

CHORUSES WILL GIVE SONGS AT SCHOOL FEB. 10

Increase in Number Forces
Division of Mothers
Singing Groups.

Preparations are now under way among the Mothers' choruses for the program of the second division of choruses, Feb. 10 at Brookside school No. 54, Tenth and Dearborn streets.

This is the first year that the Mothers' choruses have been forced to hold their annual program in more than one section. Due to the growth in number of choruses, all could not sing on a single program, so three programs were arranged, all to be held at Brookside school.

Four Groups Added
First of the programs was held Dec. 6. The last will be staged on March 17.

Mothers' choruses first were organized in 1926. They gained in number until in 1929, the Federation of Mothers' choruses was formed.

This winter, four new singing groups have been added to the list. They are the choruses at Schools No. 69, 67, 32 and 47.

President of the federation is Mrs. Maude Moudy, principal of Ralph Waldo Emerson school No. 59, 301 Lincoln avenue. Other officers are:

Plan Luncheon
Mrs. Ivys Milbourne, first vice-president; Mrs. H. L. Stenger, second vice-president; Mrs. A. E. Sullivan, recording secretary; Mrs. I. E. Chapman, corresponding secretary, and Mrs. H. C. Creole.

Members of the board of directors are Mrs. Basil Robinson, Mrs. Kenneth Coffin, Mrs. W. Johnson, Mrs. L. Miller and Mrs. Oscar Jones.

Following the three musical programs, the federation will hold its annual luncheon and pageant in April.

Fishing the Air
A. B. Parker, editor in chief of the Scripps-Howard newspaper, will deliver a radio address on "Fishing the Air" over WFBM and the Columbia network Wednesday, Feb. 3, at 3:14 p. m.

The theme of "Straight as the Crow Flies" will be another of the presentations featuring the Bowtell Sisters over WFBM and the Columbia network Wednesday, from 6:30 to 6:45 p. m.

Musical tribute to another of his name will be paid by "Singing Sam" during his program over WFBM and the Columbia network from 7:15 to 7:30 p. m. Wednesday, when he sings about "Lovin' Sam."

HIGH SPOTS OF WEDNESDAY NIGHT'S PROGRAM
6:30—NBC (WEAF)—John Phillip Sousa and band; the Revelers.
8:00—NBC (WJZ)—Adventures of Sinbad.
9:00—Columbia—Crime Club, part 2, "Case of Joe Attymer."
9:00—Columbia—Personalities, guest: Artella Dickson.
9:30—NBC (WEAF)—Vincent Lopez orchestra.

Madame Alma Clayburg, well-known as a concert singer, will appear as guest on "The Bath Club" which will be broadcast over WFBM and the Columbia network from 7:15 to 7:30 p. m. Wednesday.

Kimchy-Korsakoff's "Song of India" sung by the Revelers quartet, will contrast with "U. S. Field Artillery March" played by Sousa and his band in the program Wednesday at 7:30 p. m. over WTAM and an NBC network.

A newly arranged version of "Barnacle Bill the Sailor" will provide one of the high spots in the Wednesday night of the program, over WFBM and the Columbia network, from 8 to 8:30 p. m.

Selections from "Madame Sherry," Wagner's "March of Hounds" and "The Swan" will be played by a symphony orchestra in the program Wednesday at 8 p. m. from WTAM and the NBC Chicago station.

Charles Magnante, accordionist, will play one of his own compositions, "Lonesome Road," one of Nat Shilkret's own compositions, when the co-stars present "Music That Satisfies" and his orchestra Wednesday at 8:30 p. m. over WTAM and an NBC network.

Alex Gray, romantic baritone, will sing "Lonesome Road," one of Nat Shilkret's own compositions, when the co-stars present "Music That Satisfies" and his orchestra Wednesday at 8:30 p. m. over WTAM and an NBC network.

Artella Dickson will sing "Nicholas" and "That's Why I'm Here" from "The Night of the Living Dead," which will be broadcast over WFBM and the Columbia network from 10 to 10:15 p. m.

Paul Ravell, baritone, will be guest artist with David Gulon, well known cowboy composer- pianist, in a program made up entirely of Gulon's works Wednesday at 9:30 p. m. over WFBM and an NBC network.

"Too Late," the song which Bing Crosby used as his theme number when he first began broadcasting, will be played by Carl Fenton and his orchestra as their contribution to the program for Wednesday, which will be broadcast over WFBM and the Columbia network from 10 to 10:15 p. m.

'Whole Truth'
By United Press
WASHINGTON, Jan. 27.—It required 1,200 closely printed pages of testimony before the house appropriations subcommittee was able to prepare the \$50,000,000 appropriation bill for the interior department, which was presented to congress Monday. The testimony revealed:

That the Rockefellers are spending \$14,527,324.80 to expand, establish and beautify national parks.

That progress is being made in teaching Eskimaux type-writing and shorthand.

That Aleuts (Alaskan natives) are part Russian and some are Russian names.

That visitors to Colorado in the months of June, July and August, 1931, ate 613,151 pounds of cabbage.

That when Columbus visited the Virgin Islands in 1493 he found the women could swim and shoot accurately with bows and arrows at the same time.

