

CONGRESS MAY LEVY TAXES ON MANUFACTURER

McAdoo Suggests 100 Per Cent Collection From Rum Peddlers.

BY THOMAS L. STOKES
United Press Staff Correspondent
WASHINGTON, Feb. 12.—Levy of a manufacturer's sales tax on a wide variety of products that can stand the burden best was adopted as a policy today by the house ways and means committee.
A special subcommittee, headed by Democratic Floor Leader Rainey, called upon the commerce department for data on the manufacturing industry, preparatory to a determination of which units are in the best condition to help the government balance the budget.
The condition of the particular industry will be the measuring stick. The tax thus will not be a general manufacturers' tax blanketing the industry, but will cover a large number of individual items.

Crisp Makes Eloquent Plea
Acting chairman Crisp said today that about \$800,000,000 must be raised by such taxes, as only between \$350,000,000 and \$400,000,000 can be raised by the income inheritance and gift taxes planned by the committee.

He called upon the house Thursday in an impassioned speech to raise taxes sufficient to balance the budget, which will require \$1,241,000,000 of additional revenue, and announced the committee would present a bill that would accomplish this.

On top of the numerous suggestions it has received, the committee today got several from a prominent Democratic leader and leading prohibitionist, former Secretary of Treasury William Gibbs McAdoo.

The most novel of these were a 100 per cent tax on the bootleg and narcotic trade, and a passport tax to encourage Americans to spend their money at United States resorts.

McAdoo Asks Bootleg Tax
McAdoo cited estimates of annual profits of bootleggers of \$1,500,000,000 and said the government could reap a large revenue from this source.

"Such a tax, combined with the inquisitorial power possessed by the bureau of internal revenue, is one of the most effective weapons that could be employed to destroy the bootleggers and narcotic dealers," he said.

"It may not be possible to collect 100 per cent of the illegal income, but certainly the wholesalers—the crux of the problem—can be reached."

Churchill Booked Here

Sir Winston Churchill
Preparation for the visit here of Sir Winston Spencer Churchill, "stormy petrel of Britain," who will lecture Feb. 27 at the Murat temple, were being made today by Dr. David M. Edwards, executive secretary of the Indianapolis Council on International Relations.
The noted British peer will speak on "The Destiny of the English-Speaking Peoples." Churchill recently was injured when struck by a taxi in New York, but now is fully recovered.

MAGAZINE TOTTERS

Police Gazette Fate Rests in Creditors' Hands.

NEW YORK, Feb. 12.—The fate of the Police Gazette magazine, the sex appeal standard bearer of the gaslight era, rested today with its creditors.

Unless some financial arrangement is made immediately, Albert S. Kochman, president of the Richard K. Fox Publishing Company, the owners, admitted "the future of the Gazette is doubtful."

Kochman would not say whether the last edition, dated Feb. 6, had finished the magazine's career, as had been reported, but he looked gloomy.

The Police Gazette was founded in 1846 to crusade against crime, vice and luxury. It glorified in

Anthony Comstock's denunciations. Later, however, after Richard K. Fox, an Irish journalist, took over the publication, it became the bible of the sporting fraternity. Many sportsmen of the old days refused to pay their prize fight bets until the Police Gazette announced the result.

STATE BUYS CEMENT

Awards Contracts for 1,800,000 Barrels for 1932.

Contracts for 1,800,000 barrels of cement to be used in Indiana's road construction program for 1932 were awarded Thursday by members of the state highway commission. The contracts represent an investment of more than \$1,800,000.

Cement companies given the contracts: Lehigh, Marquette, Cosmos, Washash, Louisville and Lone Star. All but the Marquette firm employs Indiana labor.

26 DIFFERENT CAR MAKES TO BE ON DISPLAY

Fairground Groomed to Be Host Saturday to Annual Auto Show.

Twenty-six makes of passenger cars will be on display at the twenty-first annual Indianapolis Auto Show, which opens at 10 Saturday morning in the Manufacturers' building at the state fairground.

The show will continue until Friday, Feb. 19. It will be open daily from 10 in the morning until 10:30 at night.

Besides the twenty-two passenger cars, three exhibits will feature trucks, and fourteen displays will be sponsored by makers of accessories.

Exhibitors were occupied today with putting their displays into show-shape. Only a handful of workmen still were occupied with decorations to the building.

Trucks laden with cut-away chassis and new motor cars came in a steady stream to the back door of the exposition hall today. Workers were busy washing tires of cars driven to the scene. Dust cloths raced across shiny new finishes, so that Mr. and Mrs. Motorist may see their reflections Saturday.

Autos which will be shown are Chevrolet, Ford, Plymouth, Chrysler, Cadillac, La Salle, Buick, Reo, Studebaker, Pierce-Arrow, Marmon, Stutz, Auburn, Cord, Hudson, Essex, Hupmobile, Lincoln, Dodge, De Soto, Nash, Pontiac, Oldsmobile, Packard, Franklin and Graham.

Norway Crown Princess Mother
By United Press
OSLO, Norway, Feb. 12.—A daughter was born Thursday night to Crown Princess Martha of Norway, the former Princess Martha of Sweden. The royal mother and child were reported well. Princess Martha and Crown Prince Olaf were married in 1929.

\$500,000 Alky Plant Seized
BALTIMORE, Feb. 12.—Half a million dollars worth of alcohol-making equipment was seized by prohibition agents today in the

"biggest dry raid in the city's history" and, according to justice department operatives, probably is the largest in history of dry enforcement in the United States.
