

# DAWES REFUTES RUMORED SPLIT WITH PRESIDENT

'All Nonsense,' Ambassador Declares, in Giving Statement.

CHICAGO, Jan. 12.—Ambassador Charles G. Dawes considers it insulting that any one should even intimate he would swing his support from President Hoover "in any possible way or under any possible contingency."

The former vice-president issued a formal statement Monday night answering newspaper hints that he might not be as strong a Hoover supporter as he once was.

Dawes last week announced he would resign as ambassador to London, and many rumors followed, among them one that he might become a candidate for the Republican presidential nomination in 1932.

Upon arrival here Saturday he spoke that rumor in characteristic Dawes fashion as being "all damn nonsense."

## Issues Statement

After issuing his statement last night he sat contentedly puffing at a new underslung pipe and refused to comment on what he had written.

The statement was clear enough—an optimistic declaration that he believes good times are coming back, and a pledge of his faith in President Hoover.

"I note the discussions of politicians seeking, as usual, to read petty political significance out of my return to Chicago," the statement began.

"I cherish for President Hoover the highest admiration and deepest affection. Any intimation to the effect that in any possible way or under any possible contingency he will not have my loyal and entire support is an insult to me."

## Praises President

"My last visit to this country was in July. I come back to find the people risen above partisan politics. They will remain above them. I find both the Republican and the Democratic party united in a determination to balance the national budget and limit global expenditures.

"I find both parties and all the people standing behind a legislative program of reconstruction which is a common sense program. It is based upon an old-fashioned idea that our government always should raise the money to pay its expenditures and not borrow it.

"As for President Hoover, whatever may be temporary political reactions, he has made a record in presidential initiative and constructive accomplishments unparalleled in the economic history of this nation or of any other.

"Economically this country generally has started on the upgrade. We have passed the bottom."

De Pauw President Defends Society of Nations in Manchuria Crisis.

Dr. Oxnam's address featured the annual clinic of the society held at the club.

He contended that the league is facing its first major problem, and probably will make an attempt at its next meeting to bring Japan to the bar of public opinion.

On the clinical program during the day were Dr. L. F. Smith of Indianapolis, Dr. Matthew N. Federici of Marquette university and Dr. Nathan Sinai of the University of Michigan.

## AUTO SHOW TO BE HELD HERE

Dealers Will Exhibit New Models Feb. 13-19.

Joining with motor manufacturers of the nation in a prosperity drive, Indianapolis dealers will hold the annual automobile show Feb. 13 to 19, E. G. Henry, manager of the Automobile Trade Association, announced today.

Dealers will strive for a display rivaling those in New York and Chicago, Henry stated. The show

here will begin a week following the close of the Chicago exhibit.

Date for the city exhibition was selected as being advantageous from the motorists' viewpoint because several manufacturers are bringing out new models later than usual.

Public interest generally is gripped with the trend of the new automobile, Henry said. Reception of the new cars is being watched as an indicator of the 1932 business prospect, he pointed out. An opening market will be felt in practically every channel of commerce, meaning wages for hundreds of thousands of jobs, he declared.
