

PAY MILLIONS EACH YEAR TO U. S. HEALERS

Amount Equal to 12 Per Cent of Amount Paid to M. D.'s for Care.

BY MARSHALL McNEIL

WASHINGTON, May 3.—Persons seeking treatment outside of the recognized group of doctors of medicine, pay \$125,000,000 annually to osteopaths, chiropractors, naturopaths and allied healers, and Christian Science and new thought practitioners, according to a report to the committee on the cost of medical care. This committee is headed by Dr. Ray Lyman Wilbur, United States secretary of the interior.

The report, prepared by Louis S. Reed, shows that this \$125,000,000, 12 per cent of the amount spent on the 142,000 doctors of medicine, is paid to 36,150 other practitioners.

"Present legislation designed to protect the public from unqualified practitioners is not accomplishing its purpose," the report says. "Although it maintains high standards for doctors of medicine, it sanctions the existence on a lower plane of qualifications of thousands of poorly trained practitioners."

"The use of any therapeutic measures by untrained or poorly trained individuals, unable to diagnose disease and unaware of their limitations, is unsound, dangerous and wasteful, no matter how sound those measures may be."

Dr. Reed estimates the people of the United States annually spend \$42,000,000 for the services of the nation's 7,500 osteopaths; \$63,000,000 on 16,000 chiropractors; \$10,000,000 on 2,500 naturopaths and allied groups; and another \$1,000,000 on the 10,000 Christian Science and New Thought healers.

In explaining the prevalence of healing cults, it says: "The idea of healing the sick, and being a doctor, with all that the title entails, is very attractive

to many people, but this field of economic endeavor is closed to many by reason of the very high qualifications which the law requires of medical practitioners.

Healing cults, therefore, provide a short cut for those who lack time, money or mental capacity to attain the qualifications demanded of the medical profession."

Discussing public patronage of healing cults, Reed gave these reasons:

"1. Inattention by some medical practitioners to minor illnesses and to ailments of the mind.

"2. Doctors can not cure all diseases, and those who have failed to obtain help from regular doctors feel that little is lost by trying the irregulars."

"3. Many people still are basically superstitious about disease and health. They regard medicine neither as science nor art, but as magic."

"4. Many patients are unaware of the limitations of the healing cult practitioners whom they consult, since they do not understand the meaning of titles of the various practitioners indiscriminately called 'doctor.'"

MAN INJURED IN ACCIDENT DIES

Death Raises Traffic Toll to 37 for Year.

Injuries incurred in an auto-truck crash Saturday at Sixty-third street and Keystone avenue caused the death Monday night of William V. Marshall, 46, of 2714 North Gale street.

Marshall's death raised Marion county's traffic toll to thirty-seven for the year.

The accident occurred as a small truck which Marshall was driving collided with an auto driven by Ed Caldwell,

66, of R. R. 13, Box 329, causing the truck to overturn. Marshall suffered a fractured skull and severe body injuries. He died in the Robert Long hospital.

Marshall's son Harold, of R. R. 1, Carmel, Ind., a passenger in his

father's truck, escaped with minor bruises.

Caldwell, arrested following the accident on a charge of failing to give right of way, was to be slated today on a technical charge of involuntary manslaughter.

NAMES 'CARNATION DAY'

Governor Proclaims Saturday, Event of War Mothers.

Saturday officially was proclaimed as "Carnation day" by Governor Harry G. Leslie today. In honor of the War Mothers, he issued the following:

"Projects of mercy always are commendable. They are much more so when the subjects of tender solicitude are those who have given all in the patriotic service of our country. The dependents of those who have given the full measure of devotion should receive our most earnest care and attention. The War Mothers have assumed a large measure of responsibility in caring for those less fortunate than ourselves who answered our country's call in time of peril. They have chosen to sell carnations on May 7 as a means of raising funds for their work."

3 Boys' Blouses 88c
Plain colors, broadcloth or fancy patterns.

National Creators of Individual Wealth

The Building and Loan business in the United States is owned by 12,000,000 investors. For these investors in the six months ending December 31, 1931, building and loan associations earned nearly a quarter of a BILLION dollars. This means that the total assets of associations in the United States are nearly \$10,000,000,000.00.

The total assets of building and loan associations in Marion County amount to over \$80,000,000.00. In the ten years from 1921 to 1930, inclusive, they made loans on nearly fifty thousand homes. 18,450 of these homes were newly built; over 20,000 were homes purchased, and about 9,000 were homes remodeled. In these ten years your local associations would have aided, with a loan, every family in a community of 200,000 people. It is a remarkable record. Your associations in Marion County are proud of it . . . and proud, too, that they are in a position to continue offering a well secured investment which has always paid a good and regular return. Any local building and loan officer will gladly and frankly answer any of your inquiries.
