

FOUR TRAPPED MINERS SAVED

Signals Tapped on Iron Pipe Guide Rescuers.

By United Press
SHENANDOAH, Pa., April 29.—Four miners, trapped fifteen hours at the Hammond colliery, Girardville, were rescued today without injury.

The men were John Sambonski, John Vinko, Michael Gendelski and John Biskus, all of Shenandoah.

A fall of rock trapped the men in a gangway 500 feet from the

main highway between Girardville and Shenandoah, while they were digging coal on the night shift.

Colliery officials soon learned of their plight and set twenty men to the rescue task.

Communication with the men was established through use of an iron pipe used to carry compressed air into the mines.

Through trapped signals the rescuers learned that none of the men had been injured, that the air supply was adequate, that they would be all right until rescued.

Work of digging through the mass of rock and timber in the gangway proceeded slowly because of danger of further falls.

After fifteen hours' work, the four were taken out shortly before noon. None of them needed medical attention, reports from the mine said.

M'NUTT FAVORS UTILITY CHANGE

Champions Right of Cities to Own Plants.

Enactment of laws permitting municipalities to purchase or establish public utilities whenever a majority of the voters so desire, was advocated by Paul V. McNutt, Democratic Governor nomination candidate in a letter to the Municipal Rights League of Indiana.

This letter was made public today by H. Karl Vollard, mayor of

Columbus and acting president of the league.

McNutt, in the letter declares: "We have certain laws which were enacted for the purpose of regulating public utilities and we have a commission created for the purpose of administering those laws. Neither the laws nor their administration are satisfactory. I favor legislation to strengthen the law for the benefit of the consuming public."

"I given the authority, I shall make a complete change in the personnel administering those laws. I believe that our municipalities are competent to manage public utilities without interference by the commission."

"I favor the enactment of laws which will permit the municipalities to purchase or establish such utilities whenever a majority of the voters so desire."

KILL CRAZED WOMAN

Shot Down After Officer Is Slain by Her.

By United Press
LOS ANGELES, April 29.—A crazed woman and a police officer were dead today after a battle which ended only after officers had driven the woman from her house with tear gas and cut her down with a fusillade of shots to safeguard a throng menacing by her smoking pistol.

Radio Officer Paul Donath was killed when he went to the house to investigate a complaint Mrs. Ella May Thompson, 30, had fired upon a

neighbor. As he knocked at the door, two shots came through the panel, one striking him in the chest.

A swarm of officers and detectives answered a riot call, armed with sawed-off shotguns, machine guns and tear bombs.

Tear bombs forced the woman to merge from her rear door. She came out firing blindly and fell under a police volley.

Women Die in Crossing Crash
UNION CITY, Ind., April 29.—Mrs. Lydia Fisher, 75, and her daughter, Miss Daisy Fisher, 52, of Union City, were killed instantly when the auto in which they were riding was demolished by a Big Four passenger train at a crossing, six miles west of here Thursday night.

SWITCH PROSPERITY BID

Makers of 1928 Hoover Coins Now Seek Democrats' Business.

By Scripps-Hoover Newspaper Alliance
WASHINGTON, April 29.—An eye for business and politics was shown today by the Yankee firm which manufactured the "Hoover prosperity" coins in the 1928 presidential campaign.

Instead of seeking another order from the Republican national committee, the company wrote to the Democratic national committee, asking if it would not order a large batch of the pieces of use in the coming campaign.

In 1928 the coins bore the legend, "Hoover lucky piece" on one side, while on the other was the inscription, "Good for four years more of prosperity." About five million were struck off and distributed by Hoover's managers.
