

# NAME PRIZES IN ANNUAL MODEL HOUSE CONTEST

Winner of Times Event to Receive Free Trip to Washington.

Cash prizes for winners in the fifth annual miniature model house contest, sponsored by The Times, were announced today by the committee following a meeting Thursday in the Real Estate Board offices.

First prize winner will receive a trip to Washington, D. C., with expenses paid by The Times.

Other prizes will be: Second place, \$25; third, \$20; fourth, \$15; fifth, \$10; sixth, \$5; seventh to twelfth, \$3, and ten certificates of merit.

The contest, open to high school pupils of Indiana, is being held in connection with the eleventh annual "rallors' home complete exposition April 2 to 10 at the state fair-ground.

**Just for High Schools**

The contest is not open to grade school pupils this year. Entries will be displayed at the home complete exposition.

The miniature houses must be constructed on a scale in which one-fourth inch equals one foot, and must be mounted on bases representing the lot, measuring exactly 18 by 36 inches. The base should be of plywood or insulating board, sufficiently rigid to withstand warping.

Houses may be one or two stories in height, but each must include living room, dining room, breakfast room, kitchen, three bedrooms, two baths and necessary halls, with a two-car garage, attached or detached.

**No Standard Plan**

The committee decided against adopting standard plans to be followed, leaving the design to ingenuity of the contestant.

Members of the committee are Ernest Spickelmier, chairman; Raymond Franke, Kenneth Fry, H. E. Redding, R. L. Williamson, Ralph Hueber, Wayne Temple, W. T. Clifford, Ray Durham, E. J. Nicolai, H. E. Huey, Marion Hinkle, T. J. Peters, Walter S. Gibson and J. Ray Monaghan, advising architect.

Committees named Thursday include school contact committee, Clifford, chairman; Nicolai, Williamson, Gibson, Franke and Peters; judges committee, Huber, chairman; committee on displays, Wayne Temple, chairman; landscape awards, Durham, chairman; Redding and Franke.

## MORE TOLERANT VIEW BY NATIONS IS URGED

'We Must See Affairs in International Light,' Says Baker.

By United Press

MEXICO CITY, Feb. 5.—Former Secretary of War Newton D. Baker urged nations to adopt an international viewpoint, in an address at a luncheon given in his honor here.

"To preserve our civilization, we must assume that some of the things we always have believed were true may not be correct," Baker said.

"We must change the system of thinking whereby each nation considers itself individually the world's greatest. We must adopt an international attitude which will permit all nations to co-operate toward a still higher type of civilization."

Baker was received enthusiastically.

## PASTOR TAKES LEAVE

Aubrey Moore to Spend Two Months in New Mexico.

A two months' leave of absence for the Rev. Aubrey H. Moore, pastor of the Seventh Christian church, Udell and Annette streets, was announced Thursday by officials of the church. Mr. Moore left Indianapolis Tuesday with Mrs. Moore for Albuquerque, N. M., where they will spend their vacation.

During Mr. Moore's absence, the church's pulpit will be filled by professors from Butler university.

## Prison Chaplain Chosen

By United Press

MICHIGAN CITY, Ind., Feb. 5.—Warden Walter Daly of the Indiana state prison today announced the appointment of the Rev. Robert Hall, Michigan City, as chaplain of the institution. The Rev. Mr. Hall will assume the position April 1. He succeeds the Rev. Aaron Wood, 80, who resigned after having served more than thirteen years. His resignation was due to his advanced age.

## COLDS

Colds are caused by an ultravirus (cold germ) which science has not yet been able to isolate. But science does know that this infection gets into the system and multiplies before the symptoms appear.

That's why it is necessary to destroy and expel the infection from within.

Millions depend on the tonic and germ-destroying properties of Quinine, combined with gentle laxative as in

Fagged out... always melancholy and blue. She should take Lydia E. Pinkham's Vegetable Compound. Its tonic action builds up the system. Try it.

## Costly Caress

By United Press

COLUMBUS, O., Feb. 5.—Two kisses in a taxicab cost Donald Mills, 26, cab driver, sixty days in the workhouse.

The complaint was made by 16-year-old Sally Moore, who said the incident took place while she was being driven to night school.

## PENSION BILL'S PASSAGE URGED

Measure to Aid Aged Is Sent Before House.

By Scripps-Hoover Newspaper Alliance

WASHINGTON, Feb. 5.—The first old age pension bill to reach

the calendar of either branch of congress was before the house today, and seemed assured of a vote.

The labor committee has reported favorably a measure introduced by its chairman, Representative William P. Connery (Dem., Mass.).

The bill sets aside a fund of \$10,000,000 to be apportioned to states for assistance to the aged. It provides that citizens 65 years old shall be eligible for relief provided they have no more than \$5,000 worth of property, and have no child or other

person on whom to rely for support.

Under the plan outlined, the federal government would provide only a third of the total amount to be expended for old age pensions, and in any case, no more than \$1 a day.

The money would be apportioned to the states by an old age security bureau to be created in the department of labor. Funds would be apportioned only for state-wide pension plans, mandatory on all state subdivisions.

## MORE TRAFFIC SIGNALS URGED

Citizens' Group Favors Plan to Relieve Downtown Cops.

Plans of Police Chief Mike Morrisey for replacing downtown corner traffic police with automatic

signals, similar to that at Washington and Meridian streets, were supported in a resolution adopted Thursday night by the citizens' safety committee at the Indianapolis Athletic Club.

The resolution favored issuance of bonds to purchase the signals. Captain Lewis Johnson said that the Washington and Meridian streets signal had relieved for other duties three of the four traffic policemen, formerly assigned at the intersection.

Installation of the signals at from

twenty-six to thirty downtown intersections would relieve a large number of traffic officers for motorcycle work, he pointed out. With the signals, one man assigned to each block is sufficient, he said.

Custave Mueller was named chairman of a committee to arrange a city-wide safety rally similar to that held last year.

The world's largest canal lock, 1,312 feet long and 164 feet wide, capable of raising the largest ship afloat, has been set up in Holland.
