asset to the whole world. Every American owes a personal debt to him.

Brought Honor to Nation

It is not only a debt for the great benefactions which he has brought to every American, but also a debt for the honor he brought to our country. By his own genius and effort he rose from a newsboy and telegrapher to the position of leadership among men.

His life has been a constant stimulant to confidence that our institutions hold open the door of opportunity to the man who would enter.

He possessed a modesty, a kindness, a staunchness of character rare among men. His death leaves thousands bereft of a friend, the nation bereft of one of its greatest benefactors.

I mourn his passing as a personal friend over a quarter of a century.

'Changed World,' Says Ford

Henry Ford, automobile manufacturer, one of the triumvirate of famed men and intimate friends which consisted of Edison, Ford and Harvey Firestone—Mr. Edison changed the face of the world in his lifetime and everything he achieved was beneficial to mankind. He was the chief hero of my boyhood and he became my friend in manhood.

Harvey S. Firestone, tire manufacturer, third member of the famed group of three—Mr. Edison, we all know, had the greatest mind of any man in our generation. His usefulness, his willingness to sacrifice himself for others, his power of concentration and his natural genius all combined to drive him at top speed in his determination to increase the comfort and the welfare of the people and to lift human happiness to its highest standard.

Marconi Honors Memory

Giuliano Marconi, Famous Italian Inventor—His influence has gone beyond his immediate discoveries and permeated the whole realm of science. Edison furnished most of my inspiration to achieve results in scientific research.

Professor Albert Einstein—Edison was one of the greatest of untiring creative spirits.

Sir Oliver Lodge—He has done a splendid work. He was indeed a great inventor.

Gerard Swope, President of the General Electric Company—He has been a long life, full of many inventions and great achievements which contributed not only to the progress of civilization and the benefit of mankind, but also his philosophy of living and his encouragement of youth has been a tremendous stimulation, not only to his own generation but to many generations to come.

Schwab Pays Tribute

Charles M. Schwab, Steel Magnate, to the Edison Family—You have lost a good and great husband, and I a lifelong friend.

Emil Ludwig, Historian and Author, and His Wife, Elga—"Lives of great men often remind us, we can make our lives sublime and, departing, leave behind us footprints on the sands of time."

Wilbur B. Huston of Seattle, Wash., Winner of Edison's First National Scholarship, in 1920—"Mr. Edison's death is a great loss because of his contributions to human progress, and those who were fortunate enough to know him personally will miss a strong friend."

Arthur O. Williams Jr. of East Providence, R. I., 1920 Winner—"Mr. Edison's death is a great loss because of his contributions to human progress, and those who were fortunate enough to know him personally will miss a strong friend."

Gone, but Not Forgotten

Automobiles reported to police as stolen belong to:

Leonora Foust, 3607 Creston drive, Auburn roadster, from Ohio and Delaware streets.

Dan Tuttle, 106 West North street, McKinley Lodge, Willis Clark, from 106 West North street.

Senate Bound?

Mrs. Elizabeth Reeke Morrow (above) is being considered as a possible successor to her famous husband, the late Senator Dwight W. Morrow, by Governor Larson of New Jersey.

Her friends are urging the Governor to give Mrs. Morrow the appointment. She was active in her late husband's campaign.

BY BEN STERN

BETWEEN listening to pleas of postmaster candidates and criticism of Oliver Loomis, Federal attorney for the Northern district of Indiana, Senator James Eli Watson's excursion into the new Fifth and Third districts last week was not one of unalloyed pleasure.

Watson, of course, is shunning from the whole problem of patronage—if changes are made, there are sure to be scores of disaffected and they will be out shrieking "double-cross" to the high heavens.

It is not amiss, in connection with patronage talk, to quote the elder statesmen, who declare that "each appointment makes a thousand enemies and one ingrate."

Watson bears no particular love and admiration for Loomis, primarily because he is the appointee of Senator Arthur R. Robinson, having been secretary to the latter before getting the attorney post.

AKRON TO FLY TO NEW HOME AT LAKEHURST

World's Largest Ship Soars Over Indianapolis on Last Test Trip.

AKRON, O., Oct. 19.—Her trial roving completed, the U. S. S. Akron will be accepted by the navy department and will sail Wednesday night to her future permanent home in Lakehurst, N. J. It was learned from reliable sources today.

The world's largest airship finished her first endurance flight Sunday morning when she glided into dock after cruising forty-eight hours through middle western skies skirting as far south as Cincinnati and Louisville west to St. Louis and north to Chicago.

Lieutenant-Commander Charles Charles E. Rosendahl, the skipper, and Rear Admiral George C. Day, chief of the navy board of inspection and survey, reported that every detail of the flight was highly satisfactory. Dr. Karl Arnstein, designer, was the first to disembark, likewise expressing satisfaction at the ship's performance.

The inspection board is expected to order that the Akron be approved and accepted at once. Although there was no announcement it was learned the approval would be furnished and the sky cruiser say farewell to her birthplace Wednesday night.

Passes Over City

The giant dirigible Akron passed over Indianapolis Saturday night shortly before 6 and brought hundreds to the streets to gaze at the ship on its return trip to Akron, O.

The ship floated from the north and south sides of the city, turning to the east over the downtown section. Persons living in the vicinity of Sixteenth and Meridian streets said they could see in the cabins, but most of the spectators were rewarded only with the gray outline of the dirigible and the winking of its lights.

Traffic was blocked in several parts of the city when motorists abandoned cars to get a glimpse of the dirigible.

SHOALS PROPOSAL NEAR

Hoover's Joint Commission Will Draft Report Nov. 2.

By Scripps-Howard Newspaper Alliance

WASHINGTON, Oct. 19.—President Hoover's joint commission on Muscle Shoals will meet Nov. 2 to draft its report to congress on the disposition of the government plant to private interests.

"We are confident of presenting a satisfactory business solution of the Muscle Shoals question," said Lieutenant-Colonel J. I. McMullen, one of the federal appointees on the commission.

McMullen confirmed the statement by S. F. Hobbs, chairman of the commission, that the latter would give no consideration to any plan to dispose of the Shoals without additional action by congress.

Auto Crash Kills Man

LINTON, Ind., Oct. 19.—A collision of three automobiles near here resulted in the death of William H. Inman, 58. His son Carl was the only other person injured.

Wise Americans

Now Demand

Kruschen Salts

Keep You in Good Health

—Body Free from Fat

Just think of it: these new, better and different salts were only introduced into America 3 years ago—yet a host of intelligent Americans are healthier and happier because of their supreme goodness.

Kruschen Salts are the daily health dose of millions of people the world over.

One half teaspoon of Kruschen in a glass of hot water every morning cleanses the liver, bowels and kidneys to healthy elimination. But the six salts in Kruschen do more than assist regular elimination—for the decrease in weight as a result of taking Kruschen is far more than mere waste removal.

One bottle of Kruschen (lasts 4 weeks) costs but 85c and one bottle will prove of vast benefit to people who have constipation, indigestion, nervousness, rheumatism, depression, acidity and auto-intoxication thru improper elimination.

Not only that but one bottle will bring about body activity—increased energy, vigor and ambition, sparkling eyes and freedom from pimples and blemishes—millions know all this—only to know it.
