PUSH METER WAR

Clubs Ask Curb on Acts of Readers.

South side civic clubs at the monthly meeting Wednesday night in the Garfield park community house decided to continue a campaign to compel utility companies to accede to a demand that meter readers be barred from homes in absence of the occupants except by written permission.

J. Ed Burk, president of the clubs, said today that the public service commission has informed the organization that it is not within the scope of its power to make a regulation concerning the meter readers, but Burk said this would have no effect on the campaign and that further action will be taken at the July meeting.

The clubs endorsed a proposal of park commissioners sinking wells in Garfield park to provide a supply of water for filling the swimming pool.

There came to Chicago with each revelation increasing realization that the defeat of the 73-year-old leader in a vain fight to save his far-flung realm leaves scars not to be measured in mere dollars.

The collapse of the financial structure that bound together a network spreading into thirty-two states and Canada had been foreseen and the blow cushioned as best it could be.

REPORT DAWES WILL CONTROL INSULL FIRMS

Family of Former Utility Magnate Has Debts of 20 Millions.

BY HARRISON SALISBURY
United Press Staff Correspondent
CHICAGO, June 9.—Swiftly today the curtain was being stripped back on the drama of Samuel Insull's fall and the story like that of the wedding of his three billion dollar utility empire overflowed with superlatives.

A "writeoff" of \$35,000,000 to \$90,000,000 in the assets of Commonwealth Edison Co., Peoples Gas Light and Coke Co. and Public Service Co. of Northern Illinois, the three large Insull operating companies, reported made in an audit of the concerns ordered by eastern bankers, who held large amounts of the stock.

This would cut their combined assets to \$87,000,000 from \$947,000,000, at the last report.

Revelation that not only has the \$100,000,000 fortune of Insull been swept away, but also those of his wife, his son, Samuel Jr., and his brother, Martin, and that the total liabilities of the Insulls probably exceed \$20,000,000, with no comparable assets.

Statement by Insull in his first interview with reporters since the fall of his dominion that, "I haven't any plans for the future," but will leave soon for a long rest.
