

# REDS TOO BUSY TO OPEN WORLD REVOLT EFFORT

Communist Party Pledges  
Full Energies to Second  
5-Year Plan.

BY EUGENE LYONS  
United Press Staff Correspondent  
MOSCOW, Feb. 5.—Efforts to start a world revolution against capitalism have been sidetracked in the Soviet Union by the task of creating a successful Socialist state within the Soviet frontiers.  
The Communist party's energies

will be devoted exclusively to the problem at home, at least until the end of the second five-year plan, according to opinion expressed by leaders addressing the congress of the Communist party here.  
Earlier Communist gatherings emphasized the necessity and likelihood of a world revolution. The subject has gone practically unmentioned before the delegates now meeting at the Kremlin.  
Party leaders referred to the impending collapse of capitalism by citing the economic crisis of the outside world in contrast to the progress of the five-year plan. The references did not resemble the fiery summons to workers throughout the world to revolt which featured Communist conclaves in the early years of the revolution.  
Ninety-five per cent of the speeches have been devoted to purely economic, financial, or technical questions such as one would hear at a chamber of commerce meeting. It is evident that the party lead-

ers intend to concentrate on industrialization to the exclusion of everything else.  
Many speakers did point out the primary importance of the achievement of real socialism here, as an example to the world's proletarians.
