

HOOVER GIVEN STERN WARNING BY DRY CHIEFS

Leaders Seek to Head Off Wet Plank Movement by G. O. P. Bosses.

By Scripps-Hoover Newspaper Alliance
WASHINGTON, April 22.—Organized dries are putting President Hoover "on the spot," in a concerted movement to prevent the Republican party from adopting a moist or wet plank at Chicago.

Alarmed by desertion of all but two cabinet members to a repeal or resubmission program, they are serving notice on the White House that they elected Hoover as a dry in 1928 and expect him to stay that way. These warnings carry the threat that they would prefer to punish a deserting dry by voting for an honest wet.

In the event Hoover agrees to run on a repeal, modification or referendum platform, dry leaders declare their followers will vote for an outright Democrat wet or stay at home.

Such utterances have come up from Dr. Clarence True Wilson, executive secretary of the Methodist board of temperance, prohibition and public morals, and from E. Scott McBride, Anti-Saloon League chieftain.

Formal notice of this sentiment was served on Hoover Wednesday when representatives of the Women's Committee for Law Enforcement presented to him a resolution condemning evasive tactics, requesting that our foreign ambassadors be forced to conform to the dry law, and reminding the President of his previous statements against repeal or modification.

Mrs. Henry W. Peabody, chairman of the national committee, declared the dries would tolerate no fooling. She handed to Hoover the "be it resolved" section of the resolution. It said:

"Be it resolved, That we cannot accept any recommendation by either party to present a dry candidate on a wet platform, since we could not trust the sincerity of any candidate willing to lend himself to such plan."

Mrs. Peabody did not divulge whether Hoover made any comment. The President is understood to have informed party leaders he would run on a wet platform if the convention adopts one.

When asked what her women would do if Hoover carried out this pledge, Mrs. Peabody pointed significantly to the resolution.
