

MARKET PROBE BY COUNCIL IS GOAL OF MYERS

Safety Board Head Urges
Changes; Cites Profit
on Investment.

Immediate investigation of city market conditions with a view of obtaining city council approval of much-needed changes, will be sought by Charles R. Myers, safety board president.

Myers today said he will seek an early conference with Ernest C. Roykey, council president, asking appointment of a committee from the council to study market conditions thoroughly, as was suggested at a council meeting several weeks ago.

The investigation was prompted by councilmen's delay of action on Myers' request for a \$1,500 appropriation to improve the east market, in order to fill vacant stands on the Alabama street side of the market.

Reported Favorably
A committee named to investigate need of the improvement reported favorably, but action was deferred until after first of the year.

"I think the council will could afford to be more generous in its appropriations for the market house, in view of the fact it returns a good profit," said Myers.

"In 1930, market leases brought fees of \$37,451, east market stand fees were \$13,841, while refrigeration fees produced \$5,384, a total of \$56,677, and a net profit of 275 per cent. Figures for 1931 are not yet available.

"Only about \$20,000 was allowed in the budget for operation of the market."

Still Returns Profit
"Even allowing for taxes on a \$300,000 mythical investment, \$8,340, and \$18,000 mythical interest, the market still returned a profit of nearly \$10,000."

Figures of Myers are questioned by Francis M. Coleman, deputy city controller, who pointed out that to expenses of the market must be added more than \$4,000 in police salaries, and various other sums to cover costs of services given by other city departments, such as cleaning of the market at night by sanitary board employees and services of health board inspectors.

"Back to Indians"
"If we stopped to figure out all the market costs the city we would give it back to the Indians," Coleman recently told council members. Among improvements needed at the market, according to Myers, are ventilation system changes, sewer repairs and a readjustment in stand fees.

"We couldn't close the market without a howl from the public, so we might as well put it in good shape and increase its business, thus increasing the city's revenue," Myers said.

The city was given title to the property with the provision that it always maintain a public market on the site.

DRAFTS TRUST LAWS

Senator Nye Proposes Bill to Strengthen Statute.

By Scripps-Hoover Newspaper Alliance
WASHINGTON, Jan. 8.—Bills to strengthen greatly the anti-trust laws, laid before congress by Senator Gerald Nye, (Rep., N. D.), will be considered before long by the senate judiciary committee.

Nye proposes to make illegal the selling of goods below cost, and to provide by law that price discrimination shall be an unfair method of competition. He would give rules resulting from trade practice conferences the force and effect of law when approved by the federal trade commission; and he would create a federal trade commission court to have jurisdiction in cases arising from the Sherman and other anti-trust acts.

Coal Pioneer Dead
By Times Special
BRAZIL, Ind., Jan. 8.—Funeral services were held here for James F. Andrew, 71, pioneer operator in the Brazil block coal industry, who was born in Scotland. He was identified with the industry more than fifty years.

First Tooth Out at 73
By United Press
LINTON, Ind., Jan. 8.—For the first time in his life James M. Humphreys, 73, has had a tooth pulled. To convince skeptics he saved the extracted tooth.

COLDS

can be broken up
only from within

Science has never been able to isolate the cold germ... the infection is termed ultravirus—a poison-producing substance that spreads through the system causing the well-known outward symptoms. But treating the symptoms cannot stop inward infection.

Bromo Quinine tablets destroy this ultravirus and eliminate it from the system—quickly and completely.

The Hussy

By Times Special
HOUSTON, Tex., Jan. 8.—Hard-boiled Manuel (Lone Wolf) Gonzales, Texas ranger sergeant, is no "prairie flower" but he dresses as a girl—sometimes.

Governor Ross Sterling said the Lone Wolf makes a "right pretty girl," and that he had been assigned to the east Texas oil fields to catch "petting party bandits."

"Gonzales dresses as a girl and sits in a car—when the bandits come, he shoots," the Governor said.

MANN TO FIGHT OUSTER CHARGE

Highway Superintendent Is
Called for Hearing.

Charles W. Mann, Republican appointee, who has refused to relinquish his post as Marion county highway superintendent, today was ordered to appear before county commissioners Saturday to answer charges of incompetency, neglect of duty and malfeasance.

These charges, none of which is

specific, were filed late Thursday by Gilbert S. Wilhelm of 2106 South Emerson avenue, contractor and president of the Merchants' Saving System, Inc.

Plans to help in a court fight that may follow the hearing were made Thursday by the executive committee of Indiana Highway Superintendents' Association which is preparing to defend highway superintendents' jobs in various parts of the state.

Mann, secretary-treasurer of the association, met with the executive committee.

Mann says he will fight to the highest courts the attempt of Democratic commissioners, Dow W. Vorhies and Thomas Ellis, to replace him with a Democratic appointee, John S. Mann.

NEW VIEWS OF IL DUCE SHOWN

Newsreel Depicts Mussolini
at Brother's Funeral.

The funeral of Arnaldo Mussolini at Milan, Italy, which catches Il Duce in an unusual series of motion pictures, is one of the leading parts of the current issue of The Indianapolis Times-Universal Newsreel now being shown at leading local theaters.

The death of Mussolini's brother

shocked the entire nation. Visibly touched by the death of his brother, the powerful premier retired to the background in these pictures, which form an unusual study of the iron man of Italy.

Graham McNamee, ace radio announcer and talking reporter of the screen, comments on this and other subjects in the reel, gathered from international events.

A picture of rare interest in this issue is that of the gigantic statue of Christ which towers over the harbor of Rio de Janeiro, Brazil. Standing on a mountain in the harbor, the huge monument, built to last for centuries, can be seen for a distance of twenty miles at sea, and acts as a beacon light for sailing vessels.

Tulane suffering its first defeat

of the season in the Rose Bowl game with Southern California at Pasadena, Cal., is another feature in the reel. The picture record of the great contest conclusively proves the power of the Trojan forces. Another unit of the reel is of the Tournament of Roses, viewed by a million persons before the game.

Mother of Fourteen Dies

By Times Special
NOBLESVILLE, Ind., Jan. 8.—Mrs. Elizabeth Jennings, 87, widow of Joseph L. Jennings, a Civil war veteran, is dead at the home of her son, Marvin Jennings. Other children are Mrs. James Nutt, Carmel; Mrs. Martha Metsker, California; Mrs. Homer Williams, this city, and Clark Jennings. She was the mother of fourteen children.

LENZ REDUCES LEAD

Culbertson Still Has Safe
Margin; End Near.

By United Press
NEW YORK, Jan. 8.—Maybe you'd call it a late start, but Sidney Lenz and Commander Winfield Liggett bore down last night and chopped 5,405 points off Ely Culbertson's lead. Culbertson started the evening with an importer, Howard Schenken, as his partner, 14,175 points ahead of Lenz and Liggett. After seven rubbers, with only six more to be run off tonight to end the contest, Ely and Howard found themselves down to a lead of 8,770 points.