'Rhythm'—'Ritin'—'Rithmetic

Learning the rhythm of writing in Miss Eunice S. Love's class at School 59.

THE three R's in a typical B class at School 59 at 4107 East Washington street, are rhythm, 'ritin', and 'rithmetic.'

Pupils in the class learn rhythm in all their bodily movements, as well as with chalk and with a large rubber ball.

In the picture are shown, left to right, William

Mabe, Lucille Edwards and Henry Beyers, getting the rhythm of writing on the blackboard.

While the phonograph plays a lilting waltz tune, the pupils keep time with their chalk.

Other uses to which rhythm is put are development of vocabulary, teaching of quiet listening, and encouragement of love of music.

PAGEANT CAST CHOSEN AT 69 TEACHERS TO PLAY FOR AIR BROADCAST

Six Pupils Named for Chief Roles in Feb. 4 Event.

Six pupils of school No. 69, at Keystone avenue and Thirty-fifth street, have been named for the leading roles in the pageant which will feature the program dedicating the school, Feb. 4.

The pupils are Helen Olsen, Robert Estlin, Rose Barnes, Charles Koster, Albert Stickland and Lena Belle Smith.

Fifteen other pupils will have minor roles in the production, which will be preceded by a series of musical numbers by the mothers' chorus of the school.

Speakers on the dedicatory program will be Superintendent Paul C. Stetson, School Commissioners Russell Willson and Julian Wetzel; Miss Maude J. Price, principal of school No. 69, and Mrs. Harry Newton, president of the school's Parent-Teacher Association.

Fun Indoors

Some questions are asked students in the children's department of the public library over and over again. Parents always are inquiring, "How can I amuse my child on a rainy day?" "What are the best books on handicrafts for children?" and "What can I give a sick child to read?"

The same category of books answers all three questions. For rainy day diversions and children confined to bed the same list of books will serve. Distracted parents will find these titles a boon: "Card Castles," by Adams; "Pastimes for Sick Children," by Whittem; "A Hundred Things a Girl Can Make," by Snow; "Making Tin Can Toys," by Thatcher; "New Book of Magic," by Leeming; "Harper's Book for Young Naturalists," by Verrill; "The Garden Book for Young People," by Lounsbury.

Shortridge Principal Will Speak Over WKBF Tonight at 9.

Public school teachers will furnish music in the schools' sixteenth weekly broadcast from 9 to 9:30 to-night over WKBF.

Speaker of the program will be George Buck, principal of Shortridge high school, who will talk on "The Last Half of the Game."

Playing trumpet solos on the program will be Raymond G. Oster of the music department, at Technical high school, and Robert J. Shultz of the physics department at Shortridge high school.

Pianists who will play are Ross T. Campbell of the mathematics department of Washington high school, and Miss Louise Swan, music teacher at school No. 85, and J. Harold Brown of the music department of Crispus Attucks high school.

Miss Hope Bedford of the Shortridge high school history department, will sing.

SCHOOLS GET 4 NEW EDUCATIONAL FILMS
Four new motion picture films, depicting the life of George Washington, have been received recently by the visual education department. They will be sent to the public schools, remaining at each for two days. According to Miss Carrie Francis, director of the department, the movies will complete their tour of the schools next October.

The first of the four reels is entitled "Conquering the Wilderness," reel two is "Uniting the Colonies," reel three is "Winning Independence," and reel four is "Building the Nation." The films will start on their rounds Feb. 23.

NIGHT SCHOOLS DO NOT CHANGE FOR SEMESTERS

Little Shift in Evening Classes, W. A. Hacker Declares.

"The evening schools have but one semester a year," said W. A. Hacker, assistant superintendent of schools Tuesday. "They do not promote at mid-year as do the day schools."

Hacker explained this as due to the fact that the evening schools meet during only five months of the year. The present term will end at the opening of spring vacation, March 25.

Evening school classes are being held this year in twelve elementary schools and three high schools.

Enrollment Increased
Number of students attending night classes is 2,685, a little more than 100 above last year's enrollment.

Most popular courses this year, as always, are commercial subjects, especially typing, stenography and bookkeeping.

Evening schools have been held in Indianapolis since 1897, when the first law authorizing them was passed.

Courses Change Little
According to Hacker, the courses of study in the night classes are more stabilized than are those in the day schools.

He pointed out that whereas day school courses always are subject to revision and experimentation, the night school curriculum remains about the same from year to year.

"Of course," he said, "we have added to the course of study a lot. I wouldn't venture to say how many courses we offer now. But we don't change so much from one year to the next."

MRS. BOYS TO ADDRESS CLUB

P.-T. A. Federation to Hear Talks on Youth.

Mrs. Florence Riddick Boys, state probation officer, will speak this afternoon before the Federation of Parent-Teacher Associations at the English Avenue Boys' Club, 1400 English avenue. Her topic was "Juvenile Protection."

William Wertz, director of the boys' club, will speak, telling of the aims of the organization.

The federation will hear singing by mothers' choruses from schools Nos. 72, 34 and 41.

