

## RAILWAY HEADS VIEW WAGE CUT AS 'DYNAMITE'

Brotherhoods Will Fight  
Reductions Bitterly,  
Operators Concede.

By United Press  
ATLANTIC CITY, N. J., Oct. 22.—Wage cuts for railroad workers, and strenuous opposition to the interstate commerce commission's plan for aid to distressed railroad companies, appeared today as subjects for consideration by controlling officials of the nation's railroads meeting here.

While the program calls for consideration of the "absolute necessity of further reductions in operating costs," wage cuts are seen as the "meat" of the discussion. The carriers have cut all other expenses as far as possible; now, if they must reduce costs still further, wages must suffer, it was believed.

Wage reduction is a ticklish subject with railroad men. As one who refused to allow his name to be used, said: "I'd rather jump into the ocean 500 miles from land than talk wage reductions. It's the worst sort of dynamite."

Interests Mutual, Claim  
He expressed the view that the railroad brotherhoods apparently fail to realize the fact that their future is tied up with that of the railroad companies.

"I don't say that the position of the brotherhoods is indefensible," he said. "At any other time I would be in thorough sympathy; but the interstate commerce commission has offered no aid whatsoever. It has been blind to the real crisis and it has left the railroads no alternative, if they must save themselves."

He insisted that the brotherhoods "must realize that it is poor policy to kill the goose that laid the golden egg. As I see it, there is only one thing to do, and that is, reduce wages. Yet, any such program will meet the bitterest sort of opposition."

Hoover Help Remote

Outside of wage reductions, the carriers' one hope of salvation lies in President Hoover, the executive stated. "There's been much talk of a plan he is formulating to aid us," he said, "but, personally, I haven't a great deal of faith."

Informally, executives were talking among themselves, before opening of the two-day conference today, of what sort of definite plan for wage reduction might be adopted.

One plan discussed involved cancellation of contracts with the brotherhoods under the thirty-day clause, which would bring the question to a head quickly.

A second plan was for appointment of a committee to negotiate with the brotherhoods for voluntary acceptance of a wage cut for a limited time.

They seemed to feel the interstate commerce commission's plan of a fund pooled from freight increases on certain commodities, to be used to pay the guaranteed earnings of the weaker railroad companies, was of no practical value.

## BEWARE THE COUGH OR COLD THAT HANGS ON

Persistent coughs and colds lead to serious trouble. You can stop them now with Creomulsion, an emulsified crocose that is pleasant to take. Creomulsion is a new medical discovery with two-fold action; it soothes and heals the inflamed membranes and inhibits germ growth.

Of all known drugs, crocose is recognized by high medical authorities as one of the greatest healing agencies for persistent coughs and colds and other forms of throat troubles. Creomulsion contains, in addition to crocose, other healing elements which soothe and heal the inflamed membranes and stop the irritation and inflammation. When the cold goes to the stomach, it is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs.

Creomulsion is guaranteed satisfactory in the treatment of persistent coughs and colds, bronchial asthma, bronchitis and other forms of respiratory diseases, and is excellent for building up the system after colds or flu. Money refunded if any cough or cold, no matter of how long standing, is not relieved after taking according to directions. Ask your druggist. (adv.)

## THIRTY MIDGETS TO ARRIVE SATURDAY

Singer's Troupe of Little People Will Open Engagement of a Week as Part of Big Bill at the Lyric.

SINGER'S MIDGETS, the largest troupe of the smallest people in the world, will arrive here next Saturday in their three private railroad cars to take up their duties of entertaining theatergoers at this community at the Lyric theater for one week.

The press agent of the midgets has furnished some interesting data on these tiny mites.

They are found individually in various parts of the world and never in communities as it is generally believed. The majority come from Czechoslovakia, Hungary and Austria.

Comparatively few are found in Germany, but as the little folk have adopted German as a common language among themselves it often gives the erroneous impression that they are all Germans.

Midgets are always born of normal parents, and children born of midget parents are always normal, so it follows that inasmuch as this strong characteristic is not inherited, one finds the complete extinction of these little people in another generation or two.

Intellectually they are of the average intelligence of a full grown adult of the same age. This further proves the popular contention that the size of the brain bears no relation to the intellectual capacity.

There are thirty of these little men and women in Singer's troupe, eleven men and nineteen women and the ages run from 17 to 48 years. This company was organized seventeen years ago by Baron Leopold von Singer of Vienna, Austria, from whom the troupe's name is derived.

His wife, Baroness Vicki-Wally, will be with the company during their engagement at the Lyric.

Besides the little folk the company includes three trained elephants, ponies, camels and a real
