

# MANCHURIA IS HELD VITAL TO LIFE OF JAPAN

Annexation Only a Matter of Time, Says Authority on Far East.

BY WILLIAM PHILIP SIMS  
Scripps-Howard Foreign Editor  
WASHINGTON, Jan. 4.—Japan is in Manchuria to stay, no matter what it costs in blood or money, Kinosuke Adachi, Japanese writer and far eastern authority asserts. Said he:

"Manchuria is vital to the existence of the Japanese empire. Without Manchuria safely under Japanese control in time of war as in time of peace, the empire must dwindle until it becomes a fourth rate power. Our little islands can not support their large and growing population. We have nearly 70,000,000 people. We must have food from the outside and we must have raw materials from the outside. Without them we would perish.

**Annexation Foreseen**  
"The Japanese premier, Ki Inukai, says Japan would not have Manchuria as a gift. In a sense that is true. We do not care to annex Manchuria and add to our already heavy burden the burden of caring for 30,000,000 Chinese. "Eventually, whether we want to or not, we will be forced to annex Manchuria. Either that or we will have to get out. And most assuredly we have no intention of getting out. "What I mean is this: For the time being we can get along very nicely with only the economic control of Manchuria. All we require from that region are the raw materials needed to keep our industries back home in the islands supplied, plus the foodstuffs with which to feed our population.

**Self-Preservation First**  
"But such an ideal state of affairs can not last forever. Eventually—and it is just a question of time—Japan's position in Manchuria will be challenged. Sooner or later China will order us out, or try to put us out, or Russia will. Or both will try it together. "And that would mean war. I repeat, control of this region is a question of life or death for the empire, and for nations as well as for individuals self-preservation is the first law of nature. "I am no militarist. I am hardly Japanese. I am really more American than Japanese. My children are Americans. They can't speak the Japanese language. And it is from this dispassionate, objective point of view, that I declare that Japan either must maintain control over the nearby territory on the Asiatic continent or wither and die.

**Must Have Materials**  
"As long as this control goes unchallenged, Japan will not take over more actual territory. But the day Japan feels that tomorrow China, or Russia, or both, will be strong enough to oust her, that will be the day she will act to make certain of her hold. "Were this a warless world, it would be different. In peace, Japan could obtain food and raw materials from the other side of the earth. In war, however, her lines of communication would be cut, her people would starve and her factories would have to close down. "She must, at any and all costs, therefore, develop her own sources of supplies close to home where they can be defended, come what may."

**U. S. Attorney to Speak**  
By Times Special  
BEDFORD, Ind., Jan. 4.—George Jeffery, Indianapolis, federal district attorney, will be the speaker at a meeting of the local American Legion Post Tuesday evening. Jeffery is commander of the new federal post of the legion at Indianapolis.

## BEWARE THE COUGH OR COLD THAT HANGS ON

Persistent coughs and colds lead to serious trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a new medical discovery with a bold action; it soothes and heals the inflamed membranes and inhibits germ growth. Of all known drugs, creosote is recognized by high medical authorities as one of the greatest healing agencies for persistent coughs and colds and other forms of throat troubles. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the infected membranes and stop the irritation and inflammation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs. Creomulsion is guaranteed satisfactory in the treatment of persistent coughs and colds, bronchial asthma, bronchitis and other forms of respiratory diseases, and is excellent for building up the system after colds or flu. Money refunded if any cough or cold, no matter how long standing, is not relieved after taking according to directions. Ask your druggist. (adv.)