In charge of the program is Mrs. Clayton Ridge. Mrs. S. M. Myers, president of the federation, presided at the business meeting preceding the speeches.

Members of Parent-Teacher groups from south side schools were hostesses.

AFTER GRADUATION Kindergarten 'Alumni' Go on Up

Patricia Ann Gift and Janet Hambleau say farewell to kindergarten and start their grade school careers, as the new term begins.

HUMIDIFIERS TO BE PUT IN USE

Tech Pupils Make 200 for City's Grade Schools.

Two hundred humidifiers, products of the sheet metal shops at Arsenal Technical high school, are being sent to the various grade schools this week.

The humidifiers were made by the sheet metal class under direction of Raymond E. Luecker.

They will hang on the back of radiators in classrooms. Two hundred more are to be sent out in two or three weeks, according to Harry E. Wood, director of vocational education and manual training.

The humidifiers meet the demand made last year by Mrs. Maude Moudy, school commissioner, who insisted that classrooms in grade schools were unhealthy because of their lack of moisture.

58 SHORTRIDGE PUPILS ACHIEVE HONOR ROLL
First Semester List Is Announced at High School.

Fifty-eight pupils of Shortridge high school won places on the high honor roll for the first semester. Requirement for the honor roll is twelve honor points. High honor roll pupils are:

Hilton Brown, Atherton, Lucy Ann, Hatcher, Chilton, Bell, Betty Blackmore, Alyce Bottelstein, Bert Braxton, LeRoy Brunning, Jane Collier, Elsie Calman, Margaret Cook, Betty Davenport, Dorothy Day, Robert Ellsworth, Robert Feller, Charles Feltman, Ruth Floyd, Hester Gruber, Max Healey, E. H. Hecker, John Holmes, Mary Kelt, Mary Alice Hicks, Jane Holmes, Louis La Fara, Betty Lutz, Dorothy Mermet, Jeanne Monckman, Julian Medford, Gordon Messing, Mary Louise Merrill, Julianne Monnell, Elizabeth Myers, Kathryn Bryant, Pratt, Dorothy Reasoner, Robert Saller, Mary Selby, Jean Sherer, Mary Jean Sherer, Jean Sothman, Jean Sothman, Jean Sothman, Dorothy Terrence, Madeline Trent, Joyce Trent, Jean Van Evers, Mary Ellen Voyles, Arlene Wilson, Stuart Williams, and Helen Zislant.

LIBRARIES ARE BUSY

Circulate Books Through 96 School Agencies.

Since school opened last fall 553 classes, a total of 12,672 pupils, have visited the library and its branches, to learn library procedure.

But children do not have to go to the library for books. The library comes to them. Books are now circulated through ninety-six school agencies, including eighty public schools, two private schools, nine catholic schools, one Lutheran school, one Seventh Day Adventist school, one school for the deaf, one kindergarten, and one at Indiana Central college.

Oldest Merchant Dies
By Times Special
NEWCASTLE, Ind., Jan. 27.—Funeral services were held Tuesday for William M. Pence, 88, Civil war veteran and Newcastle's oldest merchant, who died after a long illness. He had been identified with the Citizens State bank since it was founded in 1873.

Finally Sets Date for Argument of Embellishment Appeal.
Prosperity has gone and depression has come in seven years; children get their second teeth in seven years; and, too, the Indiana supreme court has acted in seven years.

Oct. 31, 1924, F. Guy Sprague of Ft. Wayne was convicted of embellishment in the Allen county circuit court. On Dec. 24 of the same year his attorneys filed a motion for oral arguments when they appealed the case.

And Tuesday the supreme court granted the petition for the argument. The date for the hearing was set for Feb. 1.

But in the seven years Sprague has not been idle.

Several weeks ago he was tried in Chicago for slaying a police officer. He was acquitted.

NATURE CULTIST DIES; STRICKEN ON TRAIN
Police Find Walls in Rooms Lined With Bibles.

By United Press
CHICAGO, Jan. 27.—George H. Aron, 60, Ph. D., who once led a "back-to-nature" movement, died Tuesday after being stricken on an elevated train.

Police, who investigated his death, were struck by the strongly isolated life he led. There was no one in his home in Greenview avenue, which was filled with books, Bibles, predominating with which he occupied his time. The walls were hung with diplomas and other evidence of Dr. Aron's scholarly life.

It was recalled that Dr. Aron gathered a group of disciples one or two years ago and took them to Colorado, where they subsisted for thirty days on berries and bathed in the rays of the sun.

SCIENTISTS WIN HONORS
John Fritz and Edison Medals to Be Awarded by Engineers.

By Science Service
NEW YORK, Jan. 27.—Two leaders in electrical science will be honored tonight when the John Fritz gold medal is presented to Dr. Michael I. Pupin, Columbia university professor emeritus, who rose from immigrant to inventor, and the Edison medal is given Dr. Edwin W. Rice Jr., honorary chairman of the board of the General Electric Company.

The presentations will be made in connection with the annual meeting of the American Institute of Electrical Engineers. The John Fritz gold medal is the highest honor give by engineers of the United States, while the Edison medal is an annual award of the electrical engineers.
