

UNION MINERS FOIL EFFORTS TO OPEN PITS

Operators Fail in Attempts to Run Shafts With Unorganized Labor.

By United Press

TERRE HAUTE, Ind., July 1.—Peaceful pleadings of Indiana's union coal miners appeared today to have won for them a decisive victory over operators who had attempted to open their shafts on a non-union basis.

For three successive days, union pickets talked to crews of men intent upon resuming operations in the pits; on each occasion the workers returned to their homes.

H. M. Ferguson, operator of Crown Hill No. 6 and Submarine No. 2, two of the largest in the Clinton field, today announced that he would make no further effort to open his shafts.

"I'm going to take a one-year vacation trip abroad," he said, "and unless there have been marked

changes in the situation, my mines won't open during that time."

Each of the mines employs from 300 to 500 men.

Hugh Shirkie, operating Shirkie No. 1 and No. 2 mines, and the Tige shaft, said he was undecided what action to take. He likewise has been checkmated in efforts to resume operations this week.

Abe Vales, president of district No. 11, United Mine Workers of America, denied reports that renewed consideration of a union wage scale to supplant that which expired March 31 was under consideration between miners and operators.

Peru soon will open the final link of its through motor highway from Lima, on the Pacific coast, to the forest regions of the Amazon basin.

ADMITS PART IN HARLEM KILLING

Man Given Death Stay by Baby Case Confession.

By United Press

NEW YORK, July 1.—Frank Giordano, condemned murderer, reprieved fifteen minutes before he was supposed to have died in the

electric chair, won twenty-four hours more of life by confessing to participation in the Harlem baby killing.

Last July an automobile load of gangsters cruised down East One Hundred Seventh street, sprayed the sidewalk with machine gun bullets, directed at a rival gangster. A 5-year-old child was killed; three others were wounded.

In his confession to Warden Lewis Laws of Sing Sing, Giordano named the late Vincent Coll, his assassinated gang chief, and Fats McCarthy, gangster, as the other occupants of the car.

Coll and Giordano were tried for the baby killing, but were acquitted.

BRITISH, IRISH FEUD REVIVED

Both Sides Plan Economic War in New Crisis.

By United Press

LONDON, July 1.—The ancient feud between Great Britain and Ireland was revived today with tariffs and boycotts as weapons.

With hope of friendly settlement

of Anglo-Irish difficulties abandoned, after months of exchanging notes, both sides prepared for opening economic warfare.

The crisis was brought on by the Irish refusal to pay land annuities to the British crown, and the British decision to retaliate by not

renewing imperial preferences on certain Free State imports, and by levying special import duties on certain Free State products.

EVANS' E-Z-BAKE FLOUR FOR ALL PURPOSES

BLUE RIBBON MALT
AMERICA'S BIGGEST SELLER

All Flies Die

All Mosquitoes... At a Touch of This Perfumed Mist... Based on Flowers of Japan

There is a spray based on an extract of Japanese flowers. It was developed at Mellon Institute of Industrial Research by Rex Research Fellowship. Ten years and over \$100,000 have been spent in perfecting it.

The name is Fly-Tox. When used in a new-type Fly-Tox sprayer, it fills the room with a cloud of perfumed mist, harmless to people, stainless to anything.

But that flower extract is deadly to flies and mosquitoes. It kills them quickly at a touch. And they

can't escape if Fly-Tox is used rightly—to fill the whole room with that floating mist.

Fly-Tox, at a cost of 1 or 2 cents, rids room completely of these deadly pests.

This is the latest, most efficient, most economical way to free your home—and keep it free—from these germ-bearing insects. They contaminate all foods they touch—infest when the bite. They destroy over 40,000 lives per year, mostly lives of children. Employ it liberally and often to be safe.

FLY-TOX ONLY

A Rex Research Product
Use Fly-Tox only, and always in a new-type Fly-Tox sprayer. Then every stroke will release into the air some 150,000 particles of spray.

Fly-Tox is efficient beyond all compare. It is all-pervading, quick and economical. Every lot is tested

and every can, ready for serving.
